### NEW QUESTION: 1

Why is understanding the AADS deployment process vital for maintaining operational efficiency?

- A. It does not support batch operations
- B. It requires no prior planning
- C. It is only applicable to small-scale deployments
- D. It ensures proper integration with existing systems

**Answer: D (LEAVE A REPLY)**

### NEW QUESTION: 2

What is the primary purpose of AADS Dynamic Configuration administration within corporate environments?

- A. To restrict device compatibility
- B. To decrease dependency on IT support
- C. To complicate user access controls
- D. To enhance user experience by providing customized setups

**Answer: D (LEAVE A REPLY)**

### NEW QUESTION: 3

Which factors are most important for the successful integration of AAWG with AAMS/WebRTC Gateway? (Choose Two)

- A. Synchronized configuration settings
- B. Robust security measures
- C. Continuous end-user training programs
- D. Isolation from external networks

**Answer: A,B (LEAVE A REPLY)**

**NEW QUESTION: 4**

Which components are necessary for deploying the Avaya Aura Web Gateway for WebRTC?

(Choose Two)

- A. Compatible hardware or virtual environment
- B. Certified WebRTC client
- C. Non-standard communication protocols
- D. High-latency network environments

**Answer: A,B (LEAVE A REPLY)**

**NEW QUESTION: 5**

What is the primary benefit of configuring HTTP Media Tunneling in ASBCE for Avaya Meetings Server access?

- A. Ensures secure and reliable transport of media over HTTP
- B. Decreases the security of transmitted data
- C. Completely disables external access
- D. It restricts all forms of media streaming

**Answer: A (LEAVE A REPLY)**

**NEW QUESTION: 6**

What must be configured to enable reverse proxy functionality in ASBCE?

- A. Local firewall settings only
- B. Direct IP address mapping
- C. NAT rules and secure certificate management
- D. Public DNS records

**Answer: C (LEAVE A REPLY)**

**NEW QUESTION: 7**

What is the primary role of the Avaya Aura Web Gateway in a WebRTC setup?

- A. To serve as a basic router
- B. To store media files
- C. To act as the signaling intermediary
- D. To provide external firewall services

**Answer: C (LEAVE A REPLY)**

**NEW QUESTION: 8**

Which configuration steps are critical when setting up ASBCE for secure public access to Avaya Meetings Server? (Choose Three)

- A. Ensuring robust firewall rules are in place
- B. Configuring Reverse Proxy settings appropriately
- C. Setting up STUN/TURN services for NAT traversal

D. Disabling all encryption mechanisms

**Answer: A,B,C ([LEAVE A REPLY](#))**

**NEW QUESTION: 9**

Which component is not part of the Avaya Meetings Server solution architecture?

- A. Avaya Call Center Server
- B. Avaya Aura Core components
- C. Avaya Meetings Media Servers
- D. Avaya Meetings Management

**Answer: A ([LEAVE A REPLY](#))**

**NEW QUESTION: 10**

How can you verify the configuration of Avaya Meetings Server features?

- A. Conducting test meetings and analyzing logs
- B. Manually checking each client device
- C. Using third-party network analyzers
- D. Running automatic software updates

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 11**

In configuring ASBCE, what considerations should be made for deploying the Reverse Proxy for Avaya Meetings Server?

- A. Prioritizing security and performance in its setup
- B. Implementing it without any connection limits
- C. Ensuring it is accessible from all network zones without restrictions
- D. Only enabling basic HTTP functionalities

**Answer: A ([LEAVE A REPLY](#))**

**NEW QUESTION: 12**

Which aspect of Avaya Meetings Streaming is most crucial for ensuring a high-quality viewer experience?

- A. Low resolution streaming options
- B. Basic interface design
- C. Compatibility with older video formats
- D. High scalability in viewer numbers

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 13**

What is the primary benefit of integrating LDAP with Avaya Aura Device Services (AADS)?

- A. Automatic configuration of Avaya Workplace Clients
- B. Manual configuration of devices

- C. Enhanced video conferencing capabilities
- D. Improved data security

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 14**

Why is testing with Avaya Meeting for Web Client crucial in a WebRTC deployment?

- A. To limit the user interface options
- B. To verify real-time communication effectiveness
- C. To ensure compatibility with non-standard browsers
- D. To reduce the overall system security

**Answer:** B ([LEAVE A REPLY](#))

**NEW QUESTION: 15**

Which benefits does Avaya Meetings Streaming offer to enhance meeting accessibility and reach?

