NEW QUESTION: 1

Individuals who are not U.S. citizens, or are immigrants, are not eligible for security clearances except under reciprocal clearance involving:

- A. NATO countries
- B. Israel and Canada
- C. Both c and d
- D. Canada and NATO countries
- E. Canada and the United Kingdom
- F. None of the above

Answer: (SHOW ANSWER)

NEW QUESTION: 2

A study by scientists at Yale University (1939) found that theft resulted from:

- A. Aggression, frustration, and lack of moral values
- B. Aggression, low morale, and low anticipation of being caught
- C. Aggression, frustration, and low anticipation of being caught
- D. Lack of religion and moral values
- E. Aggression, frustration, and need

Answer: C (LEAVE A REPLY)

NEW QUESTION: 3

The process whereby communications are intercepted or recorded is known as:

- A. Surreptitious surveillance
- B. Black bag operations
- C. Physical surveillance
- D. None of the above

E. Technical surveillance

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 4

Cocaine is derived from which of the following?

- A. Coffee bean
- B. Poppy plant
- C. Mushrooms
- D. Cactus plant
- E. Coca plant

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 5

Which of the following substances would be classified as a depressant under the Controlled Substance Act?

- A. Pethadol
- B. Preludin
- C. Dilaudid
- D. Miltown
- E. All of the above
- F. Darvon

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 6

Which of the following should be a required criterion of the security guard's post orders?

- A. None of the above.
- B. The order should be detailed.
- C. The order should be written at the lowest level possible.
- D. The order should be indexed sparingly.
- E. Each order should deal with multiple subjects.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 7

When companies are downsizing their staffs, increasing a manager's span of control is often effective because it:

- A. discourages employee autonomy and cuts overhead.
- B. encourages tight supervision and reduces cost.
- C. reduces cost and discourages employee autonomy, which isolates upper management.
- D. cuts overhead and increases flexibility.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 8

The National Bomb Data Center is operated by the:

- A. FBI
- B. Census Bureau
- C. ATF
- D. LEAA
- E. CIA

Answer: [\(SHOW ANSWER\)](#)

NEW QUESTION: 9

The National Bomb Data Center is operated by the:

- A. LEAA
- B. FBI
- C. ATF
- D. CIA
- E. Census Bureau

Answer: **B** ([LEAVE A REPLY](#))

NEW QUESTION: 10

Which of the following is not suggested behavior for the victim of a kidnapping?

- A. Do not try to escape unless there is a good chance of success.
- B. Do not discuss possible rescues.
- C. Stay calm.
- D. Do not cooperate with captors.
- E. Try to remember events.

Answer: **C** ([LEAVE A REPLY](#))

NEW QUESTION: 11

Department of Defense regulations indicate that destruction of classified information can be accomplished by:

- A. Burning
- B. All of the above
- C. Mutilation
- D. Melting
- E. Chemical decomposition

Answer: **B** ([LEAVE A REPLY](#))

NEW QUESTION: 12

The basic or "organic" law of the United States is:

- A. Common law

- B. U.S. statutes at large
- C. U.S. Constitution
- D. Supreme Court decisions
- E. The Bill of Rights

Answer: ([SHOW ANSWER](#))

Explanation

NEW QUESTION: 13

The trend for the future in private security is toward:

- A. hybrid systems with proprietary guard forces and contract supervision.
- B. primarily contract guard forces and supervision.
- C. hybrid systems with proprietary supervision and contract guards.
- D. primarily proprietary guard forces and supervision.

Answer: ([SHOW ANSWER](#))

The trend in private security is moving toward hybrid systems that combine proprietary supervision (to maintain control and integrate security strategy within the organization) with contract guards (to reduce costs and increase flexibility). This approach offers the benefits of both proprietary and contract systems, balancing quality control with cost efficiency.

ASIS Certified Protection Professional (CPP) References:

- * Security Trends and Innovations: The CPP manual discusses hybrid systems as a growing trend in the private security industry.
- * Guard Force Management: Chapter 6 explores the advantages and challenges of blending proprietary and contract elements in security operations.

NEW QUESTION: 14

A key role in any emergency will be played by the plant manager or, in his or her place, an authorized

official such as the emergency coordinator or security chief. Which of the following should not be done

personally by this official?

- A. Mobilize employees and other resources to the extent required.
- B. Alert and inform the local government emergency coordinator.
- C. Brief plant control center staff on the emergency situation.
- D. Take personal charge of all operations at the disaster scene.
- E. Activate the plant control center.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 15

Identify the Act that basically prohibits discrimination, discharge, failure or refusal to hire, etc., on any of

the grounds of race, color, religion, sex, or national origin:

- A. The Civil Rights Act of 1964
- B. The First Amendment
- C. None of the above
- D. The Fair Credit Reporting Act
- E. The Omnibus Crime Control Act

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 16

Which of the following is not correct pertaining to the use of depressants?

- A. The intoxicating effects of depressants are the same as narcotics.
- B. Depressants can be used as a means of suicide.
- C. Taken in low doses, they will produce mild sedation.
- D. Excessive use results in drunken behavior similar to that of alcohol.
- E. Taken as prescribed, they are beneficial for relief of tension and anxiety.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 17

What are the advantages of having an outside organization perform background screening on your employees?

- A. Screenings will be unbiased with no corrupt motivation.
- B. Depending on the number of checks, the costs will be lower.
- C. Screening will be done by trained staff with extensive sources of information.
- D. Company personnel are spared potential embarrassments as well as liability claims.
- E. All of the above.

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 18

A natural hazard that poses a threat to many areas of this country is a hurricane. As soon as the weather forecaster determines a particular section of the coast will feel the full effects of a hurricane, he issues a

hurricane warning. Such a warning specifies which of the following?

- A.** The fact that there are definite indications a hurricane is forming and a name to the storm is given
- B.** Coastal areas where winds of 74 mph or higher are expected
- C.** Coastal areas where inhabitants should listen closely for further advisories and be ready to take precautionary actions
- D.** Coastal areas where winds are 100 mph or higher are expected
- E.** Coastal areas where the eye of the storm will pass

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 19

Which of the following elements elevates the crime of larceny to robbery?

- A.** Intent to deprive the owner of the use of certain property
- B.** Wrongful taking of the property of another
- C.** Through the use of force or threat of force
- D.** Unlawful appropriation of property

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 20

The type of sensor that is not influenced by exterior noise, reacts only to movement within a protected

area, and can also be adjusted to the movement of air caused by a fire to activate the alarm is known as

a(n):

- A.** Ultrasonic sensor
- B.** Microwave sensor
- C.** Vibration sensor
- D.** Proximity sensor
- E.** Radar sensor

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 21

The designation that should only be applied to information or material that unauthorized disclosure could reasonably be expected to cause exceptionally grave damage to national security is:

- A.** Top secret
- B.** Cosmic
- C.** Confidential
- D.** Secret
- E.** Restricted

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 22

The purpose for employing an access control program includes:

- A.** To permit or deny entrance
- B.** To protect persons, materials, or information
- C.** All of the above
- D.** To slow or speed up the rate of movement to, from, or within an establishment
- E.** Both A and C

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 23

The two reasons for testing the security operating program are:

- A.** identification of residual risks or deficiencies and identification of system changes needed to accommodate organizational changes.
- B.** identification of new system requirements and resource justification.
- C.** determination of further changes needed in the software and identification of operational problems.
- D.** training of personnel and development of new identification procedures as required.

Answer: A ([LEAVE A REPLY](#))

Testing the security operating program helps to uncover residual risks or weaknesses that persist despite implemented controls and identifies necessary system changes to address evolving organizational needs.

These tests ensure the program remains effective and aligned with the organization's goals and risk environment.

ASIS Certified Protection Professional (CPP) References:

- * Risk Management and Program Evaluation: CPP materials emphasize the role of regular testing in identifying weaknesses and adapting security programs to organizational changes.
- * Continuous Improvement: The CPP framework stresses iterative testing to ensure ongoing program effectiveness.

NEW QUESTION: 24

The most effective way to maintain acceptable levels of vigilance is to:

- A.** systematically rotate the security officer's duties between fixed post and roving patrol.
- B.** limit assignment duration to a maximum of six hours.
- C.** incorporate non-security duties into each shift assignment.
- D.** randomly assign security officers to a fixed post or a roving patrol according to their preferences.

Answer: ([SHOW ANSWER](#))

Systematically rotating duties between fixed posts and roving patrols helps maintain vigilance by reducing monotony and fatigue. It keeps security officers engaged and alert, ensuring better situational awareness and response capability. Random assignments or excessive non-security duties may detract from focus and operational efficiency.

ASIS Certified Protection Professional (CPP) References:

* Security Personnel Management: CPP materials highlight duty rotation as a key strategy for maintaining officer vigilance and morale.

* Human Factors in Security: The role of structured rotations in reducing fatigue and enhancing alertness is emphasized in CPP training modules.

NEW QUESTION: 25

The type of glass that is often used for both safety and security purposes because it is three to five times

stronger than regular glass and five times as resistant to heat is:

- A. None of the above
- B. Wired glass
- C. Reflective glass
- D. Coated glass
- E. Tempered glass

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 26

Usually the most difficult part of an executive protection plan is:

- A. None of the above
- B. To initiate liaison with local authorities
- C. To initiate liaison with federal agencies
- D. To convince the executive being protected of the need for such protection
- E. To secure trained personnel

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 27

Department of Defense regulations require initial approval in writing prior to processing any classified

information in an ADP system by which of the following authorities:

- A. National Security Agency
- B. Defense Intelligence Agency
- C. Cognizant Security Office
- D. The head of the Industrial Security Clearance Office
- E. The contracting officer

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 28

Which of the following terms best describes when a person's tissue cells have adjusted to the presence of a drug?

- A. Habituation
- B. Physical addiction
- C. Tolerance
- D. Dependence

Answer: [\(SHOW ANSWER\)](#)

Tolerance occurs when a person's tissue cells adjust to the presence of a drug, requiring increasing amounts of the substance to achieve the same effect. Tolerance differs from addiction or dependence, as it primarily reflects the body's physiological adaptation rather than psychological or physical craving.

ASIS Certified Protection Professional (CPP) References:

- * Behavioral and Substance Abuse Risk Management: CPP materials address the importance of understanding substance-related terms when designing workplace security and safety programs.
- * Personnel Security and Risk: Chapter 5 highlights issues related to substance abuse and their implications for workplace risk management.

NEW QUESTION: 29

Which of the following is not a brand name of meprobamate?

- A. Preludin
- B. Kesso-Bamate
- C. Equanil
- D. SK-Bamate
- E. Miltown

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 30

Installation of a wireless radio eavesdropping device usually consists of the following:

- A. Transmitter and receiver
- B. Power supply
- C. Antenna
- D. Microphone
- E. Both A and D
- F. All of the above

Answer: F ([LEAVE A REPLY](#))

Explanation

NEW QUESTION: 31

The Freedom of Information Act, passed in 1966, applies to:

- A. Private industry
- B. None of the above
- C. The federal government only
- D. State governments
- E. State and federal governments

Answer: ([SHOW ANSWER](#))

Valid ASIS-CPP Dumps shared by PrepPdf.com for Helping Passing ASIS-CPP Exam! NEW QUESTION: 32

An example of a mala prohibita crime is:

- A. Kidnapping
- B. Rape
- C. Murder
- D. Illegal parking
- E. Assault

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 33

The public statute passed to protect personal information in possession of federal agencies is:

- A. The Unauthorized Disclosure Act
- B. The Espionage Statute
- C. None of the above
- D. The Privacy Act of 1974
- E. The Omnibus Crime Control Act

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 34

In situations in which at least one party to a communication is aware and willing that the recording of his or

her conversation with another person or persons is being made, it is:

- A. Allowed by 18 USC 2511
- B. A violation of the Omnibus Crime Control Act

- C. Not a violation
- D. A violation of the Federal Communications Act
- E. Allowed by the Federal Anti-Racketeering Statute

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 35

The ionization fire detector warns of fire by responding to:

- A. Light changes
- B. Infrared emissions from flames
- C. Heat
- D. Smoke
- E. Invisible products of combustion emitted by a fire at its earliest stages

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 36

The requirement that certain types of contracts be in writing in order for a contract to be enforceable in a lawsuit is known as a:

- A. None of the above
- B. Contingency contract
- C. Voidable contract
- D. Strict liability contract
- E. Statute of frauds

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 37

An employer may not question an applicant about:

- A. Unexplained gaps in employment history
- B. An unsatisfactory interview
- C. A conviction for a crime against property
- D. An arrest for a crime against property

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 38

Which of the following is a characteristic of a mail bomb?

- A. None of the above.
- B. It was mailed from a foreign country.
- C. It is addressed to an individual by name or title.
- D. Its bulk and weight is greater than a normal airmail letter.
- E. All of the above.

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 39

A national crime survey for the years 1975-1988 reported that the percentage of households touched by crime had:

- A. Decreased by 5 percent
- B. Decreased by 23 percent
- C. Increased by 7 percent
- D. Increased by 25 percent

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 40

Which of the following should be made part of a proprietary information protection program?

