### NEW QUESTION: 1

Which common cloud service model offers the customer the most control of the cloud environment?

- A. Platform as a service (PaaS)
- B. Lunch as a service (LaaS)
- C. Software as a service (SaaS)
- D. Infrastructure as a service (IaaS)

**Answer: D** ([LEAVE A REPLY](#))

### NEW QUESTION: 2

Raj is considering a physical deterrent control to dissuade unauthorized people from entering the organization's property. Which of the following would serve this purpose?

- A. A sign
- B. A wall
- C. A hidden camera
- D. Razor tape

**Answer: (**[SHOW ANSWER](#)**)**

### NEW QUESTION: 3

Which one of the following controls is not particularly effective against the insider threat?

- A. Firewalls
- B. Separation of duties
- C. Least privilege
- D. Background checks

**Answer: A** ([LEAVE A REPLY](#))

### NEW QUESTION: 4

Cyril wants to ensure all the devices on his company's internal IT environment are properly synchronized. Which of the following protocols would aid in this effort?

- A. NTP (Network Time Protocol)
- B. FTP (File Transfer Protocol)
- C. HTTP (Hypertext Transfer Protocol)
- D. SMTP (Simple Mail Transfer Protocol)

**Answer: A** ([LEAVE A REPLY](#))

#### **NEW QUESTION: 5**

Who should participate in creating a BCP

- A. Only members from the management team
- B. Only members from the IT department
- C. Only members from the finance department
- D. Members from across the organization

**Answer: D** ([LEAVE A REPLY](#))

#### **NEW QUESTION: 6**

Example of Dynamic authorization

- A. ABAC
- B. MAC
- C. RBAC
- D. DAC

**Answer: A** ([LEAVE A REPLY](#))

#### **NEW QUESTION: 7**

A company primary data center goes down due to a hardware failure causing a major disruption to the IT and communications systems. What is the focus of disaster recovery planning in this scenario

- A. Guiding the actions of emergency response personnel during the disruption
- B. Fixing the hardware failure
- C. Restoring IT and communications back to full operations after the disruptions
- D. Maintaining critical business functions during the disruption

**Answer: C** ([LEAVE A REPLY](#))

#### **NEW QUESTION: 8**

The senior leadership of Triffid Corporation decides that the best way to minimize liability for the company is to demonstrate the company's commitment to adopting best practices recognized throughout the industry. Triffid management issues a document that explains that Triffid will follow the best practices published by SANS, an industry body that addresses computer and information security.

The Triffid document is a \_\_\_\_\_, and the SANS documents are \_\_\_\_\_.

- A. Procedure, procedure
- B. Policy, standard
- C. Policy, law
- D. Law, policy

**Answer: B ([LEAVE A REPLY](#))**

**NEW QUESTION: 9**

Which type of network is set up similar to the internet but is private to an organization. Select the MOST appropriate?

- A. VLAN
- B. Intranet
- C. Extranet
- D. VPN

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 10**

Mark is configuring an automated data transfer between two hosts and is choosing an authentication technique for one host to connect to the other host. What approach would be best-suited for this scenario?

- A. Smart Card
- B. SSH Key
- C. Biometric
- D. Hard Coded Password

**Answer: B ([LEAVE A REPLY](#))**

**NEW QUESTION: 11**

The European Union (EU) law that grants legal protections to individual human privacy.

- A. The Privacy Human Rights Act
- B. The General Data Protection Regulation
- C. The Constitution
- D. The Magna Carta

