NEW QUESTION: 1

A manufacturing company has multiple factories and distribution centers in remote areas where they have poor internet connectivity. The company is planning to implement Dynamics 365 Supply Chain Management.

The company's main priorities are uninterrupted factory and distribution center operations, master data management, financial global reporting, and integration with analytics tools.

You need to design the infrastructure.

Solution: Implement cross-premises Microsoft Azure virtual network between the distribution centers, factories, and the Microsoft data center.

Does the solution meet The goal?

A. Yes

B. No

Answer: A (LEAVE A REPLY)

NEW QUESTION: 2

A company uses a legacy finance application that runs on a single SQL Server instance. The company plans to implement Dynamics 365 Finance. The following table describes the current implementation and design decisions for the new implementation:

Feature	Current application	Dynamics 365 implementation
Business logic	Business logic is implemented as stored procedures in SQL Server.	Business logic will be implemented as Power Automate flows.
Data	Data is stored in SQL Server tables.	Data will be imported by using Dynamics 365 APIs.
Reports	Reports are stored in SQL Server Reporting Services.	Reports will be recreated by using Power BI.
User Interface	HTML markup for the user interface is stored as text values in SQL Server.	HTML markup for the user interface will be migrated directly by using FetchXML queries.
Users	Users are configured as SQL Server user account.	Users will be configured as Office 365 user accounts.

You need to identify the gap in the migration plan. Which requirement should you identify as a gap?

- A. Business logic
- B. Users
- C. User Interface
- D. Reports
- E. Data

Answer: B (LEAVE A REPLY)

Reference:

<https://docs.microsoft.com/en-us/office365/enterprise/add-several-users-at-the-same-time>

NEW QUESTION: 3

A manufacturing company has multiple factories and distribution centers in remote areas where they have poor internet connectivity. The company is planning to implement Dynamics 365 Supply Chain Management.

The company's main priorities are uninterrupted factory and distribution center operations, master data management financial global reporting, and integration with analytics tools.

You need to design the infrastructure.

Solution: Implement the manufacturing factories' operations and distribution center operations on-premises and the center data repository in the cloud.

Does the solution meet The goal?

- A. Yes
- B. No

Answer: B (LEAVE A REPLY)

NEW QUESTION: 4

You set up Dynamics 365 for Finance and Operations.

Your organization will use email with the application.

You need to ensure that email will be sent using typical secure settings.

What setting must be set up as specified?

- A. Encryption: S/MIME and PGP are enabled.
- B. Information rights management is enabled.
- C. In-place eDiscovery is enabled.
- D. The SMTP port field is set to 587.

Answer: D (LEAVE A REPLY)

NEW QUESTION: 5

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A manufacturing company has multiple factories and distribution centers in remote areas where they have poor internet connectivity. The company is planning to implement Dynamics 365 Supply Chain Management.

The company's main priorities are uninterrupted factory and distribution center operations, master data management, financial global reporting, and integration with analytics tools.

You need to design the infrastructure.

Solution: Implement the manufacturing factories' operations and distribution center operations on-premises and replicate the data to a Microsoft data center.

Does the solution meet the goal?

A. Yes

B. No

Answer: A (LEAVE A REPLY)

Section: Design solution components

NEW QUESTION: 6

A United States-based company has a cloud-based Dynamics 365 Finance implementation. The company plans to open a new location in Mexico.

Electronic invoicing is mandated in Mexico.

You need to recommend a solution that meets Mexican localization reporting requirements. What should you recommend? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Requirement	Action
Implement localization	<input type="checkbox"/> Create a new cloud-based instance of Dynamics 365 Finance in Mexico. <input type="checkbox"/> Select Mexico for the localized functionality region field. <input type="checkbox"/> Select United States for the localized functionality region field. <input type="checkbox"/> Create a new on-premises instance of Dynamics 365 Finance in Mexico.
Configure company	<input type="checkbox"/> Create a new legal entity with MEX as the country code. <input type="checkbox"/> Create a new site in the existing legal entity with an address in Mexico. <input type="checkbox"/> Create a new warehouse in the existing legal entity with an address in Mexico. <input type="checkbox"/> Copy the current legal entity into a new legal entity and change the site address to Mexico.
Identify gaps	<input type="checkbox"/> Identify the reporting format requirement and analyze Dynamics 365 for supporting functionality. <input type="checkbox"/> Recommend using current reporting methods. <input type="checkbox"/> Recommend using out-of-the-box sales invoice report and send in the required format. <input type="checkbox"/> Identify fields in the localization that are relevant and remove the rest to simplify the report.

Answer:

Answer Area

Requirement

Implement localization

Configure company

Identify gaps

The screenshot shows a table with three columns: Requirement, Action, and a third column that is mostly blank. The requirements are listed in the first column, and the corresponding actions are listed in the second column. The actions are: 'Create a new cloud-based instance of Dynamics 365 Finance in Mexico.', 'Select Mexico for the localized functionality region field.', 'Select United States for the localized functionality region field.', 'Create a new on-premises instance of Dynamics 365 Finance in Mexico.', 'Create a new legal entity with MEX as the country code.', 'Create a new site in the existing legal entity with an address in Mexico.', 'Create a new warehouse in the existing legal entity with an address in Mexico.', 'Copy the current legal entity into a new legal entity and change the site address to Mexico.', 'Identify the reporting format requirement and analyze Dynamics 365 for supporting functionality.', 'Recommend using current reporting methods.', 'Recommend using out-of-the-box sales invoice report and send in the required format.', and 'Identify fields in the localization that are relevant and remove the rest to simplify the report.'

