Symantec.250-573.v2026-11-23.q64

Exam Code:	250-573
Exam Name:	API Management Proven Professional Exam
Certification Provider:	Symantec
Free Question Number:	64
Version:	v2026-11-23
# of views:	113
# of Questions views:	640
https://www.freeqas.com/qa/Symantec/250-573/Symantec.250-573.v2026-11-23.q64.html	

NEW QUESTION: 1
Which assertions should be applied in CA API Gateway to implement advanced security for APIs?
(Select three)
Response:
A. SSL/TLS Transport Assertion
B. JSON Transformation Assertion
C. Threat Protection Assertion
D. SQL Query Assertion
E. Validate XML Schema Assertion
Answer: (SHOW ANSWER)

NEW QUESTION: 2
What role do ClusterWide Properties play in API Gateway configuration?
Response:
A. Optimize SSL/TLS encryption
B. Customize individual API policies
C. Streamline API documentation
D. Ensure consistent configuration across nodes
Answer: D (LEAVE A REPLY)

NEW QUESTION: 3
The _____ in the CA API Gateway setup ensures that the Primary and Secondary Nodes share the same data and configurations.
Response:
A. logging server
B. Policy Manager

C. load balancer
D. database replication
Answer: D (LEAVE A REPLY)

NEW QUESTION: 4
A banking app uses CA Mobile API Gateway to handle sensitive financial dat a. The security team wants to ensure that mobile users are properly authenticated, and any expired tokens are refreshed automatically to avoid unauthorized access.
What configuration should they implement using the Mobile SDK?
Response:
A. Implement rate limiting for API requests to avoid overloads and enable error logging
B. Use Basic Authentication for faster user login and disable token expiration
C. Set up OAuth 2.0 token management with automatic token refresh and encrypt all tokens
D. Cache API responses locally to reduce token usage and ensure faster app performance
Answer: (SHOW ANSWER)

NEW QUESTION: 5
CA Mobile Developer Console (MDC) enables you to:
(Choose three)
Response:
A. collaborate with other developers by using different MDC instances to access a common CA Mobile Access Gateway (MAG) instance.
B. download and view platform-related resources.
C. manage scopes to provide limited access to protected resources.
D. create public or confidential client applications for different platforms.
E. automatically generate API catalog entries with all published APIs.
Answer: B,C,D (LEAVE A REPLY)

NEW QUESTION: 6
When you create an external audit store for the Gateway, which factors should you consider?
(Choose three)
Response:
A. You generally need to modify the system-generated policy for JDBC audit sinks.
B. The Gateway cannot simultaneously record to the internal database and to an external source.
C. The Configure External Audit Store Wizard can be used to create an external JDBC audit store.
D. When creating a custom audit sink, you are free to configure the lookup policy as necessary.

E. You can configure a special audit lookup policy to look up audit records in an external audit store.
Answer: C,D,E (LEAVE A REPLY)

NEW QUESTION: 7
How can auditing techniques be optimized when the database is full?
Response:
A. Implement automatic data purging
B. Increase database storage capacity
C. Bypass auditing temporarily
D. Optimize firewall rules
Answer: C (LEAVE A REPLY)

NEW QUESTION: 8
What is the primary purpose of the CA API Gateway Virtual Appliance Architecture?
Response:
A. Managing SSL certificates for secure communication
B. Physically installing the Gateway on existing infrastructure
C. Handling logical configurations for API policies
D. Ensuring scalability and performance of API operations
Answer: B (LEAVE A REPLY)

NEW QUESTION: 9
A logistics company is using CA Mobile API Gateway to secure their mobile app for fleet tracking. They want to ensure that only authenticated users can access the tracking data and they need to monitor the API traffic for potential misuse.
What steps should the IT team take using CA Mobile API Gateway tools to achieve these goals?
Response:
A. Implement OAuth token-based authentication and use the Traffic Monitor for real-time API monitoring
B. Install additional network security protocols to protect the database
C. Disable API logging to increase system performance
D. Increase the API rate limits to handle additional mobile requests
Answer: A (LEAVE A REPLY)