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 12**

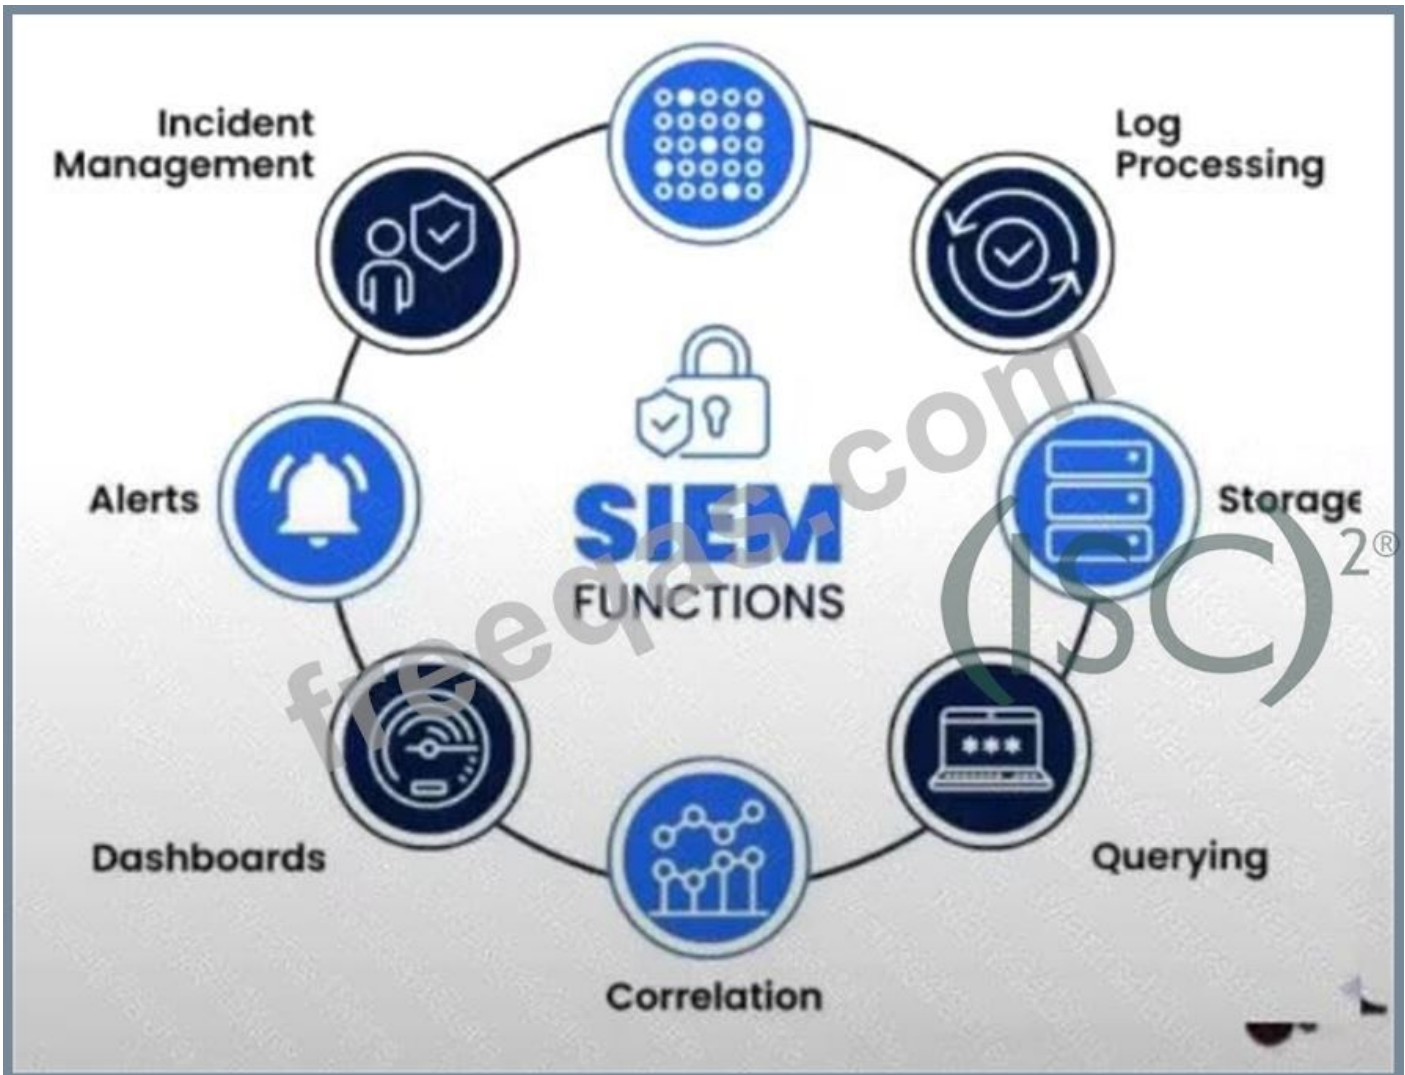

Also known as a virtual machine monitor or VMM, is software that creates and runs virtual machines (VMs)