Requirement	Action	
Implement localization	Create a new cloud-based instance of Dynamics 365 Finance in Mexico.	
	Select Mexico for the localized functionality region field.	
	Select United States for the localized functionality region field.	
	Create a new on-premises instance of Dynamics 365 Finance in Mexico.	
Configure company	Create a new legal entity with MEX as the country code.	
	Create a new site in the existing legal entity with an address in Mexico.	
	Create a new warehouse in the existing legal entity with an address in Mexico.	
	Copy the current legal entity into a new legal entity and change the site address to Mexico.	
Identify gaps	Identify the reporting format requirement and analyze Dynamics 365 for supporting functionality.	
	Recommend using current reporting methods.	
	Recommend using out-of-the-box sales invoice report and send in the required format.	
	Identify fields in the localization that are relevant and remove the rest to simplify the report.

NEW QUESTION: 7

A German company is implementing a cloud-based Dynamics 365 system.

The company needs to determine the best data storage solution for the following requirements:

- * Data must be stored in the European Union.
- * Data cannot be viewed by the United States government under the Patriot Act.
- * Data transfer exceptions can be made but must be authorized by the corporate legal team.

You need to determine which cloud services may have to transfer data to the United States.

Which three services should you review? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Lifecycle Services
- B. Technical support
- C. Usage data
- D. Power BI dashboard
- E. Data center failover

Answer: A,B,C (LEAVE A REPLY)

Section: Identify solution requirements

NEW QUESTION: 8

You need to recommend solutions for City Power and Light's new system.

What should you recommend? To answer, drag the appropriate tools to the correct requirements.

Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools	Requirement	Tool
ISV	Solar panel quoting	
Custom	Wire payments	
Standard	Audit requirements	

Answer:

Answer Area

Explanation

Graphical user interface, application Description automatically generated

Requirement	Tool
Solar panel quoting	Custom
Wire payments	ISV
Audit requirements	Standard

NEW QUESTION: 9

You need to recommend solutions to streamline the business processes.

Which tool should you recommend for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Tool
E-commerce sales orders	Dynamics 365 Logic app Power App
Vendor purchase orders	Dynamics 365 Third party CPQ Third party EDI Third party OCR
User2's issue	Dynamics 365 Third party CPQ Third party EDI Third party OCR

Answer:

Requirement	Tool
E-commerce sales orders	Dynamics 365 Logic app Power App
Vendor purchase orders	Dynamics 365 Third party CPQ Third party EDI Third party OCR
User2's issue	Dynamics 365 Third party CPQ Third party EDI Third party OCR

NEW QUESTION: 10

You need to create a plan that meets the following requirements:

- * Migrate the data to the new system.
- * Implement a standardized method for creating items.
- * Prevent items from being created in different ways going forward.

Which two actions should you recommend? Each correct answer presents a complete answer.

NOTE: Each correct selection is worth one point.

- A. Suggest a Master Data Management team who standardizes the item master.
- B. Migrate existing items as-is.
- C. Migrate item data in the cutover plan after the annual updates of items,
- D. Migrate items in the cutover plan before the annual update of items.
- E. Suggest creating a Power BI report to identify like-items after migration.

Answer: A,E (LEAVE A REPLY)

NEW QUESTION: 11

You need to recommend a toolset to assist with User3 s feedback about the issues with journal entry and new user training. What should you recommend?

- A. RSAT tool with LCS
- B. RSAT tool with Asset library
- C. Task Recorder with RSAT
- D. Task Recorder with BPM library

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 12

A company is upgrading their AX 2012 R3 environment to Dynamics 365 Finance. The company plans to upgrade the data store by using a phased approach.

You need to define the strategy to migrate master data and opening balances. Which tool should you recommend?

- A. Data Import/Export Framework
- B. Data migration tool
- C. Combine XPO tool
- D. Usage profiler

Answer: ([SHOW ANSWER](#))

Reference:

<https://docs.microsoft.com/en-us/dynamicsax-2012/appuser-itpro/what-s-new-data-import-export-and- migration>

NEW QUESTION: 13

An organization is planning to migrate to Dynamics 365 Finance.

The organization reports that the legacy system has failed during peak sessions. You need to recommend an approach that will handle peak session volume.

Which two approaches should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Perform user integration testing.
- B. Use performance and load testing.
- C. Optimize server configuration.
- D. Configure a single box development environment.

Answer: B,C ([LEAVE A REPLY](#))

NEW QUESTION: 14

A graphics printing company using Dynamics 365 Supply Chain Management sells 100 percent made-to-order signs. These signs cannot be pre-produced.

The company wants to create an end-to-end process that includes production, sales order packing, and sales order picking.

You need to determine the order of the functions.

In which order should you recommend the actions be performed? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer area
Pack the box for the sales order.	
Use a production order to create the product.	
Pick for the sales order.	
Take a sales order.	
Process the sales order invoice.	

Answer:

ACTIONS	Answer area
Pack the box for the sales order.	Take a sales order.
Use a production order to create the product.	Use a production order to create the product.
Pick for the sales order.	Pick for the sales order.
Take a sales order.	Pack the box for the sales order.
Process the sales order invoice.	Process the sales order invoice.

Explanation

ACTIONS	Answer area
Pack the box for the sales order.	Take a sales order.
Use a production order to create the product.	Use a production order to create the product.
Pick for the sales order.	Pick for the sales order.
Take a sales order.	Pack the box for the sales order.
Process the sales order invoice.	Process the sales order invoice.

NEW QUESTION: 15

A telecom provider uses Microsoft SharePoint to track and manage mobile phones that are issued to employees.

All information about employee-issued mobile phones be visible in Dynamics 365. Managers must be able to issue new phones directly from the system.