- A. All of the above
- B. Paper and data control
- C. Effective perimeter control system
- D. Execution of patent and secrecy agreement
- E. Pre-employment screening
- F. Both a and c

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 41

One reason that all security training must be well documented is:

- A. for use by human resources.
- B. to justify the security training budget.
- C. to protect the company from litigation.
- D. to promulgate company policies.

Answer: C ([LEAVE A REPLY](#))

Documenting all security training is critical to protect the organization from litigation. Proper records demonstrate due diligence and compliance with regulatory or legal requirements, showing that employees were adequately trained on policies and procedures.

* Litigation Defense:

* In case of an incident, documented training can be used to prove that the organization took reasonable steps to educate employees and mitigate risks.

* Regulatory Compliance:

* Many industries require documentation to verify compliance with safety and security standards.

* Performance Evaluation:

* Documentation allows management to track training completion and identify knowledge gaps.

* A: While HR may use training records, this is not the primary reason for documentation.

* B: Justifying budgets is a secondary benefit, not the primary reason.

* D: Promulgating policies is part of the training process but does not require extensive documentation.

Key Reasons for Documentation: Why Other Options Are Incorrect: ASIS CPP References:

* Domain 3: Security Operations Discusses the importance of training and documentation in reducing liability and ensuring compliance.

NEW QUESTION: 42

Of the following substance schedules, which one has an accepted medical use in treatment and a low potential for abuse with limited psychological and physical dependence when compared to other substances and drugs?

A. Schedule V

B. Schedule IV

C. Schedule II

D. Schedule I

E. Schedule III

Answer: ([**SHOW ANSWER**](#)**)**

NEW QUESTION: 43

Of all those with mental disorders, the most dangerous subject to handle is:

A. A neurotic

B. One suffering hysteria

C. A paranoid psychotic

D. One suffering phobia

E. Schizophrenic

Answer: C ([**LEAVE A REPLY**](#)**)**

NEW QUESTION: 44

An arrest made by a guard who has not been deputized is called:

A. An illegal arrest

B. A citizen's arrest

C. None of the above

D. A conservator's arrest

E. A detention

Answer: B ([**LEAVE A REPLY**](#)**)**

NEW QUESTION: 45

Knowing where security fits into a company's budget is critical to the manager successfully accessing financial resources. Which of the following statements best describes a security department's impact on the bottom line?

- A. The security department helps the profit margin by reducing or preventing losses of company assets.
- B. The security department's expense requests must be supported by a cost-benefit analysis.
- C. The security department is an investment with a predictable rate of return.
- D. The security department's costs must be minimized to reduce the expense side of the corporate ledger

Answer: A (LEAVE A REPLY)

NEW QUESTION: 46

One of the following is not prohibited by the Federal Civil Rights Act during an investigation:

- A. Asking questions about prior arrests
- B. Directing inquiry into areas of race or color for discriminatory purposes
- C. Directing inquiry into areas of religion or sex for discriminatory purposes
- D. Asking questions about prior convictions
- E. None of the above

Answer: D (LEAVE A REPLY)

NEW QUESTION: 47

Which test determines whether a procedure, lock, or electronics system will do what it was designed to do?

- A. Regression
- B. Safety
- C. Functional
- D. Stress

Answer: (SHOW ANSWER)

A functional test determines whether a procedure, lock, or electronic system performs its intended purpose.

This type of testing is critical for verifying the reliability and effectiveness of security measures.

* Verification of Design Intent:

- * Ensures systems operate as specified.
- * Operational Assurance:
- * Confirms that procedures and systems meet operational needs.
- * Compliance with Standards:
- * Validates adherence to technical and regulatory requirements.
- * A: Regression testing evaluates changes in software but not physical or procedural systems.
- * B: Safety testing focuses on hazard prevention, not functionality.
- * D: Stress testing examines performance under extreme conditions, not normal functionality.

Purpose of Functional Testing: Why Other Options Are Incorrect: ASIS CPP References:

- * Domain 5: Physical Security Covers the testing of security systems to ensure operational effectiveness.

NEW QUESTION: 48

As security manager of the ZYX Corporation, you have been instructed to devise company plans to protect vital records in the event of a disaster. You immediately realize the serious nature of such plans and begin to make appropriate plans.

Approximately what percentage of the company's records would normally constitute a company's vital records to be safeguarded during an emergency?

- A. 20 percent
- B. 10 percent
- C. 2 percent
- D. 5 percent
- E. 8 percent

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 49

According to Hallcrest II, North American incidents of terrorism represent what percentage of worldwide incidents?

- A. About 10 percent
- B. Less than 1 percent
- C. Almost 25 percent
- D. 40 percent

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 50

In order to dissipate heat, a records safe must contain insulation and:

- A. laminated steel.
- B. carbon.
- C. vacuum.

D. moisture.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 51

Which of the following is a mala prohibita offense?

- A. Rape
- B. Speeding
- C. Forgery
- D. Burglary
- E. Robbery

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 52

Which of the following can be used to authenticate and authorize computer access?

- A. What a person presents/what a person inserts/what a person has
- B. Who a person knows/what a person has/what a person inserts
- C. What a person has/what a person transfers/what a person is
- D. What a person has/what a person knows/who a person is

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 53

Which of the following is not another name for methamphetamine?

- A. Optamil
- B. Darvon
- C. Parest
- D. Sopor
- E. Voranil
- F. Both B and E

Answer: F ([LEAVE A REPLY](#))

Explanation

NEW QUESTION: 54

Narcotics are known by a number of trade names. One of the trade names is:

- A. Quaalude
- B. Butisol
- C. Valium
- D. Paregoric
- E. Azene

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 55

To improve cooperation and communications between private security and law enforcement, the authors of Hallcrest II recommend that:

- A. Cities and counties enact ordinances providing for the police to regulate security
- B. Cooperative programs be established in every metropolitan area
- C. Secondary employment of law enforcement officers in security work be prohibited
- D. Police academies teach security officers more about police work

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 56

An administrative determination that an individual is eligible for access to classified information is:

- A. None of the above
- B. Communications security clearance
- C. National security clearance
- D. Industrial security clearance
- E. Personnel security clearance

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 57

A standard barbed-wire, twisted, double-strand fence has ___ point barbs spaced an equal distance apart.

- A. 2
- B. 1
- C. 3
- D. 4
- E. 5

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 58

Performing a vulnerability analysis, selecting and installing countermeasures, and testing the operating program are three general steps in the:

- A. conducting of a security survey.
- B. design of a fully integrated security system.
- C. selection of a comprehensive security system.
- D. systems approach to an asset protection program.

Answer: ([SHOW ANSWER](#))

Performing a vulnerability analysis, selecting and installing countermeasures, and testing the operating program are key steps in the systems approach to an asset protection program. This methodology ensures a comprehensive and integrated process for safeguarding assets by systematically identifying vulnerabilities, implementing appropriate measures, and verifying their effectiveness.

ASIS Certified Protection Professional (CPP) References:

- * Asset Protection Frameworks: CPP materials highlight the systems approach as a best practice in creating robust asset protection programs.
- * Physical and Information Security Integration: Chapter 6 outlines how vulnerability analysis, countermeasure deployment, and testing form the backbone of an effective security strategy.

NEW QUESTION: 59

The final step in conducting a security risk analysis is consideration of the cost versus the benefit of:

- A. human resources strategy.
- B. security strategy.
- C. insurance.
- D. risk strategy.

Answer: B (LEAVE A REPLY)

The final step in a security risk analysis involves evaluating the cost of implementing a security strategy versus its benefits. This ensures that the proposed measures are economically justifiable and align with organizational goals.

- * Identify Assets and Risks:
 - * Determine critical assets and potential vulnerabilities.
 - * Analyze Threats and Impacts:
 - * Assess the likelihood and consequences of threats.
 - * Propose Mitigation Measures:
 - * Develop strategies to address identified risks.
 - * Cost-Benefit Analysis:
 - * Compare the costs of implementing security controls to the potential benefits, such as risk reduction or compliance.
 - * A: Human resources strategy focuses on workforce management, not security.
 - * C: Insurance is a risk transfer strategy but not a standalone solution.
 - * D: Risk strategy is too broad; the focus here is specifically on security measures.
- Steps in Security Risk Analysis: Why Other Options Are Incorrect: ASIS CPP References:
- * Domain 1: Security Principles and Practices Discusses the integration of cost-benefit analysis into security planning.

NEW QUESTION: 60

The designation that should only be applied to information or material that unauthorized disclosure could

reasonably be expected to cause exceptionally grave damage to national security is:

- A. Confidential
- B. Top secret
- C. Secret

- D. Cosmic
- E. Restricted

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 61

An example of an honesty test given by firms to determine dishonest employees is:

- A. Both band c
- B. All of the above
- C. The Reid survey
- D. The Minnesota Multiphase Personality Inventory (MMPI)
- E. The Stanford-Binet test

Answer: C ([LEAVE A REPLY](#))

Valid ASIS-CPP Dumps shared by PrepPdf.com for Helping Passing ASIS-CPP Exam! <https://www.preppdf.com/ASIS/ASIS-CPP-prepaway-exam-dumps.html> (770 Q&As Dumps, **40%OFF** Special Discount: **Exam-Tests**)

NEW QUESTION: 62

Which of the following types of lighting enables a color video surveillance camera to produce the most accurate color rendition?

- A. High-pressure sodium
- B. Mercury vapor
- C. Low-pressure sodium
- D. Metal halide

Answer: D ([LEAVE A REPLY](#))

Metal halide lighting provides a broad spectrum of light that closely resembles natural daylight, enabling video surveillance cameras to capture accurate color rendition. Accurate color rendition is essential for identifying objects, individuals, or incidents in surveillance footage. Other types of lighting, such as high- pressure and low-pressure sodium, produce light with limited spectral output, which distorts colors significantly.

ASIS Certified Protection Professional (CPP) References:

- * Lighting for Security Applications: CPP materials discuss the importance of light quality for security systems, particularly in video surveillance.
- * Technology and Surveillance Integration: Proper lighting is highlighted as a critical component of effective camera system performance in CPP guidelines.

NEW QUESTION: 63

The interior height of a vault should not exceed:

- A. 9 feet
- B. 11 feet
- C. 10 feet
- D. 8 feet
- E. 12 feet

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 64

An organization's front-line security manager and their team are concerned that their jobs are in peril after learning about a plan to invest in new security technology. The organization's vice president of security should explain that:

- A. the new technology will be phased in slowly and the company will have time to train the security team in new positions
- B. the front-line security team will likely be downsized slowly as the company validates the actual capabilities of the new systems.
- C. the information about security technology is confidential, and supervisors should not discuss it with their team members.
- D. existing manpower will enhance the new technology and act as a force multiplier by improving efficiency and accountability.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 65

"Strict liability in tort" is also known as:

- A. Intentional liability
- B. Liability without fault
- C. Gross negligence
- D. Comparative negligence
- E. Last clear chance

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 66

The two reasons for testing the security operating program are:

- A. training of personnel and development of new identification procedures as required.
- B. identification of residual risks or deficiencies and identification of system changes needed to accommodate organizational changes.
- C. identification of new system requirements and resource justification.
- D. determination of further changes needed in the software and identification of operational problems.

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 67

The general rule as to the amount of force a guard is permitted to use in order to accomplish a lawful arrest is:

- A. Only such force as is reasonably necessary
- B. Up to and including deadly force
- C. The amount needed to ensure the guard is not injured
- D. The maximum amount

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 68

When handling bullets as evidence, it is most important to avoid:

- A. storage at high temperatures.
- B. storage at low temperatures.
- C. damage to rifling marks on the circumference.
- D. damage by dropping them on a hard surface.

Answer: ([SHOW ANSWER](#))

When handling bullets as evidence, it is most important to avoid damage to rifling marks on the circumference, as these marks are critical for forensic analysis. Rifling marks can link a bullet to a specific firearm, and any damage may compromise the evidence's integrity and its admissibility in court.

ASIS Certified Protection Professional (CPP) References:

- * Evidence Handling: CPP materials stress the importance of preserving physical evidence, especially ballistic evidence, during collection and storage.
- * Forensic Security Practices: Chapter 9 includes guidelines for handling and preserving ballistic evidence.

NEW QUESTION: 69

Defense Department regulations require the identification card of a defense contractor to include a:

- A. Distinctive color coding
- B. Thumbprint
- C. Photograph of the holder
- D. Symbol code
- E. All of the above

Answer: ([SHOW ANSWER](#))

Explanation

NEW QUESTION: 70

Which of the following substances would induce poor perception of time and distance?

- A. Depressants

- B. Hallucinogens
- C. Stimulants
- D. Narcotics
- E. Cannabis

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 71

The purpose for employing an access control program includes:

- A. Both a and c
- B. To protect persons, materials, or information
- C. To slow or speed up the rate of movement to, from, or within an establishment
- D. All of the above
- E. To permit or deny entrance

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 72

Corpus delicti means:

- A. The dead body
- B. The body of the crime
- C. A command to produce the body
- D. Criminal intent
- E. Criminal actions

Answer: ([SHOW ANSWER](#))

Explanation/Reference:

NEW QUESTION: 73

Any formula, pattern, device, or compilation of information that is used in one's business and that gives you an opportunity to gain an advantage over competitors who do not use it or know about it is:

- A. A monopoly
- B. A patent
- C. None of the above
- D. A trade secret
- E. Copyrighted material

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 74

The Act that deals with the release and disclosure of certain kinds of information by the federal government is:

- A. The Privacy Act
- B. None of the above

- C. The Freedom of Information Act
- D. The Federal Communications Act
- E. The Administrative Procedures Act

Answer: C (LEAVE A REPLY)

NEW QUESTION: 75

A correct statement about technical security countermeasures (TSCM) is that they:

- A. should be conducted remotely.
- B. require government approval.
- C. can be performed by the average security supervisor.
- D. are part of an overall protection strategy.