- A. Hypervisor
- B. Simulation
- C. Cloud Controller
- D. Emulation

**Answer: A ([LEAVE A REPLY](#))**

**NEW QUESTION: 13**

Exhibit.

What is the purpose of a Security Information and Event Management (SIEM) system?

- A. Blocking malicious websites
- B. Managing user passwords
- C. Encrypting files
- D. Monitoring and analyzing security events -

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 14**

A company network experience a sudden flood of network packets that causes major slowdown in internet traffic. What type of event it this?

- A. Exploit
- B. Security incident
- C. Adverse event
- D. Natural disaster

**Answer:** C ([LEAVE A REPLY](#))

### NEW QUESTION: 15

Handel is a senior manager at Triffid, Inc., and is in charge of implementing a new access control scheme for the company. Handel wants to ensure that employees who are assigned to new positions in the company do not retain whatever access they had in their old positions. Which method should Handel select?

- A. Discretionary access controls (DAC)
- B. Role-based access controls (RBAC)
- C. Mandatory access controls (MAC)
- D. Logging

Answer: B ([LEAVE A REPLY](#))

### NEW QUESTION: 16

Four main components of Incident Response are

- A. Detection, Analysis, Containment, Eradication and Recovery
- B. All
- C. Preparation, Detection, Analysis and Containment
- D. Preparation, Detection and Analysis, Containment, Eradication a

Answer: ([SHOW ANSWER](#))

**Valid CC Dumps** shared by PrepPdf.com for Helping Passing CC Exam! PrepPdf.com now offer the **newest CC exam dumps**, the PrepPdf.com CC exam **questions have been updated** and **answers have been corrected** get the **newest** PrepPdf.com CC dumps with Test Engine here: <https://www.preppdf.com/ISC/CC-prepaway-exam-dumps.html> (409 Q&As Dumps, **40%OFF Special Discount: Exam-Tests**)

### NEW QUESTION: 17

Gary is unable to log in to the production environment. Gary tries three times and is then locked out of trying again for one hour. Why?

- A. Gary is being punished
- B. Users remember their credentials if they are given time to think about it
- C. The network is tired
- D. Gary's actions look like an attack

Answer: D ([LEAVE A REPLY](#))

### NEW QUESTION: 18

In Which of the following access control models can the creator of an object delegate permission

- A. RBAC
- B. MAC

- C. DAC
- D. ABAC

**Answer: D ([LEAVE A REPLY](#))**

**NEW QUESTION: 19**

A tool that monitors local devices to reduce potential threats from hostile software.

- A. DLP (data loss prevention)
- B. Anti-malware
- C. NIDS (network-based intrusion-detection systems)
- D. Firewall

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 20**

What security feature used in HTTPS

- A. SSH
- B. ICMP
- C. IPSec
- D. SSL/TLS

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 21**

Which device is used to control traffic flow in network

- A. SDN
- B. Router
- C. Switch
- D. Hub

**Answer: B ([LEAVE A REPLY](#))**

**NEW QUESTION: 22**

An IP network protocol standardized by the Internet Engineering Task Force (IETF) through RFC 792 to determine if a particular service or host is available.

- A. IP
- B. IGMP
- C. ICMP
- D. HTTP

**Answer: C ([LEAVE A REPLY](#))**

**NEW QUESTION: 23**

An unknown person obtaining access to the company file system without authorization is example of

- A. Intrusion

- B. Breach
- C. Incident
- D. Exploit

**Answer: B ([LEAVE A REPLY](#))**

**NEW QUESTION: 24**

In risk management concepts, a(n) \_\_\_\_\_ is something or someone that poses risk to an organization or asset.