You need to design an integration solution using Dynamics 365 and SharePoint.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

ACTIONS	Answer area
Create a blank Power Apps and connect to the SharePoint list.	
Embed the Power Apps into the Dynamics 365 Employee form.	
Use the standard formula and filter function of Power Apps.	
Embed the Power Apps into the SharePoint site.	
Create a SharePoint notification workflow.	
Establish the relationship between Dynamics 365, Power Apps, and the SharePoint list.	

Answer:

Actions

- Create a blank Power Apps and connect to the SharePoint list.
- Embed the Power Apps into the Dynamics 365 Employee form.
- Use the standard formula and filter function of Power Apps.
- Embed the Power Apps into the SharePoint site.
- Create a SharePoint notification workflow.
- Establish the relationship between Dynamics 365, Power Apps, and the SharePoint list.

Answer area

- Create a SharePoint notification workflow.
- Embed the Power Apps into the SharePoint site.
- Use the standard formula and filter function of Power Apps.
- Establish the relationship between Dynamics 365, Power Apps, and the SharePoint list.

Explanation

Answer area

- Create a SharePoint notification workflow.
- Embed the Power Apps into the SharePoint site.
- Use the standard formula and filter function of Power Apps.
- Establish the relationship between Dynamics 365, Power Apps, and the SharePoint list.

NEW QUESTION: 16

A multinational organization is evaluating Dynamics 365 Supply Chain Management.

Each regional office uses processes and procedures developed internally without input from the other offices.

The organization wants to perform a gap analysis to understand redundancies and additional requirements in their system.

You need to recommend a solution.

Which tool should you recommend? To answer, select the appropriate options in the answer area.

NOTE; Each correct selection is worth one point.

Scenario	Tool
Identify differences between regional office processes and procedures.	<input type="checkbox"/> Business process modeler <input type="checkbox"/> Configuration manager <input type="checkbox"/> Regression suite automation tool (RSAT)
Track the progress of the implementation project and its alignment to documented processes and procedures.	<input type="checkbox"/> Business process modeler <input type="checkbox"/> Microsoft Azure DevOps <input type="checkbox"/> Regression suite automation tool (RSAT)
Identify differences between standard company processes and how the system works.	<input type="checkbox"/> Business process modeler <input type="checkbox"/> Configuration manager <input type="checkbox"/> Regression suite automation tool (RSAT)

Answer:

Answer Area

Scenario	Tool
Identify differences between regional office processes and procedures.	Business process modeler Configuration manager Regression suite automation tool (RSAT)
Track the progress of the implementation project and its alignment to documented processes and procedures.	Business process modeler Microsoft Azure DevOps Regression suite automation tool (RSAT)
Identify differences between standard company processes and how the system works.	Business process modeler Configuration manager Regression suite automation tool (RSAT)

Explanation

Scenario	Tool
Identify differences between regional office processes and procedures.	Business process modeler
Track the progress of the implementation project and its alignment to documented processes and procedures.	Microsoft Azure DevOps
Identify differences between standard company processes and how the system works.	Regression suite automation tool (RSAT)

NEW QUESTION: 17

A company is implementing a Dynamics 365 environment. The environment will be used for performance testing. Performance tests will occur at 40,000 transaction lines per hour and will include 200 users. The environment must minimize cost. You need to determine which tier of environment is required. What should you recommend?

- A. Tier 1
- B. Tier 2
- C. Tier 3
- D. Tier 4
- E. Tier 5

Answer: ([SHOW ANSWER](#))

Section: Define solution testing and management strategies

Explanation/Reference:

<https://kurthatlevik.com/2019/03/27/dynamics-365-fo-selecting-the-correct-tier-level-on-your-sandboxes/>

NEW QUESTION: 18

An organization has implemented the accounts payable module in Dynamics 365 Finance. Corporate policy specifies the following:

- * Managers and directors are allowed to approve invoices for payment.
- * Users are allowed to delegate their signing authority to other users when they are out of the office.
- * Accounts payable workflow will be used to assist in automating the signing process.
- * Users whose job has signing authority can approve invoices for payment.

You need to meet the organization's corporate policy. What should you recommend?

- A. Assign all jobs signing authority.
- B. Create workflow rules.
- C. Email the delegation policy to all managers.
- D. Create business event rules.

Answer: B (LEAVE A REPLY)

NEW QUESTION: 19

A toy manufacturer keeps finished products in a physical warehouse.

The manufacturer and distributor use different inventory control software. Sales orders are used to move inventory to the distributor.

The distributor must be notified immediately when the toy manufacturer ships an order.

You need to determine a solution for providing notifications to the distributor's inventory system.

What are three possible ways to achieve this goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Recurring integrations
- B. Custom web service
- C. Business events
- D. Lifecycle Services
- E. OData

Answer: A,C,E (LEAVE A REPLY)

NEW QUESTION: 20

A travel agency is implementing Dynamics 365 Finance and Dynamics 365 Supply Chain Management. The agency must validate and perform these tasks during each regression cycle.

- * Purchase and sales processes
- * Payment gateway functionality to third-party integration
- * Vendor payment
- * Notifications
- * Chart control
- * Page refresh data consistency

You need to determine which tasks can be performed using the Regression suite automation tool (RSAT). Which three tasks can be performed? Each Correct answer presents a complete solution. NOTE: Each correct selection is worth one point

- A. page refresh data consistency
- B. configure vendor payment settings
- C. chart control
- D. notifications
- E. purchase and sales processes

Answer: A,D,E (LEAVE A REPLY)

NEW QUESTION: 21

A research institute is implementing Dynamics 365 Finance and plans to use Lifecycle Services (LCS) to standardize the implementation process.