NEW QUESTION: 10
What are the key benefits of using the Traffic Monitor in CA Mobile API Gateway? (Select three)
Response:
A. Real-time API traffic visibility

B. Insights into API performance and bottlenecks
C. Detection of potential security threats
D. Improved mobile app interface design
Answer: A,B,C (LEAVE A REPLY)

NEW QUESTION: 11
Which elements contribute to maintaining high availability in a multi-node CA API Gateway setup?
(Select three)
Response:
A. Enforcing SSL encryption on all API traffic
B. Database replication across nodes
C. Configuring load balancing between Gateway Nodes
D. Utilizing dynamic routing decisions for message handling
Answer: B,C,D (LEAVE A REPLY)

NEW QUESTION: 12
Cluster-wide properties in CA API Gateway are designed to maintain _____ across all nodes in a multi-node deployment.
Response:
A. network performance
B. database replication
C. consistent configurations
D. API version control
Answer: C (LEAVE A REPLY)

NEW QUESTION: 13
What is a key consideration when publishing REST APIs, specifically the Voonair Airlines Toronto Destination API?
Response:
A. Ensuring compatibility with SOAP protocols
B. Optimizing load balancing efficiency
C. Enabling automatic API provisioning
D. Implementing custom authentication mechanisms
Answer: D (LEAVE A REPLY)

NEW QUESTION: 14
What are some key benefits of integrating external identity providers, such as LDAP or Active Directory, with CA API Gateway?
(Select three)
Response:

A. Enhanced scalability of API services
B. Improved API payload compression
C. Centralized authentication and authorization
D. Single Sign-On (SSO) capabilities
Answer: A,C,D (LEAVE A REPLY)

NEW QUESTION: 15
How does OAuth Manager contribute to managing network zones in CA Mobile API Gateway?
Response:
A. Facilitates dynamic routing decisions
B. Ensures API backward compatibility
C. Manages OAuth token generation and validation
D. Controls access based on IP addresses
Answer: C (LEAVE A REPLY)

NEW QUESTION: 16
How do firewalls contribute to API Gateway security?
Response:
A. Facilitate dynamic routing decisions
B. Streamline SSL certificate deployment
C. Control access to API resources based on rules
D. Optimize load balancing efficiency
Answer: C (LEAVE A REPLY)

Valid 250-573 Dumps shared by PrepPdf.com for Helping Passing 250-573 Exam! PrepPdf.com now offer the **newest 250-573 exam dumps**, the PrepPdf.com 250-573 exam **questions have been updated** and **answers have been corrected** get the **newest** PrepPdf.com 250-573 dumps with Test Engine here: https://www.preppdf.com/Symantec/250-573-prepaway-exam-dumps.html (**194** Q&As Dumps, **40%OFF** **Special Discount:** **Exam-Tests**)

NEW QUESTION: 17
What is a critical step during the physical installation of the Open Virtual Appliance onto an existing infrastructure?
Response:
A. Configuring API documentation templates
B. Configuring network routing for the Gateway
C. Implementing additional API security policies

D. Installing external plugins for enhanced functionality
Answer: B (LEAVE A REPLY)

NEW QUESTION: 18
In REST API publishing, what role does API versioning play?
Response:
A. Simplifies load balancing
B. Facilitates backward compatibility
C. Enhances security features
D. Optimizes SSL certificate deployment
Answer: B (LEAVE A REPLY)

NEW QUESTION: 19
Before you install the CA Mobile API Gateway (MAG), it is important to understand the network zones you will use. Your implementation will use an Internal zone and a DMZ zone.
The zones appear in the Policy Manager. The DMZ zone contains external-facing endpoints and handles user requests coming from the SDK.
What is this zone responsible for?
(Choose three)
Response:
A. Mobile Single Sign-On (Mobile SSO) protocols
B. Touchless login using quick response (QR) codes
C. MAG Manager
D. OAuth test clients
Answer: A,B,C (LEAVE A REPLY)

NEW QUESTION: 20
What is the primary purpose of installing the CA OAuth Toolkit in the Mobile API Gateway environment?
Response:
A. To allow for API schema validation
B. To manage API traffic load balancing
C. To enhance API response time for RESTful services
D. To provide OAuth 2.0-based authentication for mobile applications
Answer: D (LEAVE A REPLY)