- A. Control
- B. Fear
- C. Threat
- D. Asset

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 25**

What is the best practise to clear SSD storage after usage in term of cyber security

- A. Degaussing
- B. Zero fill
- C. Clearing
- D. Disintegration

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 26**

Actions, processes and tools for ensuring an organization can continue critical operations during a contingency.

- A. DR
- B. IR
- C. All
- D. BC

**Answer: D ([LEAVE A REPLY](#))**

**NEW QUESTION: 27**

Shaun is planning to protect their data in all states(Rest, Motion, use), defending against data leakage. What would be the BEST solution to implement?

- A. DLP
- B. End to end encryption.
- C. Hashing
- D. Threat Modeling

**Answer: A ([LEAVE A REPLY](#))**

**NEW QUESTION: 28**

Visitors to a secure facility need to be controlled. Controls useful for managing visitors include all of the following except:

- A. Receptionist
- B. Sign-in sheet/tracking log
- C. Fence
- D. Badges that differ from employee badges

**Answer: C (LEAVE A REPLY)**

**NEW QUESTION: 29**

Of the following, which would probably not be considered a threat?

- A. Unintentional damage to the system cause by a user
- B. Natural disaster
- C. An external attacker trying to gain unauthorized access to the environment
- D. A laptop with sensitive data on it

**Answer: D (LEAVE A REPLY)**

**NEW QUESTION: 30**

Which type of fire suppression system is more friendly to electronics

- A. Chemical based
- B. Foam based
- C. Carbon di Oxide based
- D. Water based

**Answer: C (LEAVE A REPLY)**

**NEW QUESTION: 31**

Measure of the extent to which an entity is threatened by a potential circumstance or event and likelihood of occurrence

- A. Threat
- B. Impact
- C. Threat Vector
- D. Risk

**Answer: (SHOW ANSWER)**

**Valid CC Dumps** shared by PrepPdf.com for Helping Passing CC Exam! PrepPdf.com now offer the **newest CC exam dumps**, the PrepPdf.com CC exam **questions have been updated** and **answers have been corrected** get the **newest** PrepPdf.com CC dumps with Test Engine here: <https://www.preppdf.com/ISC/CC-prepaway-exam-dumps.html> (409 Q&As Dumps, **40%OFF Special Discount: Exam-Tests**)

**NEW QUESTION: 32**

Natalia is concerned about the security of his organization's domain name records and would like to adopt a technology that ensures their authenticity by adding digital signatures. Select the MOST appropriate technology to use?

- A. DNSSIGN
- B. DNS2
- C. DNSSEC
- D. CERTDNS

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 33**

A measure of the degree to which an organization depends on the information or information system for the success of a mission or of a business function.

- A. Confidentiality
- B. Criticality
- C. Availability
- D. Authorization

**Answer:** B ([LEAVE A REPLY](#))

**NEW QUESTION: 34**

Which of the following is one of the common ways potential attacks are often identified?

- A. Users report unusual systems activity/response to Help Desk or the security office
- B. The attackers contact the target prior to the attack, in order to threaten and frighten the target
- C. The power utility company warns customers that the grid will be down and the internet won't be accessible
- D. Victims notice excessive heat coming from their systems

**Answer:** A ([LEAVE A REPLY](#))

**NEW QUESTION: 35**

Ping flood attack target which OSI layer

- A. Layer 3
- B. Layer 5
- C. Layer 6
- D. Layer 4

**Answer:** A ([LEAVE A REPLY](#))

**NEW QUESTION: 36**

Archiving is typically done when \_\_\_\_\_.

- A. Data has lost all value
- B. Data is not needed for regular work purposes
- C. Data has become illegal

D. Data is ready to be destroyed

**Answer: B ([LEAVE A REPLY](#))**

**NEW QUESTION: 37**

A company experiences a major IT outage and cannot perform its critical business functions. What type of plan will help the company recover from this event?