You need to define a strategy for implementing LCS tools to meet the requirements.

What should you recommend? To answer, drag the appropriate tools to the correct tasks. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools	Answer Area	Task	Tool
Usage profiler		View a detailed summary of consumed characteristics modeled for an organization.	Tool
Performance metrics		View the most expensive queries for selected period.	Tool
Business process modeler		Create, view, and modify repeatable implementations.	Tool
Upgrade analysis		Plan full-version, minor-version, and in-place upgrades.	Tool

Answer:

Tools	Answer Area	Task	Tool
Usage profiler		View a detailed summary of consumed characteristics modeled for an organization.	Usage profiler
Performance metrics		View the most expensive queries for selected period.	Performance metrics
Business process modeler		Create, view, and modify repeatable implementations.	Business process modeler
Upgrade analysis		Plan full-version, minor-version, and in-place upgrades.	Upgrade analysis

Explanation

Tools	Answer Area	Task	Tool
Usage profiler		View a detailed summary of consumed characteristics modeled for an organization.	Usage profiler
Performance metrics		View the most expensive queries for selected period.	Performance metrics
Business process modeler		Create, view, and modify repeatable implementations.	Business process modeler
Upgrade analysis		Plan full-version, minor-version, and in-place upgrades.	Upgrade analysis

NEW QUESTION: 22

A winery is considering using Dynamics 365 Finance to implement a large-scale ERP application and needs to understand the differences between cloud-based and on-premises deployments.

You need to recommend deployment options for the company.

What should you recommend? To answer, drag the appropriate deployment types to the correct features. Each deployment type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Deployment types	Feature	Deployment type
Cloud only	General journals	Deployment type
On-premises only	Sales orders	Deployment type
Both cloud and on-premises	Lifecycle Services monitoring	Deployment type
	Document Routing Agent	Deployment type

Answer:

Deployment types	Feature	Deployment type
Cloud only	General journals	Both cloud and on-premises
On-premises only	Sales orders	Both cloud and on-premises
Both cloud and on-premises	Lifecycle Services monitoring	Both cloud and on-premises
	Document Routing Agent	Cloud only

Explanation

Feature	Deployment type
General journals	Both cloud and on-premises
Sales orders	Both cloud and on-premises
Lifecycle Services monitoring	Both cloud and on-premises
Document Routing Agent	Cloud only

NEW QUESTION: 23

A company uses Dynamics 365 Finance.

The company receives a large number of accounts payable invoices on a regular basis that are currently being entered manually.

You need to research ways accounts payable invoices can be created automatically.

What should you recommend? To answer, drag the appropriate solutions to the correct scenarios. Each solution may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer Area

Solutions	Scenario	Solution
Vendor invoice automation	Standard interface in Dynamics 365 Finance that can accept machine-ready invoice metadata format with applicable attachments.	
Optical character recognition (OCR)	Technology that converts contained images into text format.	
EDI 810	Electronic format to send invoices.	
Vendor collaboration	Workspace designed for vendors to view invoice information and to submit invoices to Dynamics 365 Finance.	

Answer:

Answer Area

Solutions	Scenario	Solution
Vendor invoice automation	Standard interface in Dynamics 365 Finance that can accept machine-ready invoice metadata format with applicable attachments.	Vendor invoice automation
Optical character recognition (OCR)	Technology that converts contained images into text format.	Optical character recognition (OCR)
EDI 810	Electronic format to send invoices.	EDI 810
Vendor collaboration	Workspace designed for vendors to view invoice information and to submit invoices to Dynamics 365 Finance.	Vendor collaboration

NEW QUESTION: 24

A company is implementing a new Dynamics 365 cloud deployment. The stakeholders need to confirm that performance testing meets their expectations.

The single-user test procure-to-pay scenario is complete.

You need to successfully complete the multi-user load test.

Which tool should you recommend?

- A. Microsoft Azure DevOps
- B. Microsoft Dynamics Lifecycle Services
- C. PerfSDK
- D. Visual Studio

Answer: (SHOW ANSWER)

Reference:

<https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/perf-test/perfsdk-multi-user-testing>

NEW QUESTION: 25

A company is implementing Dynamics 365 Finance.

A series of related data packages must be migrated.

You need to define the sequence of the data packages migration. Which Lifecycle Services tool should you use?

- A. Solution management
- B. Business process modeler
- C. Process data package in the Asset library
- D. Software deployable package in the Asset library.

Answer: C (LEAVE A REPLY)

Reference:

<https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/lcs-solutions/process-data-packages-lcs-solutions>

NEW QUESTION: 26

A company uses Dynamics 365 Supply Chain Management. You are evaluating the company's new business processes.

You need to determine which tools functional consultants should use to identify any possible gaps and new features available from Microsoft.

What should you recommend? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

The screenshot shows a Microsoft Dynamics 365 interface with a drag-and-drop activity. On the left, under "Tools", there is a list of tools: "Business process library", "Task Recorder", "Feature Management Workspci", and "Service Update Availability". In the center, under "Answer Area", there are four requirements: "Display the new business process visually.", "Create user manuals in Microsoft Word format.", "View a Dynamics 365 Supply Chain Management dashboard that has a list of features delivered in each release.", and "View a website that lists target dates for upcoming product service updates including preview availability, general availability, and end of service." On the right, under "Tool", there are four empty boxes labeled "Tool".

Answer:

The screenshot shows the same Microsoft Dynamics 365 interface as above, but with the correct tools dragged to the requirements. "Task Recorder" is dragged to the first requirement, "Task Recorder" to the second, "Feature Management Workspci" to the third, and "Business process library" to the fourth.