NEW QUESTION: 21
Which statements about Gateway cluster system requirements and configuration are TRUE?
(Choose two)

Response:
A. A Gateway cluster is NOT assigned a host name and IP address in the load balancer if each component Gateway (making up the cluster) is assigned its own IP address and host name.
B. Policy and configuration setting changes are automatically propagated to each cluster node asynchronously within 5 seconds of the change in the Policy Manager.
C. Each Gateway being assigned the role of a node in the cluster must possess its own IP address and host name in addition to the configuration within the load balancer. The cluster itself is also assigned a host name and IP address.
D. Only ONE node in the Gateway cluster must be installed and configured with a MySQL database with a known root user name and password.
Answer: B,C (LEAVE A REPLY)

NEW QUESTION: 22
What is the purpose of installing Solution Kits in the API Gateway?
Response:
A. Simplify policy management
B. Facilitate automatic API provisioning
C. Implement custom authentication mechanisms
D. Enhance Gateway functionality with pre-packaged configurations
Answer: D (LEAVE A REPLY)

NEW QUESTION: 23
Which tool is commonly used in CA API Gateway for tracking API usage and auditing?
Response:
A. Audit Logs
B. Policy Manager
C. Node Manager
D. Traffic Monitor
Answer: A (LEAVE A REPLY)

NEW QUESTION: 24
What is the primary role of the Primary Gateway Node in a CA API Gateway setup?
Response:
A. To generate encryption keys for secure communications
B. To manage configuration and synchronization with secondary nodes
C. To handle API requests from external clients
D. To store logs and archives of all API traffic
Answer: B (LEAVE A REPLY)

NEW QUESTION: 25

What is a benefit of routing via HTTPS compared to HTTP?
Response:
A. Optimized firewall rules
B. Improved performance
C. Simplified authentication
D. Enhanced security with encryption
Answer: D (LEAVE A REPLY)

NEW QUESTION: 26
You are required to authenticate a user through HTTP Basic Authentication and to ensure that the user is a member of at least one of three different groups.
Which assertion or sequence of assertions should you use?
Response:
A. Three separate Authenticate User or Group assertions inside an At Least One Assertion Must Evaluate to True folder and the Require HTTP Basic Credentials assertion
B. Require HTTP Basic Credentials and three separate Authenticate User or Group assertions inside an At Least One Assertion Must Evaluate to True folder
C. Three separate Authenticate User or Group assertions inside an At Least One Assertion Must Evaluate to True folder
D. Require HTTP Basic Credentials, specifying the list of groups as attributes of the assertion
Answer: B (LEAVE A REPLY)

NEW QUESTION: 27
The Mobile SDK in CA Mobile API Gateway manages token-based authentication by securely handling _____ tokens for mobile apps.
Response:
A. JWT
B. LDAP
C. OAuth 2.0
D. SAML
Answer: (SHOW ANSWER)

NEW QUESTION: 28
How does the "Limit Access and Throughput" assertion contribute to security enablement?
Response:
A. Enhances SSL/TLS encryption
B. Optimizes firewall rules
C. Controls access based on IP addresses
D. Simplifies load balancing
Answer: (SHOW ANSWER)

NEW QUESTION: 29
What is the purpose of advanced logging techniques in API Gateway administration?
Response:
A. Optimize load balancing efficiency
B. Enhance security with encrypted logs
C. Simplify firewall configuration
D. Facilitate troubleshooting and analysis
Answer: (SHOW ANSWER)

NEW QUESTION: 30
In what scenarios would you use the "JSON Transformation" assertion?
Response:
A. For automatic API provisioning
B. When integrating with external SOAP services
C. When transforming JSON data between API versions
D. To simplify load balancing
Answer: (SHOW ANSWER)

NEW QUESTION: 31
What is the primary purpose of publishing REST APIs in CA API Gateway?
Response:
A. To optimize database performance
B. To create documentation for SOAP services
C. To enhance graphical content in email templates
D. To expose backend services securely for external access
Answer: D (LEAVE A REPLY)