A. BCP

B. BIA

C. IRP

C DRP

**Answer: B ([LEAVE A REPLY](#))**

**NEW QUESTION: 38**

True or False? The IT department is responsible for creating the organization's business continuity plan

A. False

B. True

**Answer: A ([LEAVE A REPLY](#))**

**NEW QUESTION: 39**

What type of attack does the attacker store and reuse login information. Select the BEST answer?

A. Smurf attack

B. Replay attack

C. DDoS attack

D. Man-in-the-middle attack

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 40**

Which type of fire-suppression system is typically the safest for humans?

A. Water

B. Dirt

C. Oxygen-depletion

D. Gaseous

**Answer: A ([LEAVE A REPLY](#))**

**NEW QUESTION: 41**

Which of the following is NOT one of the three main components of a sql database?

A. Tables

B. Object-oriented interfaces

C. Schemas

D. Views

**Answer: B ([LEAVE A REPLY](#))**

**NEW QUESTION: 42**

Which is the component of a Business Continuity (BC) plan

- A. Notification systems and call trees for alerting personnel
- B. ALL
- C. Immediate response procedures and checklists
- D. Guidance for management, including designation of authority for specific managers

**Answer: B ([LEAVE A REPLY](#))**

**NEW QUESTION: 43**

Finance Server and Transactions Server has restored its original facility after a disaster, what should be moved in FIRST?

- A. Least critical functions
- B. Most critical functions
- C. Management
- D. Most critical systems

**Answer: A ([LEAVE A REPLY](#))**

**NEW QUESTION: 44**

Who must follow HIPAA Compliance

- A. Energy Sector
- B. Finance Sector
- C. ALL
- D. Health Care

**Answer: D ([LEAVE A REPLY](#))**

**NEW QUESTION: 45**

Which of these is the most important reason to conduct security instruction for all employees.

- A. It is a moral imperative
- B. Provide due diligence
- C. An informed user is a more secure user
- D. Reduce liability

**Answer: C ([LEAVE A REPLY](#))**

**NEW QUESTION: 46**

Which of the following is very likely to be used in a disaster recovery (DR) effort?

- A. Anti-malware solutions
- B. Data backups
- C. Contract personnel

D. Guard dogs

Answer: B ([LEAVE A REPLY](#))

Valid CC Dumps shared by PrepPdf.com for Helping Passing CC Exam! PrepPdf.com now offer the **newest CC exam dumps**, the PrepPdf.com CC exam **questions have been updated** and **answers have been corrected** get the **newest** PrepPdf.com CC dumps with Test Engine here: <https://www.preppdf.com/ISC/CC-prepaway-exam-dumps.html> (409 Q&As Dumps, **40%OFF** Special Discount: **Exam-Tests**)

**NEW QUESTION: 47**

Faking the sending address of a transmission to gain illegal entry into a secure system.

- A. ARP
- B. Spoofing
- C. ALL
- D. Phishing

Answer: B ([LEAVE A REPLY](#))

**NEW QUESTION: 48**

Which layer of the OSI layer model is responsible for associate MAC addresses to network devices

- A. Physical layer
- B. Transport layer
- C. Network layer
- C Data link layer

Answer: ([SHOW ANSWER](#))

**NEW QUESTION: 49**

Which is related to Privacy

- A. MOU
- B. FIPS
- C. GDPR
- D. All

Answer: D ([LEAVE A REPLY](#))

**NEW QUESTION: 50**

When should a business continuity plan (BCP) be activated?

- A. As soon as possible
- B. When instructed to do so by regulators
- C. When senior management decides

D. At the very beginning of a disaster

Answer: ([SHOW ANSWER](#))

**NEW QUESTION: 51**

An analysis of an information system's requirements, functions, and interdependencies used to characterize system contingency requirements and priorities in the event of a significant disruption.

- A. IRP
- B. DR
- C. BIA
- D. BCP

Answer: ([SHOW ANSWER](#))

**NEW QUESTION: 52**

Which of the following is an example of a "something you are" authentication factor?

- A. A credit card presented to a cash machine
- B. A user ID
- C. A photograph of your face
- D. Your password and PIN

Answer: ([SHOW ANSWER](#))

**NEW QUESTION: 53**

Triffid Corporation has a policy that all employees must receive security awareness instruction before using email; the company wants to make employees aware of potential phishing attempts that the employees might receive via email. What kind of control is this instruction?