Answer: D (LEAVE A REPLY)

NEW QUESTION: 76

The acceptable vault construction of insulated doors has a minimum reinforced concrete wall, floor, and ceiling of:

- A. 4 feet
- B. 6 feet
- C. 8 feet
- D. 10 feet
- E. 12 feet

Answer: B (LEAVE A REPLY)

NEW QUESTION: 77

With regard to a nuclear attack, studies have shown that the numbers who would survive the initial effects of blast and heat would be:

- A. Tens of millions
- B. Less than 3 percent
- C. None of the above
- D. Less than 10 percent

E. Less than 5 percent

Answer: A (LEAVE A REPLY)

NEW QUESTION: 78

All security managers must have a disaster plan to deal with nuclear attack and must be well informed

regarding the disaster propensities of such an explosion. The effects of nuclear weapons differ from those

of conventional weapons in all of the following ways except:

A. "Thermal radiation" is capable of causing skin burns and of starting fires at considerable distances.

B. A fairly large amount of the energy in a nuclear explosion is referred to as "thermal radiation."

C. A nuclear detonation also produces an electromagnetic pulse (EMP) sometimes called "radio flash."

D. An experimental device exploded in the Aleutian Islands in November 1971 had an estimated yield of

more than 5 megatons (MT), which means it released more energy than the explosion of 50 million tons of

TNT.

E. If a nuclear explosion occurs at or near the ground, great quantities of radioactive earth and other

materials are drawn upward to high altitudes. When the radioactive particles fall back to earth, the

phenomenon is known as "fallout."

Answer: D (LEAVE A REPLY)

NEW QUESTION: 79

UL standards for the resistance to picking to align tumblers should be at least:

A. 20 minutes

B. 5 minutes

C. 10 minutes

D. 3 minutes

E. 30 minutes

Answer: C (LEAVE A REPLY)

NEW QUESTION: 80

According to Department of Defense regulations, which of the following documents are not acceptable proof of

U.S. citizenship concerning the safeguarding of classified information?

A. Certificate of naturalization

- B. Uncertified copy of baptismal record
- C. Certificate of citizenship
- D. Birth certificate
- E. All of the above

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 81

Competitive intelligence gathering is a legitimate activity that is engaged in by many firms throughout the world.

The most important function of competitive intelligence is to:

- A. Alert senior management to changes in protocol in foreign countries
- B. Alert senior management as to the personal habits of competitive
- C. senior management
- D. Alert government intelligence agencies to marketplace changes
- E. Alert senior management to marketplace changes in order to prevent surprise
- F. All of the above

Answer: D ([LEAVE A REPLY](#))

Explanation

NEW QUESTION: 82

An employer may reject an applicant on the basis of:

- A. Incomplete data on the personal history search
- B. Unexplained gaps in employment history
- C. Unsatisfactory interview
- D. An arrest for a crime against property
- E. A conviction for a crime against property

Answer: E ([LEAVE A REPLY](#))

Explanation/Reference:

NEW QUESTION: 83

The amount of combustible materials in the building is called:

- A. Fire-loading
- B. The combustion quotient
- C. The fire hazard level
- D. All of the above
- E. None of the above

Answer: ([SHOW ANSWER](#))

Explanation/Reference:

NEW QUESTION: 84

Which of the following substances would be classified as a depressant under the Controlled Substance Act?

- A. Preludin
- B. Dilaudid
- C. Pethadol
- D. Darvon
- E. Miltown
- F. All of the above

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 85

The authority of a private person to make an arrest is usually:

- A. A matter of state law
- B. Limited to those cases where a warrant is obtained
- C. None of the above
- D. Unlimited
- E. The same as a deputized guard

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 86

The process of combining a number of transmission into one composite signal to be sent over one link is called:

- A. Transmission integrity
- B. Multiplexing
- C. A demultiplexer
- D. None of the above
- E. Communication integration

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 87

According to Department of Defense regulations, "interim" personnel security clearances must be approved by the:

- A. Contracting officer
- B. Industrial Clearance Office
- C. Defense Intelligence Agency
- D. Cognizant Security Office
- E. None of the above

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 88

The three fundamental components of an intrusion alarm system are the sensors, the control unit, and the:

- A. alarm response procedures.
- B. annunciator.
- C. contacts.
- D. communication network.

Answer: B ([LEAVE A REPLY](#))

The three fundamental components of an intrusion alarm system are the sensors, the control unit, and the annunciator. The annunciator serves as the alert mechanism, signaling an alarm via lights, sirens, or notifications. These components work together to detect, process, and communicate security breaches effectively.

ASIS Certified Protection Professional (CPP) References:

- * Intrusion Detection Systems: CPP materials detail the critical components of alarm systems, emphasizing the role of annunciators in signaling breaches.
- * Physical Security Systems: Chapter 6 provides guidance on designing and implementing effective alarm systems.

NEW QUESTION: 89

Which of the following types of lighting enables a color video surveillance camera to produce the most accurate color rendition?

- A. High-pressure sodium
- B. Metal halide
- C. Mercury vapor
- D. Low-pressure sodium

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 90

Which of the following locks has been in use the longest and has no security value?

- A. The lever lock
- B. The warded lock
- C. The disc-tumbler lock
- D. The pin-tumbler lock
- E. The wafer lock

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 91

Criminal violations involving theft of trade secrets could be covered by:

- A. Theft of trade secrets statutes
- B. Criminal conspiracy statutes
- C. Bribery statutes involving trade secrets
- D. All of the above

E. Receipt of stolen property statutes

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 92

Which of the following surveys should be conducted to determine the effectiveness of risk controls and justify their placement within the security budget?

- A. Cost-benefit analysis
- B. Cyber risk assessment
- C. Vulnerability assessment
- D. Probability analysis

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 93

While the scope of training for an emergency depends on the nature of the organization's activities, this training must:

- A. be given to all employees, visitors, and contractors.
- B. cover all aspects of the emergency plan for all participants.
- C. be reinforced and tested with periodic drills.
- D. be reinforced and tested on a quarterly basis.

Answer: C ([LEAVE A REPLY](#))

Emergency preparedness training must ensure that employees are ready to respond effectively to potential crises. Periodic drills reinforce training, ensuring knowledge retention and readiness. This principle applies universally, regardless of the organization's size or industry.

* Scope of Training:

- * Tailored to the organization's risks (e.g., fire, natural disasters, active shooter scenarios).
- * Must address roles and responsibilities, evacuation procedures, and communication protocols.

* Reinforcement through Drills:

- * Drills are essential for validating the effectiveness of training.
- * They help identify gaps in the emergency plan and ensure personnel can perform under stress.

- * Testing and Continuous Improvement:
- * Regular testing of the emergency plan ensures it remains up-to-date with organizational changes and evolving risks.
- * Feedback from drills should guide updates to training materials and procedures.
- * Legal and Compliance Factors:
- * Occupational safety regulations (e.g., OSHA in the U.S.) often mandate emergency preparedness and periodic drills.
- * Regular testing demonstrates compliance and due diligence in ensuring workplace safety.
- * A: Training is typically limited to employees; visitors and contractors are informed of emergency exits but not given full training.
- * B: Covering every aspect of the emergency plan in a single session is impractical and inefficient.
- * D: While regular testing is essential, mandating quarterly drills is unnecessary unless required by specific industry regulations.

Training Requirements: Why Other Options Are Incorrect: ASIS CPP References:

- * Domain 3: Security Operations Highlights the importance of emergency planning and preparedness.
- * Domain 8: Crisis Management Stresses testing and refining emergency plans through drills and simulations.
- * Domain 7: Safety Addresses regulatory compliance for workplace safety and emergency preparedness.

NEW QUESTION: 94

"What is the most common protective lighting system that consists of a series of fixed luminaries arranged to flood a given area during the hours of darkness with overlapping cones of light?"

- A.** Emergency lighting
- B.** Movable lighting
- C.** Standby lighting
- D.** Intermittent lighting
- E.** Continuous lighting

Answer: E ([LEAVE A REPLY](#))

Explanation/Reference:

NEW QUESTION: 95

Defense Readiness Condition (DEFCON) ratings - a numerical indication of world tension - are established by the:

- A.** FBI
- B.** NORAD
- C.** NSA

D. State

E. CIA

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 96

In regard to a trade secret, it may be decided that its disclosure by another was innocent, rather than

wrongful, even in the case where the person making the disclosure really was guilty of malice or wrong

intent. This situation may occur when:

A. The trade secret was not registered

B. The trade secret did not involve national defense information

C. There is absence of evidence that an owner has taken reasonable precautions to protect confidential information.

D. All of the above

E. The trade secret was not in current use

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 97

Wrongful appropriation of the personal property of another to the use of the taker is a tort called:

A. None of the above

B. Conversion

C. Trespass

D. Embezzlement

E. Larceny

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 98

Which of the following is a requirement regarding kidnapping insurance?

A. None of the above.

B. No disclosure of insurance is made outside corporate headquarters.

C. All of the above.

D. Kidnap ransom is specifically made against the named insured.

- C. Almost 25 percent
- D. 40 percent

Answer: A ([LEAVE A REPLY](#))

Explanation/Reference:

NEW QUESTION: 126

In any well-designed disaster plan, you as security manager have as a primary goal the achievement of

"emergency readiness." Which of the following explanations most adequately defines the term "emergency readiness?"

- A. It means that all officials of the security department have successfully passed the Certified Protection Professional® (CCPP) examination.
- B. It means that the security staff is 100 percent manned.
- C. It means that you are prepared to react promptly to save life and protect property if your plant is threatened or hit by a major emergency or disaster of any type.
- D. It means that all security personnel have met minimum training standards of the state in which the plant is located.
- E. It means that the Federal Emergency Management Agency has inspected and approved the company's disaster plans.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 127

The true art of delegation includes:

- A. giving responsibility with commensurate authority and holding the employee's supervisor fully accountable for use of that authority.
- B. giving responsibility with commensurate authority and holding the employee fully accountable for use of that authority.
- C. giving accountability with flexibility and then retaining responsibility for ensuring that the authority is used.
- D. giving accountability with authority and holding the employee responsible for use of that authority.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 128

The probable cause necessary to constitute a prerequisite to arrest and search by law enforcement officers is:

- A. Those facts that would lead a reasonable person to believe that the accused committed the offense
- B. A preponderance of evidence

- C. None of the above
- D. A high degree of suspicion
- E. Evidence that will prove guilt

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 129

The degree of protection desired in any installation is predicated on an analysis of which of the following?

- A. None of the above
- B. Criticality and vulnerability
- C. Cost and vulnerability
- D. Cost and criticality
- E. Vulnerability and environmental conditions

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 130

As a general rule, local law enforcement has very little effect on many crimes against business. However, there are some crimes that would be the exception.

Which of the following would be the exception to this general rule?

- A. Burglary
- B. Embezzlement
- C. Shoplifting
- D. Employee theft

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 131

Evidence least vulnerable to a chain of custody challenge in a court of law would be evidence collected:

- A. by one person and marked by another.
- B. by one person and permanently recorded by another.
- C. and not marked.
- D. and marked in permanent ink by one person

Answer: ([SHOW ANSWER](#))

Evidence marked in permanent ink by one person is least vulnerable to chain of custody challenges. Proper marking ensures that the evidence is identifiable and traceable to the collector, reducing the likelihood of tampering or misidentification. Maintaining a clear and secure chain of custody is critical for ensuring the admissibility of evidence in court.

ASIS Certified Protection Professional (CPP) References:

* Evidence Handling and Chain of Custody: CPP materials emphasize proper collection, marking, and documentation techniques to maintain the integrity of evidence.

* Legal and Ethical Standards in Investigations: Detailed procedures for chain of custody are covered in CPP investigative modules.

NEW QUESTION: 132

Scientists at Yale University (1939) concluded that frustration almost always results in some aggressive reaction, the most important point being:

- A. A substitute satisfaction, in which the employee "gets even" by stealing from the company
- B. Open aggression against the supervisor
- C. Aggression against the person whom the employee feels is responsible
- D. Unrelieved aggression builds up until relief from inner pressures becomes imperative

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 133

A document that is classified "confidential" shall exhibit the marking at:

- A. The right-hand side of the page
- B. The left-hand side of the page
- C. The top of the page
- D. Both the top and bottom of the page
- E. The bottom of the page

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 134

The Act that deals with the release and disclosure of certain kinds of information by the federal government is:

- A. None of the above
- B. The Privacy Act
- C. The Federal Communications Act

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 138

An ADP system that operates in a manner in which at least some of the users with access to the system have neither a security clearance nor a need-to-know status for all classified information that is in the system, but in a manner that the cognizant security officer or a higher authority has determined that the necessary degree of security has been achieved and maintained, is known as:

- A. Classified Security Mode
- B. Controlled Security Mode
- C. Restricted Security Mode
- D. Limited Security Mode
- E. Dedicated Security Mode

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 139

Which of the following is a correct statement pertaining to heroin?