Valid 250-573 Dumps shared by PrepPdf.com for Helping Passing 250-573 Exam! PrepPdf.com now offer the **newest 250-573 exam dumps**, the PrepPdf.com 250-573 exam **questions have been updated** and **answers have been corrected** get the **newest** PrepPdf.com 250-573 dumps with Test Engine here: https://www.preppdf.com/Symantec/250-573-prepaway-exam-dumps.html (**194** Q&As Dumps, **40%OFF** **Special Discount:** **Exam-Tests**)

NEW QUESTION: 32
Which database component is essential for the CA API Gateway to function correctly?
Response:
A. MySQL database

B. MongoDB
C. PostgreSQL database
D. In-memory database
Answer: C (LEAVE A REPLY)

NEW QUESTION: 33
A global airline company needs to ensure that their API for handling flight reservations is secure and scalable. They want to apply common security policies across multiple API endpoints while ensuring high availability across their distributed infrastructure.What steps should they take to configure their CA API Gateway for this requirement?
Response:
A. Use SSL/TLS Transport assertions and configure policy fragments for reuse
B. Increase the number of secondary Gateway nodes without configuring load balancing
C. Configure JSON schema validation for each API request and response
D. Set up real-time traffic monitoring and create API-specific logging templates
Answer: (SHOW ANSWER)

NEW QUESTION: 34
When would the JSON Transformation Assertion be most beneficial in API management?
Response:
A. When converting XML responses to JSON format for frontend applications
B. When validating XML data against a schema
C. When encrypting sensitive JSON payloads
D. When limiting the rate of API requests
Answer: A (LEAVE A REPLY)

NEW QUESTION: 35
Which assertions would you typically use to secure API requests in CA API Gateway? (Select three)
Response:
A. WS-Security Assertion
B. SQL Query Assertion
C. HTTP Basic Authentication Assertion
D. Validate JSON Schema Assertion
E. SSL/TLS Transport Assertion
Answer: (SHOW ANSWER)

NEW QUESTION: 36
What is the primary purpose of WS-Security in API management?
Response:
A. Optimize load balancing

B. Facilitate automatic API provisioning
C. Streamline firewall configuration
D. Ensure secure communication over web services
Answer: D (LEAVE A REPLY)

NEW QUESTION: 37
A healthcare organization is using CA API Gateway to manage its patient data APIs. Due to regulatory requirements, they need to protect their APIs from common threats such as SQL injection and ensure all communications are encrypted.
What combination of assertions should they use to meet these requirements?
Response:
A. Routing Assertion and Validate JSON Schema Assertion
B. JSON Transformation Assertion and Rate Limiting Assertion
C. SSL/TLS Transport Assertion and Threat Protection Assertion
D. Limit Throughput Assertion and Validate XML Schema Assertion
Answer: C (LEAVE A REPLY)

NEW QUESTION: 38
What is the purpose of Policy Assertions in API Gateway management?
Response:
A. Enforce security policies
B. Define routing rules
C. Optimize SSL encryption
D. Simplify load balancing
Answer: A (LEAVE A REPLY)

NEW QUESTION: 39
What is the primary purpose of the Validate XML Schema Assertion in the CA API Gateway?
Response:
A. To compress XML messages for faster delivery
B. To verify that incoming XML messages conform to a predefined schema
C. To encrypt XML data for secure transmission
D. To validate JSON payloads for RESTful APIs
Answer: B (LEAVE A REPLY)

NEW QUESTION: 40
What does the CA API Gateway Virtual Appliance Architecture primarily focus on?
Response:
A. API Gateway User Interface
B. Physical installation of the Gateway

C. Scalability and Performance
D. Logical configuration of APIs
Answer: C (LEAVE A REPLY)

NEW QUESTION: 41
What is the recommended hypervisor for installing the Open Virtual Appliance?
Response:
A. KVM
B. VMware
C. Hyper-V
D. VirtualBox
Answer: B,C (LEAVE A REPLY)