- A. Technical
- B. Physical
- C. Finite
- D. Administrative

Answer: ([SHOW ANSWER](#))

**NEW QUESTION: 54**

The process of how an organization is managed; usually includes all aspects of how decisions are made for that organization

- A. Policy
- B. Governance
- C. Standard
- D. Procedure

Answer: B ([LEAVE A REPLY](#))

**NEW QUESTION: 55**

A structured approach used to oversee and manage risk for an enterprise

- A. Risk appetite
- B. Risk threshold
- C. Risk Management Framework
- D. Risk Assessment

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 56**

Trina is a security practitioner at Triffid, Inc. Trina has been tasked with selecting a new product to serve as a security control in the environment. After doing some research, Trina selects a particular product. Before that product can be purchased, a manager must review Trina's selection and determine whether to approve the purchase. This is a description of:

- A. Defense in depth
- B. Two-person integrity
- C. Software
- D. Segregation of duties

**Answer:** D ([LEAVE A REPLY](#))

**NEW QUESTION: 57**

How does IPSec protect against replay attacks

- A. By using sequence numbers
- B. By limiting access to the network
- C. By using digital signatures
- D. By encryption all network traffic

**Answer:** A ([LEAVE A REPLY](#))

**NEW QUESTION: 58**

Which type of attack takes advantage of vulnerabilities in validation?

- A. DNS poisoning
- B. ARP spoofing
- C. Pharming attacks
- D. Cross-site scripting (XSS)

**Answer:** D ([LEAVE A REPLY](#))

**NEW QUESTION: 59**

Which is not possible models for an Incident Response Team (IRT):

- A. Leveraged
- B. Dedicated
- C. Hybrid
- D. Outsourced

**Answer:** D ([LEAVE A REPLY](#))

**NEW QUESTION: 60**

At Parvi's place of work, the perimeter of the property is surrounded by a fence; there is a gate with a guard at the entrance. All inner doors only admit personnel with badges, and cameras monitor the hallways. Sensitive data and media are kept in safes when not in use.

This is an example of:

- A. Defense in depth
- B. Two-person integrity
- C. Penetration testing
- D. Segregation of duties

**Answer: A (LEAVE A REPLY)**

**NEW QUESTION: 61**

Which of the following documents contains elements that are NOT mandatory

- A. Procedures
- B. Policies
- C. Regulations
- D. Guidelines

**Answer: D (LEAVE A REPLY)**

**Valid CC Dumps** shared by PrepPdf.com for Helping Passing CC Exam! **NEW QUESTION: 62**

Which aspect of cybersecurity is MOST impacted by Distributed Denial of Service (DDoS) attacks?

- A. Non-repudiation
- B. Confidentiality
- C. Availability
- D. Integrity

**Answer: C (LEAVE A REPLY)**

**NEW QUESTION: 63**

What federal law requires the use of vulnerability scanning on information systems operated by federal government agencies?

- A. HIPAA

- B. FERPA
- C. FISMA
- D. GLBA

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 64**

The internet standards organization, made up of network designers, operators, vendors and researchers, that defines protocol standards

- A. IETF
- B. NIST
- C. ISO
- D. GDPR

**Answer:** A ([LEAVE A REPLY](#))

**NEW QUESTION: 65**

What is the importance of identifying roles and responsibilities in incident response planning?

- A. To choose an appropriate containment strategy
- B. To reduce the impact of the incident
- C. To ensure that everyone knows their job in the incident response process
- D. To prevent incidents from happening

**Answer:** C ([LEAVE A REPLY](#))

**NEW QUESTION: 66**

Security control used to protect against environmental threats such as fire, flood and earth quakes

- A. Logical Control
- B. Physical control
- C. Thechnical control
- D. Adminstrative Control

**Answer:** B ([LEAVE A REPLY](#))

**NEW QUESTION: 67**

Inbound traffic from an external source seems to indicate much higher rates of communication than normal, to the point where the internal systems might be overwhelmed. Which security solution can often identify and potentially counter this risk?