(Choose Three)

- A. Scalable streaming options
- B. Integration with non-Avaya platforms
- C. Real-time language translation
- D. Advanced analytics on viewer engagement

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 16**

In what way does the Avaya Meetings Media Server integrate with the overall Avaya Meetings Server solution?

- A. By providing backend support only
- B. Through enhancing media streaming and recording
- C. By focusing solely on external communications
- D. Reducing overall system efficiency

**Answer:** B ([LEAVE A REPLY](#))

**NEW QUESTION: 17**

Which deployment strategy ensures the highest efficiency for AAWG as a WebRTC Gateway?

- A. Ensuring compatibility with all client devices
- B. Using the most advanced encryption protocols available
- C. Deploying in a minimal resource environment
- D. Prioritizing integration with legacy systems

**Answer: A (LEAVE A REPLY)**

**NEW QUESTION: 18**

What primary purpose does the Avaya Meetings Server architecture serve in an enterprise communication environment?

- A. Supports only small-scale deployments
- B. Delivers robust video conferencing capabilities
- C. Offers limited integration with other systems
- D. Provides basic telephony features only

**Answer: B (LEAVE A REPLY)**

**NEW QUESTION: 19**

What advantage does Avaya Aura Device Services (AADS) offer for Avaya Workplace Clients when integrated with LDAP?

- A. Limited device support
- B. Increased manual configuration requirements
- C. Automated client configuration
- D. Reduced call quality

**Answer: C (LEAVE A REPLY)**

**NEW QUESTION: 20**

How does the Avaya Meetings Media Server enhance the Avaya Meetings Server solution?

- A. By limiting the data storage capabilities
- B. By providing advanced media processing features
- C. By increasing the complexity of maintenance
- D. By reducing the system's overall functionality

**Answer: B (LEAVE A REPLY)**

**NEW QUESTION: 21**

What functionality does the Avaya Meetings Recording Gateway primarily provide?

- A. Direct streaming to external platforms
- B. Conversion of analog signals to digital format
- C. Encryption of all stored recordings
- D. Seamless recording of live meetings for future playback

**Answer: D ([LEAVE A REPLY](#))**

**NEW QUESTION: 22**

Why is the deployment process of AADS considered crucial for system administrators?

- A. It offers minimal security features
- B. It requires extensive manual intervention
- C. It limits access to advanced features
- D. It simplifies the management of client configurations

**Answer: D ([LEAVE A REPLY](#))**

**NEW QUESTION: 23**

Which components are integral to the WebRTC Gateway solution?

- A. Avaya Aura Web Gateway (AAWG) and Avaya Aura Media Server (AAMS)
- B. Mobile device integration services
- C. Avaya Call Center Server
- D. Third-party email servers

**Answer: A ([LEAVE A REPLY](#))**

**NEW QUESTION: 24**

How can the functionality of WebRTC audio/video calling be tested?

- A. Disabling all other network services
- B. Using third-party testing tools
- C. Conducting live calls using Avaya Meeting for Web Client
- D. Running simulations on virtual machines

**Answer: C ([LEAVE A REPLY](#))**

**NEW QUESTION: 25**

Why is it important to integrate Reverse Proxy with ASBCE when configuring secure access for Avaya Workplace Clients?

- A. To enhance the user interface design
- B. To limit the number of users accessing the service
- C. To reduce the overall system functionality
- D. To provide a layer of security for web services

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 26**

Which feature of Avaya Workplace Clients enhances user experience by supporting seamless communication across devices?

- A. Cross-platform synchronization
- B. Integrated messaging platform
- C. Basic call handling features only

D. Limited user interface customization

**Answer: A (LEAVE A REPLY)**

**NEW QUESTION: 27**

Which statement accurately describes the relationship between AADS and Avaya Workplace Clients?

- A. AADS and Avaya Workplace Clients operate independently without integration
- B. Avaya Workplace Clients cannot function without AADS
- C. AADS requires manual client configuration for each update
- D. AADS automatically provisions Avaya Workplace Clients, reducing administrative effort

**Answer: (SHOW ANSWER)**

**NEW QUESTION: 28**

Which features of ASBCE are essential for integrating with Avaya Meetings Server?  
(Choose Two)

- A. Limited user access logging
- B. HTTP Media Tunneling
- C. Basic packet filtering
- D. STUN/TURN server functionality

**Answer: (SHOW ANSWER)**

**NEW QUESTION: 29**

Which of the following best describes the deployment of Avaya Meetings Streaming and Recording?

- A. Deployment on mobile devices only
- B. Installation on standalone servers with manual data synchronization
- C. Requires no specific network configuration
- D. Integration with Avaya Aura Core components for seamless functionality

**Answer: D (LEAVE A REPLY)**