NEW QUESTION: 42
What is the primary purpose of adding Threat Protection Assertions in API Gateway policies?
Response:
A. Optimize load balancing
B. Facilitate dynamic routing decisions
C. Ensure API backward compatibility
D. Detect and prevent common security threats
Answer: D (LEAVE A REPLY)

NEW QUESTION: 43
Using the _____ provided by CA Mobile API Gateway, developers can easily integrate OAuth 2.0 authentication into their mobile applications.
Response:
A. API Rate Limiter
B. Token Generator
C. Mobile SDK
D. OAuth Manager
Answer: C (LEAVE A REPLY)

NEW QUESTION: 44
To prevent service overload from mobile applications, administrators should configure a _____ policy to limit the number of API requests within a specific time frame.
Response:
A. Rate Limiting
B. Routing
C. JSON Transformation
D. Threat Protection

Answer: (SHOW ANSWER)

NEW QUESTION: 45
When managing APIs using policies in CA API Gateway, which elements are critical to include in dynamic routing decisions?
(Select three)
Response:
A. API versioning
B. Payload size and content type
C. Destination server availability
D. Authentication credentials
E. Real-time server performance data
Answer: B,C,D (LEAVE A REPLY)

NEW QUESTION: 46
What is the primary function of the "Limit Access and Throughput to a Resource" assertion in CA API Gateway?
Response:
A. To increase the speed of API processing
B. To block all unauthorized access to the API Gateway
C. To control the number of requests to specific API endpoints
D. To enhance encryption for secure API requests
Answer: C (LEAVE A REPLY)

Valid 250-573 Dumps shared by PrepPdf.com for Helping Passing 250-573 Exam! PrepPdf.com now offer the **newest 250-573 exam dumps**, the PrepPdf.com 250-573 exam **questions have been updated** and **answers have been corrected** get the **newest** PrepPdf.com 250-573 dumps with Test Engine here: https://www.preppdf.com/Symantec/250-573-prepaway-exam-dumps.html (**194** Q&As Dumps, **40%OFF** **Special Discount:** **Exam-Tests**)

NEW QUESTION: 47
Examples of CA API Gateway form factors include:
(Choose three)
Response:
A. a physical appliance.
B. a 64-bit virtual appliance in open virtual appliance (OVA) format.
C. a 32-bit Linux OS packaged VM.
D. a Windows OS packaged physical appliance.

E. a virtual appliance running under the Azure cloud platform.
Answer: A,B,E (LEAVE A REPLY)

NEW QUESTION: 48
In which circumstance do you typically use the Gateway Migration Utility (GMU)?
Response:
A. When you need to migrate system files such as system.properties or host.properties
B. When you need to configure Command Line Policy Migration Tool (CMT) mappings using a web browser interface
C. When you need to migrate policies, services, or entities
D. When you need to clone an entire Gateway
Answer: C (LEAVE A REPLY)

NEW QUESTION: 49
After installing the CA API Gateway, configuring _____ is necessary to ensure all communication between the Gateway and external clients is encrypted.
Response:
A. firewall settings
B. rate-limiting policies
C. SSL/TLS
D. logging templates
Answer: C (LEAVE A REPLY)

NEW QUESTION: 50
Why would you use Policy Fragments in API management?
Response:
A. Streamline SSL certificate deployment
B. Enhance security features
C. Facilitate load balancing
D. Simplify policy management
Answer: B,D (LEAVE A REPLY)

NEW QUESTION: 51
Why is configuring database replication important in a CA API Gateway setup?
Response:
A. Simplify policy management
B. Facilitate automatic API provisioning
C. Ensure data consistency and fault tolerance
D. Improve API performance
Answer: C (LEAVE A REPLY)

NEW QUESTION: 52
In the context of API Gateway, what do Solution Kits typically include?
Response:
A. Load balancing algorithms
B. API documentation templates
C. SSL certificate deployment tools
D. Pre-configured policies and assertions
Answer: (SHOW ANSWER)

NEW QUESTION: 53
What security feature does the Mobile SDK provide to mobile apps for secure API communication?
Response:
A. Token encryption for secure communication
B. API version control
C. Rate limiting for API requests
D. Payload compression
Answer: A (LEAVE A REPLY)