Explanation

The screenshot shows a Microsoft Dynamics 365 interface with the following content:

- Requirement:**
 - Display the new business process visually.
 - Create user manuals in Microsoft Word format.
 - View a Dynamics 365 Supply Chain Management dashboard that has a list of features delivered in each release.
 - View a website that lists target dates for upcoming product service updates including preview availability, general availability, and end of service.
- Tool:**
 - Task Recorder
 - Task Recorder
 - Feature Management Workspace
 - Business process library

NEW QUESTION: 27

A company plans to implement Dynamics 365 Supply Chain Management. The company has the following requirements:

- * Use mobile devices for warehouse activities including cycle counting.
- * Set up automatic cycle counting work IDs and assign the IDs to workers.
- * Ensure that workers can group work IDs that are specific to a particular location, zone, or work pool.
- * Ensure that workers can specify a cycle counting work ID that has a status of Open.
- * Ensure that workers can count items in a warehouse location at any time.

You need to recommend cycle counting options that meet the company's requirements.

What should you recommend? To answer, drag the appropriate counting options to the correct requirements.

Each counting option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

The screenshot shows the Dynamics 365 interface for question 27. It includes a 'Cycle count options' pane on the left with four options: User directed, System directed, Cycle count grouping, and Spot cycle count. The 'Answer Area' on the right contains four requirements. The 'Cycle count option' pane on the far right is currently empty.

Answer:

The screenshot shows the Dynamics 365 interface with the correct answer for question 27. The 'Cycle count options' pane on the left has four options: User directed, System directed, Cycle count grouping, and Spot cycle count. The 'Answer Area' on the right contains four requirements. The 'Cycle count option' pane on the far right has four options: User directed, System directed, Cycle count grouping, and Spot cycle count. The options are connected to the requirements by dashed lines.

Explanation

Cycle count options

- User directed
- System directed
- Cycle count grouping
- Spot cycle count

Answer Area

Requirement

- Specify a cycle counting work ID that has a status of **Open**.
- Automatically assign a cycle counting work ID to a worker.
- Group work IDs that are specific to a particular location, zone, or work pool.
- Count items in a warehouse location at any time.

Cycle count option

- User directed
- System directed
- Cycle count grouping
- Spot cycle count

<https://docs.microsoft.com/en-us/dynamics365/supply-chain/warehousing/cycle-counting>

NEW QUESTION: 28

You need to determine an infrastructure for the solution.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Infrastructure

Hardware

- Laptops and credit card readers only
- Warehouse mobile devices and laptops only
- Warehouse mobile devices, laptops, and a store database
- Warehouse mobile devices, laptops, and other peripheral devices

These are the selections for the infrastructure: Hardware.

Apps and Services

- Common Data Model and Common Data Service
- FTP Server

These are the selections for the infrastructure: Apps and Services.

Answer:

Answer Area

Infrastructure

Hardware

- Laptops and credit card readers only
- Warehouse mobile devices and laptops only
- Warehouse mobile devices, laptops, and a store database
- Warehouse mobile devices, laptops, and other peripheral devices

These are the selections for the infrastructure: Hardware.

Apps and Services

NEW QUESTION: 29

A company is planning a Dynamics 365 deployment.

The company needs to determine whether to implement an on-premises or a cloud deployment based on system performance.

You need to work with a developer to determine the proper tool from the Performance SDK to complete performance testing.

Which tool should you use? To answer, drag the appropriate tools to the correct scenarios. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation

Graphical user interface, text, application Description automatically generated

NEW QUESTION: 31

You are an architect implementing Dynamics 365.

The Dynamics 365 administrator who manages deployments of components leaves the company. Microsoft Azure DevOps pipelines must be configured to automate deployments.

You need to recommend which Microsoft Azure DevOps pipeline tasks to use to meet the requirements. What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement

Task

Add a package to a Lifecycle Services (LCS) project asset library.

- ▼
- Dynamics Lifecycle Services (LCS) Asset Upload
- Dynamics Lifecycle Services (LCS) Asset Deployment
- Create Deployable Package
- Add Licenses to Deployable Package
- Update Model Version

Add a package from a Lifecycle Services (LCS) project asset library to a non-production environment.

- ▼
- Dynamics Lifecycle Services (LCS) Asset Upload
- Dynamics Lifecycle Services (LCS) Asset Deployment
- Create Deployable Package
- Add Licenses to Deployable Package
- Update Model Version

Compile binaries into a package for build and release pipelines.

- ▼
- Dynamics Lifecycle Services (LCS) Asset Upload
- Dynamics Lifecycle Services (LCS) Asset Deployment
- Create Deployable Package
- Add Licenses to Deployable Package
- Update Model Version

Answer:

Answer Area

NEW QUESTION: 32

A client plans to implement Dynamics 365 Finance.

The client is unsure whether to use a cloud-based or on-premises implementation.

For which scenario should the client install the on-premises version of the app?

- A.** The client is concerned about their retail stores losing internet connection and not being able to process offline store transactions.
- B.** The client needs to comply with data sovereignty rules in a region where Microsoft Azure Data Centers are limited.
- C.** The client wants direct access to production environments.
- D.** The client has integrations that depend on direct Microsoft SQL access.

Answer: D (LEAVE A REPLY)

Section: Design solution components

NEW QUESTION: 33

A client wants to create a custom view-only security role that allows users to view the customer list in the accounts receivable module. You create a security role named Read Only UserAR and add the role to users.

You create a custom duty named Customer ViewList.