- A. Pure heroin is a white powder and is also known as "horse. "
- B. All of the above.
- C. The Bayer Company in Germany first started commercial production of heroin as a pain remedy in the latter part of the nineteenth century.
- D. Pure heroin is rarely sold on the street.
- E. The first comprehensive control of heroin in the United States was established with the Harrison Narcotic Act of 1914.
- F. Both b and d.

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 140

The quality of service rendered by security personnel is determined by which of the following?

- A. Wages
- B. All of the above
- C. Supervision
- D. Personnel selection process
- E. Training

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 141

A comprehensive personnel security program should include:

- A. All of the above
- B. Both A and B
- C. Truth verification standards
- D. Adequate job specifications and performance standards
- E. Appropriate selection and recruitment criteria
- F. None of the above

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 142

One reason that all security training must be well documented is:

- A. for use by human resources.
- B. to promulgate company policies.
- C. to justify the security training budget.
- D. to protect the company from litigation.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 143

Which of the following would not be considered in the "trade secret" category?

- A. Market surveys
- B. Salary data
- C. Customer usage evaluations
- D. Personnel matters
- E. All of the above

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 144

Which factor about a risk would make it uninsurable?

- A. The risk would be worth the cost but not the effort to insure.
- B. The risk is predictable through the law of large numbers.
- C. Losses could not be positively tied to an occurrence in an established amount.
- D. Losses would be expected but unintended by the insured.

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 145

The actual use of force against another, which involves physical touching, is a willful tort called in common law:

- A. Aggravated assault
- B. Felonious assault
- C. Battery
- D. Assault
- E. None of the above

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 146

Which of the following describes meprobamate?

- A. It is primarily prescribed for the relief of anxiety and tension as well as muscle spasms.
- B. None of the above.
- C. It was first synthesized in 1950.
- D. All of the above.
- E. It does not produce sleep at therapeutic doses.
- F. Excessive use can result in physical and psychological dependence.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 147

An employee who both orders and receives merchandise is violating which of the following principles?

- A. Audit control
- B. Separation of responsibility
- C. Unity of command
- D. Delegation of duty

Answer: B (LEAVE A REPLY)

An employee who both orders and receives merchandise violates the principle of separation of responsibility.

This principle ensures that no single individual has control over multiple stages of a process, reducing the risk of fraud or errors.

* Fraud Prevention:

* Segregating duties ensures that no single person can commit and conceal fraudulent activities.

* Checks and Balances:

* Different individuals handle ordering, receiving, and payment to maintain accountability.

* Internal Controls:

* This principle is part of broader internal control mechanisms designed to safeguard assets.

* A: Audit control refers to the independent review of processes but is not the violated principle here.

* C: Unity of command ensures clear reporting lines but is unrelated to task segregation.

* D: Delegation of duty involves assigning tasks but does not require segregation.

Key Aspects of Separation of Responsibility: Why Other Options Are Incorrect: ASIS CPP References:

* Domain 9: Business Principles and Practices Explains internal controls and the role of duty segregation in preventing fraud.

NEW QUESTION: 148

Which of the following is not considered to be an inchoate crime?

- A. Embezzlement
- B. Attempt
- C. Solicitation
- D. All of the above
- E. Conspiracy

Answer: A (LEAVE A REPLY)

NEW QUESTION: 149

To reduce conflict between public law enforcement and private security, the two should work together to:

- A. reduce the crime rate.
- B. create mutual understanding.
- C. raise security awareness.

D. formalize relationships.

Answer: B (LEAVE A REPLY)

To reduce conflict between public law enforcement and private security, the two sectors should work together to create mutual understanding. This involves clarifying roles, responsibilities, and expectations, as well as fostering respect and collaboration in shared security efforts.

ASIS Certified Protection Professional (CPP) References:

* Public-Private Partnerships: The CPP manual emphasizes the importance of mutual understanding for effective cooperation between law enforcement and private security (Chapter 10).

* Community and Security Integration: CPP materials discuss strategies for bridging gaps between public and private sectors to enhance overall safety.

NEW QUESTION: 150

The federal agency in charge of disaster planning is the:

A. Federal Emergency Management Agency

B. Department of the Army

C. Government Accounting Office

D. Office of Civil Defense

E. Department of the Interior

Answer: (SHOW ANSWER)

NEW QUESTION: 151

A legal search may be made:

A. Incident to lawful arrest

B. Without a warrant

C. All of the above

D. For inventory purposes

E. With consent

Answer: C (LEAVE A REPLY)

NEW QUESTION: 152

As a general rule the number of consecutive years of employment or nonemployment to be verified preceding the date of investigation is:

- A. 5 years
- B. 7 years
- C. 3 years
- D. 2 years
- E. 10 years

Answer: B ([LEAVE A REPLY](#))

Explanation/Reference:

NEW QUESTION: 153

A trade secret may be:

- A. A formula for a chemical compound
- B. A process of manufacturing materials
- C. A pattern for a machine
- D. A list of customers
- E. All of the above

Answer: ([SHOW ANSWER](#))

Explanation/Reference:

NEW QUESTION: 154

Insurance is a form of risk:

- A. avoidance.
- B. spreading.
- C. transfer.
- D. reduction

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 155

The emergency evacuation and disaster plan should be:

- A. Detailed
- B. Updated as required
- C. All of the above
- D. None of the above
- E. Tested initially

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 156

In which of the following areas are traditional police responsibilities increasingly shared with private security?

- A. Public parks

- B. Urban and suburban
- C. Large corporations
- D. Federal properties

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 157

When developing an emergency management structure, the concept of ensuring a back-up is available for each member of the emergency management team is known as:

- A. operational responsibility.
- B. command post restructuring operations.
- C. emergency chain of command.
- D. alternate designation

Answer: D ([LEAVE A REPLY](#))

The concept of ensuring a backup for each member of the emergency management team is referred to as alternate designation. This ensures that critical roles are always filled, even if primary members are unavailable.

* Continuity of Command:

* Ensures that decision-making and response actions are not delayed due to absenteeism.

* Role Redundancy:

* Trains secondary personnel to perform critical tasks when needed.

* Operational Resilience:

* Maintains the functionality of the emergency management structure under any circumstances.

* A: Operational responsibility refers to specific duties, not role redundancy.

* B: Command post restructuring is not a relevant concept here.

* C: Emergency chain of command defines authority but does not address backups.

Key Features of Alternate Designation: Why Other Options Are Incorrect: ASIS CPP

References:

* Domain 8: Crisis Management Highlights the importance of redundancy and backup in emergency management teams.

NEW QUESTION: 158

Which of the following statements best describes the difference between covert and overt surveillance?

- A. Overt surveillance may be used by public and private sector personnel, whereas covert surveillance may only be done by public law enforcement personnel.
- B. Covert surveillances are normally detection-oriented, whereas overt surveillances are usually prevention-oriented.
- C. Covert surveillances are used when there is knowledge of a criminal act, whereas overt surveillance is used when a criminal act is suspected.

D. Notice of overt surveillance must always be given, whereas covert surveillance may be conducted without the suspect or target's knowledge.

Answer: ([SHOW ANSWER](#))

The key difference between covert and overt surveillance lies in the awareness of the target. Covert surveillance is conducted discreetly, without the target's knowledge, to collect information without altering the subject's behavior. Overt surveillance, on the other hand, is openly visible and often used as a deterrent to prevent criminal activity. Overt surveillance usually involves informing individuals of its presence through signage or policies.

ASIS Certified Protection Professional (CPP) References:

* Surveillance Techniques: CPP materials distinguish between covert and overt surveillance methods, focusing on their application and ethical considerations.

* Legal Compliance in Surveillance: Guidelines emphasize informing individuals about overt surveillance to comply with privacy laws.

NEW QUESTION: 159

Two famous Supreme Court rulings resulted in a rule of law that states that a person upon arrest shall be taken before a judicial officer for arraignment without unnecessary delay.

The rule is called the:

- A.** Terry v. Ohio rule
- B.** Escobedo rule
- C.** Miranda rule
- D.** Katz rule
- E.** McNabb-Mallory rule

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 160

A situation whereby there was adequate provocation by the victim to arouse passion and an unlawful

killing took place is called:

- A.** Murder
- B.** Negligent manslaughter
- C.** Excusable homicide
- D.** Involuntary manslaughter
- E.** Voluntary manslaughter

Answer: **E** ([LEAVE A REPLY](#))

NEW QUESTION: 161

Installation of a wireless radio eavesdropping device usually consists of the following:

- A.** Transmitter and receiver
- B.** Power supply

- C. All of the above
- D. Both A and D
- E. Antenna
- F. Microphone

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 162

If it is necessary to terminate an undercover investigation, one of the following actions should not be done:

- A. Prepare explanations for those who demand them
- B. Withdraw agent immediately
- C. Withdraw agent safely
- D. Reveal the agent's identity
- E. Salvage as much of the resultant data as possible

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 163

The Federal Bureau of Investigation is under the:

- A. Department of Justice
- B. Department of Defense
- C. Treasury Department
- D. State Department
- E. Department of the Interior

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 164

Which of the following should be used to establish annual loss expectancy?

- A. Impact and frequency
- B. Vulnerability and risk
- C. Statistics and logic
- D. Probability and causation

Answer: A ([LEAVE A REPLY](#))

Annual Loss Expectancy (ALE) is calculated by multiplying the impact of a potential loss (measured in financial terms) by the frequency of the loss event (how often it is expected to occur annually). This formula helps prioritize risks and allocate resources to mitigate the most significant threats.

Formula: $ALE = \text{Single Loss Expectancy (SLE)} \times \text{Annual Rate of Occurrence (ARO)}$

$$= \text{Single Loss Expectancy (SLE)} \times \text{Annual Rate of Occurrence (ARO)}$$

$$ALE = \text{Single Loss Expectancy (SLE)} \times \text{Annual Rate of Occurrence (ARO)}$$

ASIS Certified Protection Professional (CPP) References:

- * Risk Assessment and Cost Analysis: CPP materials include ALE calculations as a core component of financial risk management.
- * Security Program Justification: ALE is used to demonstrate the financial value of security measures in mitigating risks.

NEW QUESTION: 165

Which of the following is not true regarding electronic eavesdropping?

- A.** An effective countermeasure to detect evidence of electronic eavesdropping in telephone equipment should be conducted by a person who is technically familiar with such equipment.
- B.** An effective countermeasure would be to conduct a physical search as well as an electronic search.
- C.** All wiring should be traced and accounted for.
- D.** A listening device installed in a wire will cause a crackling sound, click, or other noise that can be heard on the line.
- E.** None of the above.

Answer: D ([LEAVE A REPLY](#))

Explanation/Reference:

NEW QUESTION: 166

The intrusion detection system that is used on safes, walls, and openings in an effort to establish an electrostatic field around an object to be protected is known as a(n):

- A.** Radio frequency detection system
- B.** Contact microphone detection system
- C.** Microwave detection system
- D.** Capacitance detection system
- E.** Ultrasonic detection system

Answer: ([SHOW ANSWER](#))

- E. All of the above

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 189

In emergency planning, vital records should be maintained at:

- A. The Emergency Operating Center (EOC) Record Center
- B. The company headquarters
- C. The local police department
- D. The Federal Emergency Management Agency
- E. The National Archives in Washington, D .C .

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 190

If an employer does not utilize testing for drug impairment it should:

- A. discourage drug use during working hours.
- B. enact a policy prohibiting detectable illegal drugs.
- C. report suspected impairment to law enforcement.
- D. offer counseling through employee assistance programs

Answer: ([SHOW ANSWER](#))

If an employer does not utilize drug impairment testing, it should enact a policy prohibiting detectable illegal drugs in the workplace. Such a policy provides a clear standard of acceptable behavior and creates a framework for disciplinary actions if violations occur. This approach also ensures compliance with legal requirements and workplace safety standards.

ASIS Certified Protection Professional (CPP) References:

- * Workplace Drug Policies: The CPP manual emphasizes the importance of clear policies for managing substance abuse risks.
- * Personnel Risk Management: Chapter 5 highlights strategies for maintaining a drug-free workplace, including policy development and enforcement.

NEW QUESTION: 191

In the process of conducting a security survey or security audit, meaningful factual objective work consists of measuring results against:

- A. past practice.
- B. previous audit results
- C. the security professional's knowledge.
- D. an acceptable security standard

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 192

Which of the following is not correct with regard to the grand jury?

- A. A federal grand jury consists of 16-23 jurors.
- B. A witness may be accompanied by his or her attorney.
- C. None of the above.
- D. The proceedings are secret.
- E. Its main responsibility is to find probable cause.

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 212

The frequency range best suited for a wireless microphone because it provides better security and lower

interference is:

A. 25-50 mHz

B. None of the above

C. 88-104 mHz

D. 150-174 mHz

E. 88-120 mHz

Answer: [\(SHOW ANSWER\)](#)

NEW QUESTION: 213

In a chain-link fence with mesh openings for general security purposes, the openings should be no larger than:

A. 4 inches

B. 2112 inches

C. 4 . inches

D. 11/5 inches

E. 2 inches

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 214

Which of the following is generally not true in regard to trade secrets?