NEW QUESTION: 54
Why is thorough documentation important in the CA API Gateway setup?
Response:
A. Enhance system security
B. Facilitate troubleshooting and support
C. Simplify load balancing
D. Automate policy management
Answer: B (LEAVE A REPLY)

NEW QUESTION: 55
Which post-installation task is necessary to enable CA Mobile API Gateway functionality?
Response:
A. Setting up load balancers for API routing
B. Configuring the OAuth Manager and access tokens
C. Enabling mobile-specific assertions in the Policy Manager
D. Installing additional SSL/TLS certificates
Answer: (SHOW ANSWER)

NEW QUESTION: 56
What is the primary purpose of using CA Mobile API Gateway Tools?
Response:
A. Facilitate automatic API provisioning

B. Practice and refine skills for managing the Gateway
C. Optimize SSL certificate deployment
D. Analyze mobile app performance
Answer: B (LEAVE A REPLY)

NEW QUESTION: 57
Which steps are required during the installation of the CA OAuth Toolkit?
(Select three)
Response:
A. Configuring token expiration times
B. Installing the Policy Manager on the mobile client
C. Defining the authorization server settings
D. Setting up OAuth access and refresh tokens
Answer: (SHOW ANSWER)

NEW QUESTION: 58
What is the primary purpose of applying the "JSON Transformation" assertion?
Response:
A. Ensure JSON data conformity to a specified schema
B. Optimize load balancing
C. Simplify API documentation
D. Facilitate dynamic routing decisions
Answer: (SHOW ANSWER)

NEW QUESTION: 59
Folders are useful for organizing your services and policies. Which statements about folders are TRUE?
(Choose two)
Response:
A. Only a user with the administrator role can create folders.
B. The Manage Folder role allows a user to create, read, update, and delete services or policies within the folder.
C. The Update Folder role provides the ability to read the update services or policies within the folder.
D. Folders can be placed into zones, which will enable a user with the corresponding Manage X Zone role to manage folders that are in the X zone.
Answer: (SHOW ANSWER)

NEW QUESTION: 60
Which steps are involved in the authentication process when using CA Mobile API Gateway's Mobile SDK?

(Select three)
Response:
A. Caching API responses for quicker access
B. Encrypting API payloads for secure delivery
C. Token request using OAuth 2.0
D. Validating the token's expiration time
Answer: (SHOW ANSWER)

NEW QUESTION: 61
Which advanced security assertions would help protect APIs from common threats such as unauthorized access and malicious payloads?
(Select three)
Response:
A. Limit Throughput Assertion
B. SSL/TLS Transport Assertion
C. Threat Protection Assertion
D. WS-Security Assertion
Answer: B,C,D (LEAVE A REPLY)

Valid 250-573 Dumps shared by PrepPdf.com for Helping Passing 250-573 Exam! NEW QUESTION: 62
Which statements about policies and policy creation are TRUE?
(Choose two)
Response:
A. Included policy fragments will cause an increase to the numbering hierarchy by adding a decimal place.
B. Policy validation feedback cannot be disabled.
C. To aid in the migration of policies, the creator has the option of specifying the policy GUID at policy creation time.
D. The first assertion in a policy is always numbered 2 because there is an implicit All Assertions Must Evaluate to True assertion at the root of every policy.
Answer: A,D (LEAVE A REPLY)

NEW QUESTION: 63
Why is it important to follow a step-by-step installation process for CA Mobile API Gateway?
Response:
A. To simplify load balancing configurations
B. To prevent installation errors and ensure a successful setup
C. To facilitate dynamic routing decisions
D. To enhance SSL/TLS encryption
Answer: (SHOW ANSWER)

NEW QUESTION: 64
The _____ assertion in CA API Gateway is used to encrypt and secure API communication over HTTPS.
Response:
A. JSON Transformation
B. Route via HTTP
C. WS-Security
D. SSL/TLS Transport
Answer: D (LEAVE A REPLY)

Valid 250-573 Dumps shared by PrepPdf.com for Helping Passing 250-573 Exam!