You need to recommend how to implement the privileges.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A.** Add the Customers privilege to CustomerViewList.
- B.** Add the Customers privilege to CustCustomerMasterinquire.
- C.** Add ReadOnlyAR to users.
- D.** Add CustomerViewList to ReadOnlyUserAR.
- E.** Add the CustCustomerMasterinquire duty to ReadOnlyUserAR.
- F.** Add the Customers privilege to the CustCustomer

Answer: (SHOW ANSWER)

NEW QUESTION: 34

You plan the migration from Dynamics AX 2012 R3 to a Dynamics 365 for Finance and Operations environment.

You will be using Lifecycle Services (LCS) and the tools provided with it.

You need to clean up data, review and configure SQL optimizations, and identify deprecated features in your code.

What tool should you use?

- A. Microsoft Azure DevOps
- B. Code upgrade estimation tools
- C. Data Import/Export Framework (DIXF)
- D. Upgrade analyzer

Answer: D (LEAVE A REPLY)

Explanation/Reference:

NEW QUESTION: 35

Fourth Coffee plans to implement Dynamics 365 Finance and Dynamics 365 Supply Chain Management. The company owns and operates the following divisions:

Division	Action
Production	Packages and roasts coffee beans
Distribution	Delivers products to market

You need to ensure that Fourth Coffee can report financial results by division. Which strategy should you recommend?

- A. Create one legal entity with two sites. Associate financial dimensions to sites.
- B. Create one legal entity with one site that has two warehouses. Associate the financial dimensions to the warehouses.
- C. Create two legal entities, create one warehouse and associate the financial dimension to the warehouse.
- D. Create two legal entities, create one site and associate a financial dimension per company.

Answer: (SHOW ANSWER)

NEW QUESTION: 36

A company use Dynamics 365 Business Central.

The company identifies the following issues:

Users report they cannot perform planning and dispatching of service orders or track bills of material in the system.

The finance department says that licensing costs are higher than budgeted.

You need to recommend a solution to address the issues. What should you recommend?

- A. Perform a fit-gap analysis. Implement service order management and manufacturing business processes and license changes.
- B. Configure all users as Business Central Premium users.
- C. Configure all users as Business Central Essentials users.
- D. Ensure that the service order management and manufacturing processes steps are documented in a flow chart.
- E. Use the Lifecycle Services business process modeler to create service order management and manufacturing tasks in the BPM Library.

Answer: A (LEAVE A REPLY)

NEW QUESTION: 37

A company is upgrading their AX 2012 R3 environment to Dynamics 365 Finance. The company plans to upgrade the data store by using a phased approach.

You need to define the strategy to migrate master data and opening balances.

Which tool should you recommend?

- A. Data Import/Export Framework
- B. Microsoft Dynamics AX Intelligent Data Management Framework
- C. Combine XPO tool
- D. Business process modeler

Answer: A (LEAVE A REPLY)

Section: Design solution components

Explanation/Reference:

<https://docs.microsoft.com/en-us/dynamicsax-2012/appuser-itpro/what-s-new-data-import-export-and-migration>

NEW QUESTION: 38

A customer is implementing Dynamics 365 Finance and Dynamics 365 Supply Chain Management.

The customer wants to use this implementation to standardize business processes.

You need to perform a gap analysis and recommend how to address the gaps.

Which functionality should you recommend for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement

Functionality

Multiple requisitions must be consolidated into a single purchase order.

- Purchase requisition workflow
- Consolidation legal entity
- Demand consolidation
- Purchase order versions

Headcount must be tracked in the general ledger for reporting purposes.

- Statistical accounts
- Posting layers
- Cost entry
- Cost control unit

The system must be configured to maintain appropriate stock levels.

- Item coverage
- Master planning
- Stock counting
- Storage dimensions

Answer:

Requirement

Functionality

Multiple requisitions must be consolidated into a single purchase order.

	▼
Purchase requisition workflow	
Consolidation legal entity	
Demand consolidation	
Purchase order versions	

Headcount must be tracked in the general ledger for reporting purposes.

	▼
Statistical accounts	
Posting layers	
Cost entry	
Cost control unit	

The system must be configured to maintain appropriate stock levels.

	▼
Item coverage	
Master planning	
Stock counting	
Storage dimensions	

Reference:

<https://docs.microsoft.com/en-us/dynamics365/supply-chain/master-planning/safety-stock-replenishment>

NEW QUESTION: 39

A distribution center uses Dynamics 365 Supply Chain Management.

When product returns are received at the distribution center, they are inspected, and a replacement is sent to the customer. Customer service processes both the return receipts and replacement orders to speed up the process.

The system must be able to prevent a single user from completing an entire return process.

You need to recommend a solution.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Scenario

Recommendation

The ability to process the receipt of the returned product.

	▼
Field security	
Security role	
Segregation of duties rule	

The ability to issue the shipment advice of the replacement product.

	▼
Field security	
Security role	
Segregation of duties rule	

The ability to prevent the assignment of the permission to issue a customer credit.

	▼
Field security	
Security role	
Segregation of duties rule	

Answer:

Scenario

Recommendation

The ability to process the receipt of the returned product.

	▼
Field security	
Security role	
Segregation of duties rule	

The ability to issue the shipment advice of the replacement product.

	▼
Field security	
Security role	
Segregation of duties rule	

The ability to prevent the assignment of the permission to issue a customer credit.

	▼
Field security	
Security role	
Segregation of duties rule	

Explanation

The ability to process the receipt of the returned product.

The ability to issue the shipment advice of the replacement product.

The ability to prevent the assignment of the permission to issue a customer credit.