A. Secret information must be effectively protected.

B. Secret information does have to be specifically identifiable.

C. It is difficult to protect a trade secret that can be found in publicly accessible sources.

D. None of the above.

E. The more a business narrowly defines what it regards as a secret, the easier it is to protect that body of information.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 215

What are the three most common methods of information loss to be guarded against?

A. Employee hirings, magazine articles, industrial espionage

B. None of the above

C. Employee payroll, personnel matters, market surveys

D. Theft by an insider, inadvertent disclosure, industrial espionage

E. Newspaper articles, magazine articles, television

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 216

Training in which of the following subjects educates employees about ways to reduce exposure to body fluids and other potentially infectious materials?

A. Disease control

B. Bloodborne pathogens

C. Infection containment

D. Advanced life safety

Answer: (SHOW ANSWER)

Training on bloodborne pathogens educates employees about reducing exposure to body fluids and potentially infectious materials, critical for maintaining workplace safety, particularly in healthcare, first response, or similar industries.

* Hazard Identification:

* Educates employees about potential risks from bloodborne diseases like hepatitis B, hepatitis C, and HIV.

* Exposure Prevention:

* Covers proper use of personal protective equipment (PPE) and safe handling procedures for bodily fluids.

* Emergency Response:

* Training includes first aid and cleanup protocols to minimize exposure risks.

* Regulatory Compliance:

* Ensures adherence to OSHA Bloodborne Pathogens Standards and similar regulations.

* A: Disease control is a broad term not specific to exposure prevention.

* C: Infection containment focuses on controlling disease spread but lacks the focus on exposure risk.

* D: Advanced life safety is unrelated to training on infectious material handling.

Key Components of Bloodborne Pathogen Training: Why Other Options Are Incorrect: ASIS CPP References:

* Domain 3: Security Operations Highlights workplace safety and training requirements for hazardous materials.

NEW QUESTION: 217

Many offenses that do not require proof of intent are called:

A. Mala in se crimes

B. Common-law crimes

C. True crimes

D. None of the above

E. Strict liability crimes

Answer: E (LEAVE A REPLY)

NEW QUESTION: 218

The attitude or state of mind through which individuals are conscious of the existence of the security

program and are persuaded that it is relevant to their own behavior is a concept known as:

A. Security awareness

B. None of the above

C. Security motivation

D. Security consciousness

Answer: A (LEAVE A REPLY)

NEW QUESTION: 219

Which of the following methods of duplication of records for emergency planning purposes is the least desirable?

- A. Handwritten notations
- B. Carbon copies
- C. Photocopying
- D. Microfilming
- E. None of the above

Answer: B ([LEAVE A REPLY](#))

Explanation/Reference:

NEW QUESTION: 220

It is becoming increasingly more difficult to do a good preemployment background investigation because of:

- A. The expense
- B. The lack of skilled investigators
- C. Various rulings and court decisions that inhibit the use of techniques or instruments available
- D. The uncooperative attitudes of persons interviewed
- E. Such investigations are illegal in a number of states

Answer: C ([LEAVE A REPLY](#))

Explanation/Reference:

NEW QUESTION: 221

Which of the following is not a good procedure with regard to the use of the polygraph by investigators?

- A. Pointing out its effectiveness
- B. Withholding detailed information from the examinee
- C. Working with the examiner as a team member
- D. Telling the examinee how experienced the examiner is
- E. Describing it as infallible

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 222

During a security clearance background investigation, when travel outside the United States is detected, which of the following should be checked?

- A. FBI records
- B. All of the above
- C. CIA records
- D. Customs records

E. Immigration records

F. None of the above

Answer: F ([LEAVE A REPLY](#))

NEW QUESTION: 223

Which of the following is not true regarding electronic eavesdropping?

A. A listening device installed in a wire will cause a crackling sound, click, or other noise that can be heard on the line.

B. An effective countermeasure to detect evidence of electronic eavesdropping in telephone equipment should be conducted by a person who is technically familiar with such equipment.

C. None of the above.

D. All wiring should be traced and accounted for.

E. An effective countermeasure would be to conduct a physical search as well as an electronic search.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 224

Which of the following is not true regarding electronic eavesdropping?

A. None of the above.

B. A listening device installed in a wire will cause a crackling sound, click, or other noise that can be heard on the line.

C. An effective countermeasure would be to conduct a physical search as well as an electronic search.

D. All wiring should be traced and accounted for.

E. An effective countermeasure to detect evidence of electronic eavesdropping in telephone equipment should be conducted by a person who is technically familiar with such equipment.

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 225

NEW QUESTION: 227

The starting point for pre-employment screening is the:

- A. list of references.
- B. application.
- C. interview.
- D. resume.

Answer: ([SHOW ANSWER](#)**)**

The application is the starting point for pre-employment screening as it provides the foundational information about the candidate, including work history, qualifications, and personal data. The application is a legally binding document, and discrepancies in the information provided can serve as red flags during the screening process. Properly structured applications also ensure compliance with equal employment opportunity (EEO) standards.

ASIS Certified Protection Professional (CPP) References:

- * Personnel Security Screening: The CPP manual highlights the application phase as the initial step in assessing a candidate's qualifications and identifying potential risks.
- * Human Resources Security: The importance of accurate and detailed applications is outlined in CPP chapters focusing on pre-employment processes and background investigations.

NEW QUESTION: 228

In investigating homicide and suicide, the best source of information would probably be the:

- A. Sheriff's office
- B. Health office
- C. County coroner's office
- D. Federal Bureau of Investigation
- E. State attorney general's office

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 229

Cases of criminal homicide in which the actor lacked an intent to kill or cause bodily injury is:

- A. Voluntary manslaughter
- B. First-degree murder
- C. Involuntary manslaughter
- D. Justifiable homicide
- E. Second-degree murder

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 230

According to the "restatement of the law of torts," a trade secret is:

- A. Any formula, pattern, device, or compilation of information that is used in one's business and that gives that business an opportunity to gain an advantage over competitors who do not know or use it
- B. All information about a company that the company desires to protect
- C. Information about a company that is registered with the U.S. Patent Office
- D. All of the above
- E. Both A and B

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 231

Choosing a security container for a specific software application is largely determined by value and what other characteristic of the item to be stored?

- A. Place of origin
- B. Vulnerability
- C. Commonality
- D. Reproducibility

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 232

According to the White House Conference for a Drug-Free America, approximately how many Americans had used an illegal drug in 1987?

- A. 1 in 2
- B. 1 in 40
- C. 1 in 7
- D. 1 in 20

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 233

Information that could lead to the compromise of vital national defense plans or complex cryptologic and communications intelligence systems should be classified:

- A. Restricted
- B. Secret
- C. Confidential
- D. Top secret
- E. Cosmic

Answer: D ([LEAVE A REPLY](#))

Explanation/Reference:

NEW QUESTION: 234

Once published, an emergency plan for disaster control should be distributed:

- A. On a need-to-know basis
- B. To none of the above
- C. Only to the highest echelon
- D. Down to the lowest echelons assigned responsibility
- E. Only to division heads

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 235

A security professional is designing a CCTV system to monitor activity in an employee parking lot that is

2,200 feet from the monitoring station. Which type of cable will best transmit the signal?

- A. Coaxial
- B. Fiber optic
- C. Twisted pair
- D. Network

Answer: B ([LEAVE A REPLY](#))

For a CCTV system monitoring an area 2,200 feet away, fiber optic cable is the best option for transmitting the signal. Fiber optics can handle long distances without significant signal degradation, providing high- quality video transmission. Other options, such as coaxial and

twisted pair cables, are limited in their effective transmission range and may require signal boosters for such distances.

ASIS Certified Protection Professional (CPP) References:

* CCTV System Design: CPP materials emphasize the use of fiber optics for long-distance transmission due to its superior signal integrity.

* Physical Security and Cabling Standards: Fiber optics is highlighted as the preferred medium for high-performance security systems.

NEW QUESTION: 236

The weakest area in a window is usually:

- A. All of the above
- B. Both a and d
- C. The glass
- D. The frame
- E. The sash
- F. Caulking

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 237

Which of the following does not apply to synthetic narcotics?

- A. Synthetic narcotics are produced entirely within the laboratory.
- B. Large doses can result in convulsions.
- C. Synthetic narcotics are also covered by the Controlled Substances Act.
- D. None of the above.
- E. Two of the most widely available synthetic narcotics are meperidine and methadone.
- F. Meperidine can be administered by injection or taken orally.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 238

The term "social engineering" is:

- A. The subtle elicitation of information without revealing the true purpose of the call
- B. The specific design of a business structure to facilitate the interaction of the inhabitants
- C. None of the above
- D. A function of the personnel department in which like persons are teamed together in workshops or seminars for maximum productivity
- E. Both a and c

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 239

The main objective of private security is:

- A. To apprehend those who steal property from their firms
- B. To protect assets and prevent losses
- C. To assist police in investigation of crimes
- D. To prevent unauthorized persons from entry on firm's property

Answer: B ([LEAVE A REPLY](#))

Explanation

NEW QUESTION: 240

The use of a simple codeword or phrase during a normal conversation to alert other security personnel

that an authorized person has been forced to vouch for an unauthorized individual is termed:

- A. Duress code
- B. Basic alert
- C. Security alert
- D. SOS
- E. Code one

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 241

During an emergency evacuation of a facility, special provisions must be made for:

- A. securing vital business information
- B. assisting disabled persons.
- C. a muster point.
- D. command and control.

Answer: B ([LEAVE A REPLY](#))

During an emergency evacuation, special provisions must be made to assist disabled persons. Ensuring the safety of individuals with physical or cognitive impairments is both a legal requirement and a critical element of effective evacuation planning.

* Accessibility:

* Ensure evacuation routes are navigable for individuals with mobility aids.

* Support Systems:

* Designate trained personnel or buddies to assist during evacuations.

* Special Equipment:

* Provide tools like evacuation chairs or ramps where needed.

* A: Securing business information is important but secondary to life safety.

* C: Establishing a muster point is critical but does not specifically address the needs of disabled persons.

* D: Command and control focus on overall management, not specific provisions for individuals.

Key Provisions for Disabled Persons:Why Other Options Are Incorrect:ASIS CPP

References:

* Domain 8: Crisis ManagementEmphasizes inclusive planning for emergency evacuations.

NEW QUESTION: 242

A "re-lock" on a vault door will automatically prevent the bolt mechanism from operating when:

- A. All of the above.
- B. A switch is flipped.
- C. It is locked by remote control.
- D. A timer is used.
- E. There is an attack on the door or the combination lock.

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 243

Information regarding the revelation of significant military plans or intelligence operations should be classified as:

- A. Secret
- B. Cosmic
- C. Top secret
- D. Confidential
- E. Restricted

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 244

The weakness of the burning bar as a burglar tool is that:

- A. It will not burn through concrete.
- B. Its actual heat is not intense enough.
- C. It requires hydrogen tanks.
- D. It produces a large volume of smoke.

E. All of the above.

Answer: ([SHOW ANSWER](#))

Explanation/Reference:

NEW QUESTION: 245

A correct statement about technical security countermeasures (TSCM) is that they:

- A. can be performed by the average security supervisor.
- B. require government approval.
- C. are part of an overall protection strategy.
- D. should be conducted remotely.

Answer: C ([LEAVE A REPLY](#))

Technical security countermeasures (TSCM) are specialized techniques and tools used to detect and prevent unauthorized surveillance or eavesdropping. These measures are most effective when integrated into a broader overall protection strategy that includes physical security, personnel training, and information security.

* Integration into Protection Strategy:

* TSCM complements other security measures by focusing on electronic surveillance threats.

* Examples include detecting hidden microphones, signal intercepts, and other forms of technical espionage.

* Specialized Expertise:

* TSCM requires advanced technical skills and equipment, often provided by trained specialists.

* Proactive and Reactive Measures:

* TSCM includes regular sweeps and ongoing monitoring to identify vulnerabilities.

* A: TSCM is highly specialized and cannot be performed by an average security supervisor.

* B: While some countries regulate TSCM, government approval is not universally required.

* D: Remote TSCM is not feasible due to the need for on-site detection and physical assessment.

Key Aspects of TSCM: Why Other Options Are Incorrect: ASIS CPP References:

* Domain 5: Physical Security Discusses technical countermeasures as part of layered defense strategies.

NEW QUESTION: 246

Which of the following does not fit into good emergency planning?

- A. The plan should be simple.
- B. Key departments within the plant should be represented.
- C. An individual should be appointed as coordinator.
- D. The plan should be in writing.

E. A new organization should be developed to handle emergency situations.

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 247

One thousand shopping tests across the nation showed that in a ten-year period, cash register thefts had increased by what percentage?

- A. 46
- B. 56
- C. 86
- D. 66
- E. 76

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 248

The sound wave sensor is commonly referred to as a(n):

- A. Radar detector
- B. Electromechanical sensor
- C. Vibration detector
- D. Ultrasonic detector
- E. Proximity detector

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 249

The three fundamental components of an intrusion alarm system are the sensors, the control unit, and the:

- A. communication network.
- B. contacts.
- C. annunciator.
- D. alarm response procedures.