- A. Anti-malware
- B. Firewall
- C. Turnstile
- D. Badge system

**Answer:** B ([LEAVE A REPLY](#))

**NEW QUESTION: 68**

What is the first component the new security engineer should learn about in the incident response plan?

- A. Preparation
- B. Detection and analysis
- C. Containment
- D. Eradication

**Answer: A ([LEAVE A REPLY](#))**

**NEW QUESTION: 69**

Which authentication helps build relationships between different technology providers, enabling automatic identification and user access. Employees no longer need to enter separate usernames and passwords when visiting a new service provider

- A. Federated
- B. Token Based
- C. Basic
- D. Kerberos

**Answer: A ([LEAVE A REPLY](#))**

**NEW QUESTION: 70**

Which Prevent crime by designing a physical environment that positively influences human behavior.

- A. DMZ
- B. CPTED
- C. CCTV
- D. Security Alarm

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 71**

The harmonization of automated computing tasks, providing a consolidated and reusable workflow

- A. Cloud Controller
- B. Cloud broker
- C. Cloud Orchestration
- D. Cloud Manager

**Answer: C ([LEAVE A REPLY](#))**

**NEW QUESTION: 72**

Which encryption type used in HTTPS communication

- A. Assymmetric
- B. Both A and B

- C. None
- D. Symentric

**Answer: B ([LEAVE A REPLY](#))**

**NEW QUESTION: 73**

A company wants to ensure that its employees cannot bring unauthorized electronic devices into the workspace which physical control is best suited for this

- A. Metal Detectors
- B. RFID scanners
- C. Baggage X-ray machinces
- D. Security gaurds

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 74**

Triffid, Inc., wants to host streaming video files for the company's remote users, but wants to ensure the data is protected while it's streaming. Which of the following methods are probably best for this purpose?

- A. Symmetric encryption
- B. VLANs
- C. Hashing
- D. Asymmetric encryption

**Answer: A ([LEAVE A REPLY](#))**

**NEW QUESTION: 75**

The documentation of a predetermined set of instructions or procedures to detect, respond to and limit consequences of a malicious cyberattack against an organization's information systems(s).

- A. DRP
- B. BCP
- C. IRP
- D. IR

**Answer: C ([LEAVE A REPLY](#))**

**NEW QUESTION: 76**

Exhibit.

Symmetric Encryption	Asymmetric Encryption
<ul style="list-style-type: none"> <li>• Symmetric encryption consists of one key for encryption and decryption.</li> <li>• Symmetric Encryption is a lot quicker compared to the Asymmetric method.</li> </ul>	<ul style="list-style-type: none"> <li>• Asymmetric Encryption consists of two cryptographic keys, known as <b>Public Key</b> and <b>Private Key</b>.</li> <li>• As Asymmetric Encryption incorporates two separate keys, the process is slowed down considerably.</li> </ul>
<ul style="list-style-type: none"> <li>• RC4</li> <li>• AES</li> <li>• DES</li> <li>• 3DES</li> <li>• QUAD</li> </ul>	<ul style="list-style-type: none"> <li>• RSA</li> <li>• Diffie-Hellman</li> <li>• ECC</li> <li>• El Gamal</li> <li>• DSA</li> </ul>

How many keys would be required to support 50 users in an asymmetric cryptography system?

- A. 1225
- B. 50
- C. 200
- D. 100

Answer: D ([LEAVE A REPLY](#))

**Valid CC Dumps** shared by PrepPdf.com for Helping Passing CC Exam! PrepPdf.com now offer the **newest CC exam dumps**, the PrepPdf.com CC exam **questions have been updated** and **answers have been corrected** get the **newest** PrepPdf.com CC dumps with Test Engine here: <https://www.preppdf.com/ISC/CC-prepaway-exam-dumps.html> (409 Q&As Dumps, **40%OFF Special Discount: Exam-Tests**)

**NEW QUESTION: 77**

Permitting authorized access to information while protecting it from improper disclosure

- A. Confidentiality
- B. ALL
- C. Integrity
- D. Availability

Answer: A ([LEAVE A REPLY](#))

**NEW QUESTION: 78**

Who approves the incident response policy?