Recommendation

	▼
Field security	
Security role	
Segregation of duties rule	
	▼
Field security	
Security role	
Segregation of duties rule	
	▼
Field security	
Security role	
Segregation of duties rule	

NEW QUESTION: 40

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution. After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are a functional consultant who is deploying Dynamics 365 for Finance and Operations.

The implementation must:

Use an iterative approach

Integrate with real-world data

Enforce standards and governance

Implement multiple rounds of feedback

You need to deploy and validate the implementation.

Solution: Deploy the out-of-the-box solution. Enable users to customize the solution based on individual user scenarios.

Does the solution meet the goal?

A. Yes

B. No

Answer: B (LEAVE A REPLY)

Explanation/Reference:

NEW QUESTION: 41

You need to recommend the appropriate number of production instances and the hosting location. What should you recommend?

A. One on-premises production instance hosted in United States and one cloud production instance hosted in China.

B. Two production instances hosted in China and the United States.

C. One production instance in China.

- D. One production instance hosted in the United States.
- E. Two on-premises production instances hosted in both China and the United States.

Answer: A (LEAVE A REPLY)

NEW QUESTION: 42

A local community college uses Microsoft SharePoint Online to track and manage laptop computers that are issued to faculty and other employees.

Information about all laptops must be visible in Asset Management for Dynamics 365 Supply Chain Management. Users must be able to issue new laptop computers to faculty and other employees directly from the system.

You need to recommend a solution for the college.

Which two actions should you recommend? Each correct answer provides a complete solution.

NOTE: Each correct selection is worth one point.

- A. Implement data management.
- B. Implement human resources.
- C. Embed PowerApps into the Employees form.
- D. Implement fixed assets.

Answer: B,C (LEAVE A REPLY)

Reference:

NEW QUESTION: 43

A company uses Dynamics 365 Finance.

The company receives a large number of accounts payable invoices on a regular basis that are currently being entered manually.

You need to research ways accounts payable invoices can be created automatically.

What should you recommend? To answer, drag the appropriate solutions to the correct scenarios.

Each solution may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Solutions	Scenario	Solution
Vendor invoice automation	Standard interface in Dynamics 365 Finance that can accept machine-ready invoice metadata format with applicable attachments.	<input type="text"/>
Optical character recognition (OCR)	Technology that converts contained images into text format	<input type="text"/>
EDI 810	Electronic format to send invoices.	<input type="text"/>
Vendor collaboration	Workspace designed for vendors to view invoice information and to submit invoices to Dynamics 365 Finance.	<input type="text"/>

Answer:

Solutions	Scenario	Solution
Vendor invoice automation	Standard interface in Dynamics 365 Finance that can accept machine-ready invoice metadata format with applicable attachments.	Vendor invoice automation
Optical character recognition (OCR)	Technology that converts contained images into text format.	Optical character recognition (OCR)
EDI 810	Electronic format to send invoices.	EDI 810
Vendor collaboration	Workspace designed for vendors to view invoice information and to submit invoices to Dynamics 365 Finance.	Vendor collaboration

Explanation

Scenario	Solution
Standard interface in Dynamics 365 Finance that can accept machine-ready invoice metadata format with applicable attachments.	Vendor invoice automation
Technology that converts contained images into text format.	Optical character recognition (OCR)
Electronic format to send invoices.	EDI 810
Workspace designed for vendors to view invoice information and to submit invoices to Dynamics 365 Finance.	Vendor collaboration

NEW QUESTION: 44

You are working as a functional consultant in a new Dynamics 365 for Finance and Operations environment.

Your organization conducts business within the United States, with offices in several states. The organization has legal entities defined for each state and must share common tables between entities.

Each legal entity has the following setup:

Users

Products

Customers

Tax authorities

Payment terms

Human Resources data

Site-specific stock ordering

You need to consolidate reports used for financial-consolidation reporting in a new legal entity.

What should you do?

A. Specify the range of product for consolidation

B. Define the consolidation period

C. Create users

D. Define Human Resources data

Answer: B (LEAVE A REPLY)

NEW QUESTION: 45

A multinational organization is evaluating Dynamics 365 Supply Chain Management.

Each regional office uses processes and procedures developed internally without input from the other offices.

The organization wants to perform a gap analysis to understand redundancies and additional requirements in their system.

You need to recommend a solution.

Which tool should you recommend? To answer, select the appropriate options in the answer area.

NOTE; Each correct selection is worth one point.

Scenario	Tool
Identify differences between regional office processes and procedures.	<input type="checkbox"/> Business process modeler <input type="checkbox"/> Configuration manager <input type="checkbox"/> Regression suite automation tool (RSAT)
Track the progress of the implementation project and its alignment to documented processes and procedures.	<input type="checkbox"/> Business process modeler <input type="checkbox"/> Microsoft Azure DevOps <input type="checkbox"/> Regression suite automation tool (RSAT)
Identify differences between standard company processes and how the system works.	<input type="checkbox"/> Business process modeler <input type="checkbox"/> Configuration manager <input type="checkbox"/> Regression suite automation tool (RSAT)

Answer:

Scenario	Tool
Identify differences between regional office processes and procedures.	<input type="checkbox"/> Business process modeler <input type="checkbox"/> Configuration manager <input type="checkbox"/> Regression suite automation tool (RSAT)
Track the progress of the implementation project and its alignment to documented processes and procedures.	<input type="checkbox"/> Business process modeler <input type="checkbox"/> Microsoft Azure DevOps <input type="checkbox"/> Regression suite automation tool (RSAT)

Compile binaries into a package for build and release pipelines.