Answer: (SHOW ANSWER)

NEW QUESTION: 250

The federal kidnapping statute provides that:

- A. A presumption is created that if the victim has not been returned within 24 hours following abduction, he or she has been moved interstate.
- B. The FBI cannot enter the case until evidence is developed that the victim was taken across a state line.
- C. Primary jurisdiction is in the hands of the Secret Service.
- D. The FBI has full jurisdiction in all kidnappings, regardless of interstate transportation of the victim.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 251

Which of the following should not be included in the written investigative report of an applicant?

- A. Arrest records
- B. Results of a lie detector examination
- C. Derogatory information
- D. None of the above
- E. Confidential sources of information

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 252

Excluding the top guard, standard barbed-wire fencing that is intended to prevent human trespassing

should not be less than:

- A. 6 feet high
- B. 8 feet high
- C. 7 feet high
- D. 9 feet high
- E. 10 feet high

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 253

Which of the following precautionary actions to provide executive protection is not advisable?

- A. Maintain a low profile.
- B. Consider use of armor-plated autos.
- C. Do not use commercial airlines.

- A. Lysergic acid diethylamide

- B. None of the above
- C. Phencyclidine
- D. Mescaline
- E. Phencyclidine analogs

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 293

Monitoring new rules or legislation to determine how they affect the finances and administration of a business is an example of assessing:

- A. strategic risk
- B. regulatory risk.
- C. operational risk.
- D. reputational risk.

Answer: B ([LEAVE A REPLY](#))

Monitoring new rules or legislation to assess their impact on business finances and administration is an example of evaluating regulatory risk. Regulatory risks stem from changes in laws, regulations, or policies that can directly affect how an organization operates, incurs costs, or meets compliance obligations. Proper regulatory risk management involves staying informed of legislative developments and aligning organizational strategies to mitigate potential impacts.

ASIS Certified Protection Professional (CPP) References:

- * Regulatory Compliance Programs: CPP materials emphasize the importance of regulatory monitoring as part of enterprise security risk management (ESRM).
- * Risk Management Frameworks: CPP resources highlight the integration of regulatory risk assessment into broader business continuity planning.

NEW QUESTION: 294

NEW QUESTION: 302

What is the most important reason why an organization should implement a formal workplace violence mitigation strategy?

A. Employers have a legal obligation to provide employees with a safe work environment.

B. Violence mitigation programs have been shown to lower healthcare costs.

C. Violence risk assessments usually uncover inefficiencies in work processes.

D. Workplace violence results in losses due to lower productivity.

Answer: A (LEAVE A REPLY)

The most important reason for implementing a formal workplace violence mitigation strategy is the employer's legal obligation to ensure a safe work environment under laws like OSHA (Occupational Safety and Health Act).

* Legal Compliance:

* Employers are legally required to address known risks, including workplace violence, to protect employees.

* Employee Safety:

* A violence mitigation strategy ensures that measures are in place to prevent and respond to incidents.

* Reputation and Liability:

* Failing to address workplace violence risks can result in lawsuits, regulatory penalties, and reputational harm.

* B: Lower healthcare costs are a benefit but not the primary reason.

* C: Identifying inefficiencies is not the primary goal of violence mitigation.

* D: While workplace violence impacts productivity, legal obligations outweigh financial considerations.

Key Justifications: Why Other Options Are Incorrect: ASIS CPP References:

* Domain 9: Business Principles and Practices Emphasizes compliance with laws and regulations related to workplace safety.

NEW QUESTION: 303

NEW QUESTION: 317

Establishing an in-house guard service requires:

- A.** a separate budget.
- B.** a qualified manager.
- C.** a recruitment program, personnel screening procedures, and training programs.
- D.** flexibility in identifying staffing qualifications, selection of expertise, and training.

Answer: (SHOW ANSWER)

Establishing an in-house guard service requires implementing a recruitment program, personnel screening procedures, and training programs to ensure the selection of qualified candidates and their readiness to perform security tasks effectively. These components are essential for building a professional and reliable guard service.

ASIS Certified Protection Professional (CPP) References:

- * Guard Force Management: CPP materials highlight recruitment, screening, and training as core pillars of a successful in-house security force (Chapter 6).
- * Personnel Security: Detailed guidance on selecting and developing security personnel is provided in the CPP chapters on workforce security.

NEW QUESTION: 318

In issuing policy statements regarding the handling of disturbed persons, the primary consideration is:

- A.** Reducing the disturbed person to a form of benevolent custody and eliminating the immediate danger

- E. Approximately 30 days

Answer: A (LEAVE A REPLY)

Explanation

NEW QUESTION: 320

The relationship between law enforcement and private security is best when it is:

- A. reciprocal.
- B. cooperative.
- C. interchangeable.
- D. parallel.

Answer: B (LEAVE A REPLY)

The relationship between law enforcement and private security is best when it is cooperative. A cooperative relationship fosters mutual support, effective communication, and resource sharing, which enhances the overall safety and security of the community. Cooperation ensures both parties leverage their strengths to address crimes and security challenges efficiently.

ASIS Certified Protection Professional (CPP) References:

- * Public-Private Partnership: CPP materials emphasize the importance of collaboration between law enforcement and private security to achieve common goals.
- * Community Policing and Security Integration: Chapter 10 highlights cooperative practices as essential to successful partnerships.

NEW QUESTION: 321

Answer: D (LEAVE A REPLY)

NEW QUESTION: 322

Which of the following is not true in regard to establishing and identifying personnel to control movement?

- A.** The identification card or badge should be designed in a relatively complicated manner to avoid duplication.
- B.** The identification card should be designed as simply as possible.
- C.** Procedures should be designed to show employees what to do when an identification card or badge is lost.
- D.** Prerequisites should be devised and disseminated for reissue.
- E.** Detailed instructions should be disseminated as to where, when, and how badges should be worn.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 323

Sabotage can effectively be combated by:

- A.** All of the above
- B.** None of the above
- C.** A close liaison with FBI and other agencies
- D.** An effective training program
- E.** Reducing target accessibility and vulnerability

Answer: **E** ([LEAVE A REPLY](#))

NEW QUESTION: 324

An emergency plan coordinator should be responsible for which of the following?

- A.** Defining critical business processes
- B.** Revising and updating the plan
- C.** Deciding whether to evacuate the building
- D.** Determining levels of insurance coverage

Answer: **B** ([LEAVE A REPLY](#))

An emergency plan coordinator's primary responsibility is to ensure that the plan remains current and effective. This involves revising and updating the plan regularly to reflect organizational changes, emerging risks, and lessons learned from drills or incidents.

* Plan Maintenance:

* Regularly review the plan for accuracy and completeness.

* Incorporate updates based on regulatory changes, new threats, or organizational restructuring.

* Testing and Validation:

* Conduct periodic drills to test the plan's effectiveness.

* Update the plan based on drill outcomes and feedback.

* Coordination and Communication:

* Collaborate with key stakeholders to ensure alignment and readiness.

* **A:** Defining critical business processes is the responsibility of business continuity planners.

* C: Decisions on evacuation are typically made by incident commanders, not the plan coordinator.

* D: Determining insurance coverage is a task for the finance or risk management department.

Key Responsibilities of an Emergency Plan Coordinator: Why Other Options Are Incorrect: ASIS CPP References:

* Domain 8: Crisis Management Emphasizes the importance of maintaining and revising emergency plans.

NEW QUESTION: 347

The process of combining a number of transmission into one composite signal to be sent over one link is called:

A. A demultiplexer

B. None of the above

C. Communication integration

D. Multiplexing

E. Transmission integrity

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 348

Which of the following could be considered a source of information?

A. None of the above

B. A record

C. All of the above

D. A public official

E. A custodian of record

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 349

A National Agency Check consists of:

A. Coast Guard records

B. CIA records

C. Civil Service records

D. All of the above

E. Both a and b

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 350

Which of the following is not true of post orders?

- A. They provide clear instructions.
- B. They summarize the required security officers' duties.
- C. Most are important written instructions to the security force.
- D. Most post orders include oral instructions to the security officer.
- E. They express the policies of the facility being protected.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 351

Which of the following crimes would be considered a white-collar crime?

- A. All of the above
- B. None of the above
- C. Tax evasion
- D. Mail fraud
- E. False advertising

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 352

A person who is excessively active, excited, and talkative, has dilated pupils, and goes for long periods without eating or sleeping may be under the influence of which of the following drugs?

- A. Alcohol
- B. Marijuana
- C. Narcotics
- D. Amphetamines

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 353

Which of the following procedures should not be advocated as part of emergency planning?

- A. Emergency plan should be revised as needed
- B. Distribution of plan must be made down to the lowest echelons
- C. Emergency plan should be in writing
- D. Plan should be tested through practice
- E. Distribution should be limited to senior management

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 354

Which of the following is a characteristic of morphine?

- A. All of the above.
- B. Both a and d
- C. It is odorless, bitter tasting, and darkens with age.
- D. Only a small part of the morphine obtained from opium is used medically.
- E. Its legal use is restricted primarily to hospitals.
- F. It is the principal constituent of opium.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 355

Foil used as a detector on a glass window to signal a surreptitious or forcible entry is an example of a(n):

- A. Capacitance sensor
- B. Microwave sensor
- C. Vibration sensor
- D. Acoustic sensor
- E. Electromechanical sensor

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 356

According to the Substance Abuse and Mental Health Services Administration study of 2000, the vast majority of illicit drug users are:

- A. unemployed
- B. incarcerated
- C. employed.
- D. on parole

Answer: C ([LEAVE A REPLY](#))

The Substance Abuse and Mental Health Services Administration (SAMHSA) study of 2000 found that the vast majority of illicit drug users are employed. This finding highlights the importance of workplace substance abuse programs and policies to mitigate risks related to drug use, such as reduced productivity, safety incidents, and increased health care costs.

ASIS Certified Protection Professional (CPP) References:

* Workplace Security and Risk Management: CPP materials discuss the need for comprehensive workplace drug policies to address the prevalence of substance abuse among employees.

* Personnel Risk Management: Chapter 5 includes strategies for identifying and mitigating risks related to employee substance abuse.

NEW QUESTION: 357

Dry powder as a fire extinguisher is used on:

- A. Class A fires

- B. Class B fires
- C. Class E fires
- D. Class C fires
- E. Class D fires

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 358

The security guard's primary record of significant events affecting facility protection is known as the:

- A. Egress log
- B. Security log
- C. Ingress log
- D. Daily events recorder log
- E. Supervisor's log

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 359

Earthquakes constitute a definite concern to the emergency management responsibilities of security managers in certain areas of our country. Accordingly, it is incumbent upon security professionals to have a clear understanding of the basic facts concerning earthquakes. Which of the following is an incorrect statement?

- A. Earthquakes may also trigger landslides and generate tidal waves.
- B. Earthquakes may last from a few seconds to as long as five minutes.
- C. The actual movement of the ground in an earthquake is usually the direct cause of injury or death.
- D. Most casualties during an earthquake result from falling material.
- E. Earthquakes are unpredictable and strike without warning.

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 360

Which of the following is not true regarding the use of security doors as barriers?

- A. Door hinges may add to the weakness of a door if not properly installed.
- B. The doorframe may be a weak point if not properly installed.
- C. All of the above.
- D. Locking hardware is an important aspect of door security.
- E. The door is usually stronger than the surface into which it is set.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 361

Which of the following is not true of common law?

- A. It was brought to America by English colonists.
- B. None of the above.
- C. It originated in France.
- D. It basically was unwritten law.
- E. All of the above.

Answer: C ([LEAVE A REPLY](#))

- F. All of the above

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 363

Fires involving certain combustible metals would be classified as:

- A. Class C
- B. Class B
- C. Class A
- D. Class E
- E. Class D

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 364

In investigating homicide and suicide, the best source of information would probably be the:

- A. Sheriff's office
- B. County coroner's office
- C. Health office
- D. State attorney general's office
- E. Federal Bureau of Investigation

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 365

In conducting a polygraph, it is important to note that the most important measure of stress is recorded by:

- A. Galvanic skin response
- B. Perspiration
- C. None of the above
- D. Heartbeats
- E. Breathing

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 366

Which of the following is not a recommended action in planning for continuity of management during an emergency?

- A. Require at least yearly medical exams for key people.
- B. Avoid assigning as alternatives for the same key positions people who reside in the same neighborhood.
- C. Keep top management from traveling together in the same vehicle.
- D. Tell only top executives of plan.
- E. Prepare a job classifications file showing interrelated skills.

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 367

In meeting minimal federal specifications, government security containers must be equipped with a combination lock capable of resisting manipulation and radiological attack for:

- A. 10 man-hours
- B. 20 man-hours
- C. 30 man-hours
- D. 40 man-hours
- E. 45 man-hours

Answer: B ([LEAVE A REPLY](#))

Explanation/Reference:

NEW QUESTION: 368

An affiliation of organizations agreeing to assist each other during an emergency by providing materials, equipment, and personnel is known as a/an:

- A. incident response association
- B. mutual aid association.
- C. crisis support organization.
- D. business support association.

Answer: [\(SHOW ANSWER\)](#)

NEW QUESTION: 369

Which of the following security clearances is not used by the government?