- A. Senior management
- B. The security manager
- C. Investor
- D. (ISC)2

Answer: A ([LEAVE A REPLY](#))

**NEW QUESTION: 79**

You experienced a power outage that disrupted access to your data center. What type of security concern occurred?

- A. Integrity
- B. Availability
- C. Confidentiality
- D. Non-Repudiation

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 80**

One of the benefits of computer-based training (CBT):

- A. Scalable
- B. Interacting with other participants
- C. Expensive
- D. Personal interaction with instructor

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 81**

Common network device used to connect networks?

- A. Endpoint
- B. Server
- C. Switch
- D. Router

**Answer:** D ([LEAVE A REPLY](#))

**NEW QUESTION: 82**

Hashing used to safe guard which CIA triad

- A. All
- B. Availability
- C. Confidentiality
- D. Integrity

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 83**

Why is an asset inventory much important?

- A. The law requires it
- B. You can't protect what you don't know you have
- C. It contains a price list
- D. It tells you what to encrypt

**Answer:** B ([LEAVE A REPLY](#))

**NEW QUESTION: 84**

The process of applying secure configurations (to reduce the attack surface)

- A. Security Benchmark
- B. Security Hardening
- C. Security Evaluation
- D. Security Assessment

Answer: ([SHOW ANSWER](#))

**NEW QUESTION: 85**

Business continuity planning is a reactive procedure that restores business operations after a disruption occurs.

- A. False
- B. True

Answer: ([SHOW ANSWER](#))

**NEW QUESTION: 86**

Load balancing safe guard which CIA triad

- A. All
- B. Confidentiality
- C. Integrity
- D. Availability

Answer: D ([LEAVE A REPLY](#))

**NEW QUESTION: 87**

In the context of cybersecurity, typical threat actors include the following:

- A. All
- B. Outside individuals or informal groups (either planned or opportunistic, discovering vulnerability).
- C. Insiders (either deliberately, by simple human error, or by gross incompetence).
- D. Technology (such as free-running bots and artificial intelligence)

Answer: A ([LEAVE A REPLY](#))

**NEW QUESTION: 88**

Data retention periods apply to \_\_\_\_ data.

- A. Medical
- B. Sensitive
- C. Secret
- D. All

Answer: D ([LEAVE A REPLY](#))

**NEW QUESTION: 89**

A device that filters network traffic in order to enhance overall security/performance.

- A. Endpoint
- B. Laptop
- C. MAC (media access control)
- D. Firewall

**Answer: D** ([LEAVE A REPLY](#))

**NEW QUESTION: 90**

Works via encapsulation and wrapping a packet inside another packet.

- A. Tunnelling
- B. Network segmentation
- C. Load balancing
- D. Data encryption

**Answer: A** ([LEAVE A REPLY](#))

**NEW QUESTION: 91**

Which of the following documents identifies the principles and rules governing an organization's protection of information systems and data

- A. Guideline
- B. Policy
- C. Standard
- D. Procedure

**Answer: (**[SHOW ANSWER](#)**)**

**Valid CC Dumps** shared by PrepPdf.com for Helping Passing CC Exam! PrepPdf.com now offer the **newest CC exam dumps**, the PrepPdf.com CC exam **questions have been updated** and **answers have been corrected** get the **newest** PrepPdf.com CC dumps with Test Engine here: <https://www.preppdf.com/ISC/CC-prepaway-exam-dumps.html> (409 Q&As Dumps, **40%OFF** Special Discount: **Exam-Tests**)

**NEW QUESTION: 92**

provide integrity services that allow a recipient to verify that a message has not been altered.

- A. encryption
- B. encoding
- C. decryption
- D. Hashing

**Answer: (**[SHOW ANSWER](#)**)**

**NEW QUESTION: 93**

Devid is worried about distributed denial of service attacks against his company's primary web application, which of the following options will provide the MOST resilience against large-scale ddos attacks?