- A. Q clearance
- B. Secret
- C. Restricted
- D. Top secret
- E. Confidential

Answer: [C \(LEAVE A REPLY\)](#)

NEW QUESTION: 370

The privilege against self-incrimination is found in the following amendment:

- A. Fourteenth
- B. Sixth
- C. Tenth
- D. Second
- E. Fifth

Answer: [\(SHOW ANSWER\)](#)

NEW QUESTION: 371

In conducting gambling investigations, the security officer should

- A. Not use undercover operatives
- B. Cooperate with local, county, state, or federal law enforcement
- C. None of the above
- D. Search the lockers of all suspects
- E. Wiretap the employee's home phone

Answer: [B \(LEAVE A REPLY\)](#)

NEW QUESTION: 372

A major Crime Prevention Through Environmental Design (CPTED) strategy is to:

- A. eliminate transitional zones between public and private spaces.
- B. replace security personnel and security systems.
- C. provide clear border definition of controlled spaces.
- D. install electronic surveillance equipment compatible with the terrain.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 373

Department of Defense regulations require initial approval in writing prior to processing any classified information in an ADP system by which of the following authorities:

- A. Cognizant Security Office
- B. The contracting officer
- C. The head of the Industrial Security Clearance Office
- D. National Security Agency
- E. Defense Intelligence Agency

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 374

During an investigation of embezzlement, there is a need to review the accounts payable ledger. This accounting record should contain the;

- A. company financial operating results for the most recent fiscal period.
- B. amounts paid to company suppliers and vendors, together with dates of payment.
- C. amount, kinds, and shipment dates of finished goods sent to customers.
- D. names and addresses of company suppliers.

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 375

The type of sensor that is designed to place a current-carrying conductor between an intruder and an area to be protected is known as a(n):

- A. Acoustic sensor
- B. Electromechanical sensor

NEW QUESTION: 377

Which of the following is not a correct statement regarding methadone?

- A. Both c and E.
- B. Methadone is only effective when administered by injection.
- C. Methadone was widely used in the 1960s in the treatment of narcotic addicts.
- D. Methadone was synthesized in Germany during World War II because of a shortage of morphine.
- E. Methadone was introduced to the United States in 1947 and was distributed under such names as amidone, dolophine, and methadone.
- F. Methadone is chemically like morphine and heroin.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 378

What type of fencing is generally used for protection of limited and exclusion areas?

- A. Barbed tape
- B. Concertina
- C. Chain-link
- D. Barbed wire
- E. Wood

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 379

The amendment that provides that no person shall be denied life, liberty, or property without due process of law is the:

- A. Eighth Amendment
- B. Fifth Amendment
- C. First Amendment
- D. Fourteenth Amendment
- E. Second Amendment

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 380

A code of ethics contains all of the following EXCEPT a:

- A.** statement from the chief executive describing and supporting the purpose and importance of the code.
- B.** statement of the organization's specific nature of business
- C.** statement of the commitment to the code.
- D.** statement of the human resources department.

Answer: (SHOW ANSWER)

A Code of Ethics outlines the core values, principles, and expectations for behavior within an organization.

While it may reference various departments, including human resources, it does not specifically require a statement of the human resources department.

* Key Components of a Code of Ethics:

- * Statement of purpose and organizational values.
- * Commitment to ethical conduct by employees at all levels.
- * Endorsement by leadership, usually from the CEO or equivalent.

CPP Context:

- * Organizational Integrity: Promotes ethical behavior as part of an overarching security and compliance program.
- * Policy Frameworks: Guides the creation of codes that reinforce accountability and corporate culture.

NEW QUESTION: 381

Media relations are best handled by:

- A.** retention of a media consultant throughout the duration of the critical incident.
- B.** assignment of one press information officer for each operational section.
- C.** assignment of a single public relations director.
- D.** daily rotation of the media relations assignment to guard against burnout.

Answer: (SHOW ANSWER)

During a critical incident, managing media relations is best handled by a single public relations director. This ensures consistency, clarity, and accuracy in the information disseminated to the public and media.

* Consistency of Messaging:

- * A single point of contact ensures all communications align with organizational objectives and incident response plans.

* Efficiency:

- * Centralized control prevents conflicting information and streamlines media interactions.

* Stakeholder Confidence:

- * A dedicated and competent spokesperson builds trust with media, employees, and the public.

* A: Retaining a media consultant is useful but does not replace an internal point of control.

* B: Assigning multiple press officers creates confusion and inconsistency.

* D: Daily rotation disrupts continuity and erodes trust with media.

Key Benefits of a Single Public Relations Director: Why Other Options Are Incorrect: ASIS

CPP References:

* Domain 8: Crisis Management Highlights effective communication strategies, including the importance of a single spokesperson.

NEW QUESTION: 382

With regard to nuclear attack, depending on one's location and other circumstances, the following action should be considered for survival:

A. Seek private shelter at home.

B. None of the above.

C. All of the above.

D. Seek public shelter in your own community.

E. Leave your community for shelter in a less dangerous area.

Answer: [\(SHOW ANSWER\)](#)

NEW QUESTION: 383

The method used to monitor telephone calls by providing a record of all numbers dialed from a particular phone is called:

A. Electronic surveillance

B. Wiretap

C. Pen register

D. None of the above

E. Phone bug

Answer: [C \(LEAVE A REPLY\)](#)

NEW QUESTION: 384

Which of the following is not a true statement in regard to phencyclidine?

A. None of the above.

B. It is unique among popular drugs of abuse in its power to produce psychoses that are indistinguishable from schizophrenia.

C. It is a Schedule I substance.

D. Most phencyclidine is produced in clandestine laboratories.

E. It is also known as angel dust and PCP.

Answer: [C \(LEAVE A REPLY\)](#)

NEW QUESTION: 385

A type of bodily disability wherein a person unconsciously converts his or her anxiety into a strong belief

that some part of his or her body has ceased to function is:

- A. Conversion hysteria
- B. Depression
- C. Malingering
- D. Phobia
- E. Hysterics

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 386

Technical and intelligence information derived from foreign communications by other than the intended

recipient is known as:

- A. Communications intelligence
- B. Classified security matters
- C. Highly confidential
- D. None of the above
- E. Restricted data

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 387

In order to adequately plan for emergencies, the security manager must make certain that the corporation

has access to all necessary resources that will save lives, minimize damage, and ensure the continued

operation of rapid restoration of damaged member plants. Most plants ensure access to such resources

by:

- A. Providing for a budget that will supply all the resources needed to cope with a major emergency
- B. Relying on their own self-help organization and equipment and joining hands with other plants in the community for mutual aid
- C. Contracting with local security companies to provide necessary resources, if needed during an emergency
- D. Establishing appropriate contact with the nearest military base
- E. Establishing appropriate liaison with the police, fire, rescue, and medical forces of the community to provide services as needed

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 388

According to the motivation-hygiene theory, employee motivation depends on:

- A. supervision, compensation, and working conditions.
- B. achievement, growth, and responsibility.
- C. security, feedback, and The grievance process.
- D. training, promotions, and open communication channels.

Answer: B (LEAVE A REPLY)

According to Herzberg's Motivation-Hygiene Theory, employee motivation is driven by intrinsic factors such as achievement, growth, and responsibility, which provide personal satisfaction and a sense of accomplishment.

* Motivators (Intrinsic Factors):

* Achievement, recognition, growth, and meaningful work enhance job satisfaction and motivation.

* Hygiene Factors (Extrinsic Factors):

* Salary, supervision, and working conditions are necessary to prevent dissatisfaction but do not inherently motivate.

* Application:

* Effective management focuses on providing opportunities for growth and responsibility to foster motivation.

* A: Supervision and working conditions are hygiene factors, not motivators.

* C: Security and feedback prevent dissatisfaction but do not drive motivation.

* D: Training and promotions are important but do not fully align with Herzberg's intrinsic motivators.

Key Concepts of the Motivation-Hygiene Theory: Why Other Options Are Incorrect: ASIS CPP References:

* Domain 9: Business Principles and Practices Explores motivational theories and their application in organizational management.

NEW QUESTION: 389

The three risk factors used to identify risk exposures are:

- A. known exposures, probability of occurrence, and prioritization.
- B. types of risk, probability of occurrence, and loss potential.
- C. prioritization, assessment, and probability of occurrence.
- D. types of risk, budget requirements, and loss potential.

Answer: B (LEAVE A REPLY)

The three risk factors used to identify risk exposures are types of risk (what risks exist), probability of occurrence (how likely they are to happen), and loss potential (the potential impact or cost if the risk materializes). These factors form the basis for effective risk assessments and prioritization in security management.

ASIS Certified Protection Professional (CPP) References:

* Risk Management Process: The CPP manual emphasizes identifying types of risk, assessing likelihood, and evaluating potential losses as foundational elements of risk analysis (Chapter 5).

* Risk Prioritization and Mitigation: CPP resources provide methods for quantifying these factors to develop actionable mitigation strategies.

NEW QUESTION: 390

A strategic approach to managing assets protection programs involves:

- A. planning, controlling, and reviewing.
- B. guiding, resourcing, and auditing.
- C. training, equipping, and reviewing.
- D. planning, managing, and evaluating.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 391

For the past 20 years, the two major components of economic crime have been:

- A. Computer crime and ordinary crime
- B. Employee theft and corporate bribery
- C. Fraud and embezzlement
- D. White-collar crime and ordinary crime

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 392

The sensor that is used when light air turbulence, vibration, or motion is present outside the room is a(n):

- A. Acoustic detector
- B. None of the above
- C. Microwave motion detector
- D. Vibration detector
- E. Ultrasonic motion detector

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 393

One natural disaster that seems to occur with increasing frequency is the tornado. It is necessary for the security manager to be knowledgeable regarding all aspects of tornados so that adequate disaster plans can be formulated. Which of the following statements is incorrect?

- A.** Tornados only occur in the middle plains, southeastern states, and some Middle Atlantic States.
- B.** The tornado spins like a top, may sound like the roaring of an airplane or locomotive, and varies from gray to black in color.
- C.** The individual tornado appears as a rotating, funnel-shaped cloud that extends toward the ground from the base of a thundercloud.
- D.** Tornados are violent local storms with whirling winds of tremendous speed that can reach 200-400 mph.
- E.** The width of a tornado path ranges generally from 200 yards to one mile.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 394

When guards are deputized, it is customary and prudent to:

- A.** Take out additional liability insurance
- B.** Limit the scope of the guard's authority to the actual guard duties
- C.** All of the above
- D.** Encourage the guard to assist law enforcement off the premises
- E.** None of the above

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 395

The condition whereby the user of a substance develops an attachment to the drug because of the substance's ability to satisfy some emotional or personality need of the user is known as:

- A.** Physical dependence
- B.** Tolerance
- C.** Psychological dependence
- D.** Addiction
- E.** Psychosis

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 396

Police are allowed to conduct a frisk-type search where there was reason to believe the person stopped was armed according to the Supreme Court decision of:

- A.** Massiah v. U.S.

- B. Wong Sun v. U.S.
- C. Mapp v. Ohio
- D. Kirby v. Illinois
- E. Terry v. Ohio

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 397

A case that is proved "on the face of it" is known as:

- A. A prima facie case
- B. None of the above
- C. The case in chief
- D. A corpus delicti case
- E. A directed verdict

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 398

A code of ethics contains all of the following EXCEPT a:

- A. statement of the organization's specific nature of business
- B. statement from the chief executive describing and supporting the purpose and importance of the code.
- C. statement of the commitment to the code.
- D. statement of the human resources department.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 399

The keys to the success of any emergency organization and plan are training and testing.

In designing effective testing procedures, the following are all valid observations except:

- A. Records should be maintained so deficiencies can be corrected following the test.
- B. One of the best times to test the plant emergency plan is in coordination with your local government periodic test exercises.
- C. Testing of the emergency plan should require the actual operation or simulation of every element of the plan in all possible emergency conditions.
- D. The testing exercise should be as realistic as possible.
- E. Plenty of advance notice should be given so all possible preparations can be made.

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 400

A symptom of radiation sickness is:

- A. All of the above

- B. Vomiting
- C. Lack of appetite
- D. Fatigue
- E. Nausea

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 401

As the security manager of a large corporation located in Southern California, you are charged with

formulating a disaster plan to handle emergencies that arise as a result of earthquakes.

Which of the

following warnings to be issued to employees should not be included in the plan?

- A. If employees are indoors at the time of shaking, they should stay there.
- B. If employees are outside, proceed to the nearest building and head for the basement promptly.
- C. If inside, stay near the center of the building.
- D. If inside, take cover under sturdy furniture.
- E. If inside, stay away from glass windows and doors.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 402

A sentry dog normally does not perform as well at:

- A. Warehouses
- B. Radar sites
- C. Ammunition storage areas
- D. Offices containing classified materials
- E. Gasoline storage areas

Answer: E ([LEAVE A REPLY](#))

NEW QUESTION: 403

Choosing a security container for a specific software application is largely determined by value and what other characteristic of the item to be stored?

- A. Vulnerability
- B. Commonality
- C. Place of origin
- D. Reproducibility

Answer: ([SHOW ANSWER](#))

When selecting a security container for sensitive software or data storage, vulnerability is a primary consideration alongside the item's value.

* Vulnerability Assessment:

* Examines the likelihood of theft, loss, or tampering.

- * Includes factors such as sensitivity, confidentiality, and susceptibility to compromise.
- * Security Grade Selection:
 - * Items with higher vulnerability require enhanced protection (e.g., fireproof safes, tamper-resistant containers).
 - * Standards like UL (Underwriters Laboratories) certifications guide appropriate container choices.
- * Other Factors (Not Primary):
 - * Commonality or Reproducibility: Refers to ease of replacement but is secondary to vulnerability.
 - * Place of Origin: Unrelated to container selection unless specific compliance laws dictate otherwise.
 - * Physical Security Standards: Guidelines on protective measures for high-value or high-vulnerability assets.
 - * Risk Mitigation Strategies: Evaluating risk exposure to align protective measures effectively.
 - * Asset Protection Practices: Emphasis on securing critical assets with robust containment solutions tailored to assessed risks.

CPP Context: Each verified answer aligns with ASIS CPP guidance, supporting actionable and accurate interpretations of the topics addressed.

NEW QUESTION: 404

Which of the following is not usually applicable to a confession?

- A. It is an admission of guilt.
- B. It was voluntary.
- C. It is often applied to civil transactions.
- D. It gives no inference other than guilt.
- E. It was made subsequent to commission of a wrongful act.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 405

According to the Myers-Briggs Type Indicator, which type of person is energy conscious, enjoys being with large groups of people, and prefers to act rather than reflect?

- A. Judging

- A. 11596
- B. 12300

- C. 9450
- D. 1099
- E. 1045

Answer: E ([LEAVE A REPLY](#))

Explanation/Reference:

NEW QUESTION: 414

To be within the definition of a trade secret, sensitive information must meet which of the following criteria?

- A. It must be identifiable.
- B. It must not be already available in public sources.
- C. All of the above.
- D. a, c, and d.
- E. There must be some obvious indication that the owner is attempting to prevent its unauthorized disclosure.
- F. Individuals to whom it is disclosed must know it is secret.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 415

Whenever possible, security planning for a new facility should begin during which of the following phases?

- A. Zoning approval
- B. Floor plan design
- C. Site selection
- D. Construction

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 416

The fire detector that responds to a predetermined temperature or to an increase in temperature is known as a(n):

- A. Ionization detector
- B. Photoelectric smoke detector
- C. Thermal detector
- D. None of the above
- E. Infrared flame detector

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 417

Crime Prevention Through Environmental Design is a set of management tools targeting:

- A. vault, safe, and intrusion testing.
- B. access control. CCTV and burglar and fire alarm systems.

- C. fencing, lighting, bollards, and gates.
- D. places, behavior, and the design and use of space.

Answer: D ([LEAVE A REPLY](#))

Crime Prevention Through Environmental Design (CPTED) focuses on the design and use of space to influence human behavior and reduce opportunities for crime. CPTED strategies aim to create safe environments by addressing elements such as natural surveillance, access control, territorial reinforcement, and maintenance.

ASIS Certified Protection Professional (CPP) References:

- * CPTED Principles: The CPP manual emphasizes how design and space usage can deter criminal activities while fostering safety.
- * Physical Security Applications: Chapter 6 discusses integrating CPTED into comprehensive security plans.

NEW QUESTION: 418

When guards are deputized, it is customary and prudent to:

- A. All of the above
- B. Take out additional liability insurance

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 438

During an emergency evacuation of a facility, special provisions must be made for:

- A. a muster point.
- B. command and control.
- C. securing vital business information
- D. assisting disabled persons.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 439

In meeting minimal federal specifications, noninsulated security containers must satisfactorily pass a drop test of:

- A. 20 feet

- B. 22 feet
- C. 25 feet
- D. 15 feet
- E. 30 feet

Answer: [\(SHOW ANSWER\)](#)

NEW QUESTION: 440

Post orders should be developed with which of the following criteria in mind?

- A. Each order is indexed
- B. Each order is detailed
- C. Each order is written in third party language
- D. Each order deals with one subject

Answer: D [\(LEAVE A REPLY\)](#)

Post orders serve as instructions for security personnel, providing clarity and consistency in executing their duties. Ensuring that each order focuses on one subject enhances comprehension and reduces confusion. A single-subject approach allows personnel to refer to specific instructions without needing to cross-reference multiple topics, ensuring efficiency and accuracy in operational execution.

ASIS Certified Protection Professional (CPP) References:

- * Security Management Practices: CPP guidelines emphasize the clarity and precision of operational documentation, including post orders.
- * Personnel Instruction and Training: CPP materials stress the importance of creating user-friendly instructions to optimize adherence to security procedures.

NEW QUESTION: 441

Fires involving live electrical equipment such as transformers would be classified as:

- A. Class C
- B. Class D
- C. Class A
- D. Class E
- E. Class B

Answer: A [\(LEAVE A REPLY\)](#)

NEW QUESTION: 442

Which of the following distinguishes embezzlement from other kinds of theft of corporate property or funds?

- A. Embezzlement can be detected only through an audit or accounting discrepancy.
- B. In embezzlement, the employee breaches a trust by stealing assets entrusted to him/her.
- C. Embezzlement is a "white collar" crime most often perpetrated by senior managers.
- D. It is not necessary to prove criminal intent in an embezzlement case.

Answer: B (LEAVE A REPLY)

Embezzlement is distinguished from other kinds of theft by the breach of trust inherent in the crime. In embezzlement, an individual steals or misappropriates assets that were lawfully entrusted to them. This distinguishes it from other types of theft, where the perpetrator may not have had legitimate access to the property.

Key Characteristics of Embezzlement:

- * Breach of Trust: The perpetrator exploits their position of trust within the organization.
- * Lawful Access: The individual had authorized access to the assets but used them for unauthorized purposes.
- * Intent: Criminal intent must still be proven, as the act involves deliberate misuse of entrusted property.

ASIS Certified Protection Professional (CPP) References:

- * Fraud and Internal Theft: The CPP manual explains embezzlement as a specific type of fraud characterized by misuse of entrusted resources (Chapter 8).
- * Insider Threat Management: The CPP material highlights the role of trust and access in differentiating embezzlement from other forms of theft.
- * Fraud Detection and Prevention: Guidelines for identifying signs of embezzlement, including audits and reconciliations, are emphasized in CPP fraud control strategies.

NEW QUESTION: 443

The kind of sensor that is based on the Doppler principle, named after the Austrian scientist who

originated the concept, is a(n):

- A. Electromechanical sensor
- B. Microwave sensor
- C. Capacitance sensor

NEW QUESTION: 452

Employees well-instructed on security awareness are better equipped to:

- A.** protect assets, understand the relationship between security and operations, communicate effectively with law enforcement, and reduce organizational liability.
- B.** protect assets, understand the relationship between security and operations, know personal security responsibilities, comply with regulatory requirements and contractual obligations, and reduce organizational liability.
- C.** perform security risk and vulnerability assessments, prepare for and respond to potential emergencies, and reduce organizational liability.
- D.** prepare for and respond to potential emergencies, protect assets, communicate effectively with law enforcement, investigate internal allegations, and reduce organizational liability.

Answer: B (LEAVE A REPLY)

Employees who are well-trained in security awareness are better equipped to integrate security practices into daily operations and fulfill regulatory and contractual obligations, ultimately reducing liability.

* Asset Protection:

* Employees understand the importance of safeguarding physical and informational assets.

* Integration with Operations:

* Awareness of how security supports overall business operations fosters better cooperation.

* Regulatory Compliance:

* Employees trained in compliance requirements help the organization meet legal and contractual obligations.

* Personal Security Responsibilities:

* Educating employees about their roles enhances individual accountability.

* A: While communication with law enforcement is beneficial, it does not encompass all responsibilities.

* C: Risk assessments are specialized tasks typically performed by trained professionals.

* D: Investigating internal allegations is not a standard security awareness training component.

Key Benefits of Security Awareness Training: Why Other Options Are Incorrect: ASIS CPP References:

* Domain 3: Security Operations Emphasizes the importance of security awareness in reducing organizational liability.

NEW QUESTION: 453

The Controlled Substances Act has imposed certain record-keeping requirements on those involved in the manufacturing, purchasing, and distribution of substances under the Act.

Which of the following is not one of the specific requirements?

- A.** Record-keeping requirements apply to all substances under control, regardless of schedule.
- B.** Record-keeping requirements only apply to Schedule I, II, and III substances.
- C.** Records for Schedule I and Schedule II drugs must be kept separate from all other records of the handler.
- D.** Record-keeping requirements state that full records be kept of all quantities that are manufactured, purchased, sold, and inventoried of the substance by each handler.
- E.** Records for Schedule III, IV, and V drugs must be kept in a form defined as "readily available. "

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 454

After the disaster plan has been fully prepared and tested, you as the security manager must make

certain that the employees thoroughly understand it and actually take an active interest in it. Which of the

following should not be done in your program of informing and educating the employees as to the plan?

- A.** New employees should be made aware of the existence of the disaster plan as soon as they come on duty.
- B.** Information disseminated to management should be prepared no differently from that contained in a general employee announcement.
- C.** Supervisory personnel are considered spokesmen for the company and employees naturally turn to these individuals for information.
- D.** Daily newsletters, bulletins, postings, and sales magazines should be closely evaluated as possible channels for the dissemination of disaster information.
- E.** Safety committees play a very important role in the development of the emergency plan.

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 455

A Hallcrest I survey was made relative to private security perceptions of law enforcement cooperation of

criminal incidents and assistance calls. The survey showed that proprietary security managers perceived

the degree of law enforcement cooperation to be:

- A. Cooperate reluctantly
- B. Interfere with the private security investigation
- C. Cooperate fully
- D. Don't cooperate

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 456

With regard to civil disorder planning, the responsibility for maintaining law and order rests with:

- A. Local authorities
- B. The proprietary security authority
- C. None of the above
- D. The Army Department
- E. The FBI

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 457

The ultimate value of loss reporting is the:

- A. determination of required insurance deductibles.
- B. forecasting of the next year's budget
- C. tracking and monitoring of properly records.
- D. opportunity created for predicting and preventing future losses.

Answer: D ([LEAVE A REPLY](#))

The ultimate value of loss reporting lies in its ability to predict and prevent future losses. By analyzing reported incidents, organizations can identify trends, vulnerabilities, and areas for improvement.

* Trend Analysis:

* Identifies patterns of loss, helping organizations address recurring issues.

* Preventative Measures:

* Informs the development of controls and policies to reduce future incidents.

* Data-Driven Decisions:

* Loss reporting supports evidence-based adjustments to security strategies.

* A: Determining insurance deductibles is a secondary benefit, not the ultimate value.

* B: Budget forecasting is a financial exercise, not the primary purpose of loss reporting.

* C: Tracking property records is operationally useful but not the key outcome.

Benefits of Loss Reporting: Why Other Options Are Incorrect: ASIS CPP References:

* Domain 2: Risk Management Discusses loss reporting as a tool for proactive risk mitigation.

NEW QUESTION: 458

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 508

Which of the following systems will improve the accuracy of security incident reporting and management?

- A. Mass notification systems
- B. Legacy security systems
- C. Integrated security systems
- D. Intrusion detection systems

Answer: ([SHOW ANSWER](#))

Integrated security systems improve the accuracy of security incident reporting and management by combining various security technologies into a centralized platform.

* Centralized Reporting:

* Integrates data from surveillance, access control, and intrusion detection for unified reporting.

* Automated Alerts:

* Reduces human error by automating incident reporting and response processes.

* Improved Analytics:

* Uses real-time data to enhance decision-making during incidents.

* A: Mass notification systems disseminate information but do not improve incident reporting accuracy.

* B: Legacy systems lack the modern capabilities of integrated platforms.

* D: Intrusion detection systems focus on detecting threats but do not manage incident reporting comprehensively.

Key Features of Integrated Security Systems: Why Other Options Are Incorrect: ASIS CPP References:

* Domain 3: Security Operations Highlights the benefits of integrated systems for incident management.

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 521

The most effective managerial style for a supervisor is to:

- A. have the freedom to measure a subordinate's performance without interference.
- B. acknowledge and give credit for good performance and then point out deficiencies in an objective fashion.
- C. evaluate the performance of subordinates on an annual or semiannual basis.
- D. have the authority to discipline, but also have some input into the selection of assignments during an inspection.

Answer: (SHOW ANSWER)

The most effective managerial style for a supervisor involves recognizing and reinforcing good performance while addressing deficiencies objectively. This approach fosters a balanced relationship between motivation and accountability, encouraging continuous improvement.

* Acknowledgment of Positive Contributions:

* Recognizing good performance boosts morale and reinforces desirable behaviors.

* Objective Feedback on Deficiencies:

* Providing constructive criticism in an objective and professional manner helps employees address shortcomings without feeling demoralized.

* Balanced Leadership:

* This style combines positive reinforcement with corrective guidance, maintaining respect and authority.

* A: Freedom to measure performance is necessary, but without recognition and feedback, it is ineffective.

* C: Evaluations should occur regularly, not just annually or semiannually.

* D: While authority and input are important, they do not directly address day-to-day managerial effectiveness.

Key Elements of Effective Supervisory Style: Why Other Options Are Incorrect: ASIS CPP
References:

* Domain 9: Business Principles and Practices Covers leadership and management strategies for effective supervision.