- Dynamics Lifecycle Services (LCS) Asset Upload
- Dynamics Lifecycle Services (LCS) Asset Deployment
- Create Deployable Package
- Add Licenses to Deployable Package
- Update Model Version

NEW QUESTION: 48

DRAG DROP

A company plans to implement Dynamics 365 Supply Chain Management.

The company has the following requirements:

- * Use mobile devices for warehouse activities including cycle counting.
- * Set up automatic cycle counting work IDs and assign the IDs to workers.
- * Ensure that workers can group work IDs that are specific to a particular location, zone, or work pool.
- * Ensure that workers can specify a cycle counting work ID that has a status of Open.
- * Ensure that workers can count items in a warehouse location at any time.

You need to recommend cycle counting options that meet the company's requirements.

What should you recommend? To answer, drag the appropriate counting options to the correct requirements.

Each counting option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Cycle count options

- User directed
- System directed
- Cycle count grouping
- Spot cycle count

Answer Area

Requirement

- Specify a cycle counting work ID that has a status of **Open**.
- Automatically assign a cycle counting work ID to a worker.
- Group work IDs that are specific to a particular location, zone, or work pool.
- Count items in a warehouse location at any time.

Cycle count option

- Cycle count option
- Cycle count option
- Cycle count option
- Cycle count option

Answer:

Cycle count options

- User directed
- System directed
- Cycle count grouping
- Spot cycle count

Answer Area

Requirement

- Specify a cycle counting work ID that has a status of **Open**.
- Automatically assign a cycle counting work ID to a worker.
- Group work IDs that are specific to a particular location, zone, or work pool.
- Count items in a warehouse location at any time.

Cycle count option

- User directed
- System directed
- Cycle count grouping
- Spot cycle count

Section: Design solution components

NEW QUESTION: 53

A trading company is concerned about the impact of General Data Protection Regulation (GDPR) on their business.

The company needs to define personal data for their business purposes.

You need to define personal data as defined by GDPR.

Which three types of data are considered personal data? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. password
- B. Social Security number
- C. a portion of the address (region, street, postcode etc.)
- D. International article (EAN) number

E. MAC address

Answer: A,B,C (LEAVE A REPLY)

Section: Identify solution requirements

NEW QUESTION: 54

A company uses Dynamics 365 Finance and Supply Chain Management.

The company would like to add a third-party solution for scheduling appointments.

You need to recommend a solution to transfer critical schedule information.

Which two actions should you perform to make a recommendation? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Analyze the impact of the new system in each business unit.
- B. Categorize business requirements for functional consultants to identify gaps in functionality.
- C. Describe the new functionality that is missing in the current system.
- D. Identify business processes that must be added, removed, or modified by functional consultants.

Answer: B,D (LEAVE A REPLY)

Section: Identify solution requirements

NEW QUESTION: 55

A local art school is considering a new Dynamics 365 Finance cloud implementation.

The school needs to select a system authentication type.

Which two setup options does the implementation require? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Use a valid Azure Active Directory (Azure AD) account.
- B. Use a valid Active Directory account
- C. Use OAuth.
- D. Use assigned roles.
- E. Use an enabled Dynamics 365 Finance user.

Answer: A,D (LEAVE A REPLY)

NEW QUESTION: 56

A company produces automotive components. The company uses Microsoft Excel to track the quantity of parts on hand. The company wants to automate processes to track inventory using Dynamics 365 Supply Chain Management You need to ensure that the company can track supplies and determine when to purchase new inventory. Which two features should you use? Each correct answer presents part of the solution. NOTE:

Each correct selection is worth one point.

- A. Purchase agreements
- B. Demand forecasting
- C. Purchase policies
- D. Purchase requisitions
- E. Master planning

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 57

A company use Dynamics 365 Business Central.

The company identifies the following issues:

* Users report they cannot perform planning and dispatching of service orders or track bills of material in the system.

* The finance department says that licensing costs are higher than budgeted.

You need to recommend a solution to address the issues.

What should you recommend?

- A. Use the Lifecycle Services business process modeler to create service order management and manufacturing tasks in the BPM Library.
- B. Perform a fit-gap analysis. Implement service order management and manufacturing business processes and license changes.
- C. Configure all users as Business Central Premium users.
- D. Ensure that the service order management and manufacturing processes steps are documented in a flow chart.
- E. Configure all users as Business Central Essentials users.

Answer: B ([LEAVE A REPLY](#))

Section: Identify solution requirements

NEW QUESTION: 58

A company is using Dynamics 365 Finance.

You need to ensure that the production environment always uses the latest service updates from Microsoft.

What should you recommend?

- A. Run the code upgrade service to analyze the code.
- B. Request the update through a service request.
- C. Deploy a production environment.
- D. Set update settings for continuous updates.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 59

A telecom provider uses Microsoft SharePoint to track and manage mobile phones that are issued to employees.

All information about employee-issued mobile phones be visible in Dynamics 365. Managers must be able to issue new phones directly from the system.

You need to design an integration solution using Dynamics 365 and SharePoint.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation

NEW QUESTION: 60

An organization is implementing Dynamics 365 Finance.

You need to assign security roles.

Which tools should you use? To answer, drag the appropriate tools to the correct tasks. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation

NEW QUESTION: 61

A graphic design school is implementing ERP by using Dynamics 365 Finance.

The school needs to provide operational training and online training for employees.

You need to identify the right type of instance for the situation.

Which instance type should you recommend? To answer, drag the appropriate instance types to the correct requirements. Each instance type may be used once, more than once, or not at all.

You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

NEW QUESTION: 62

A client has a third-party warehouse management system.

Data from the system must be integrated with Dynamics 365 Finance in near real-time. You need to determine an integration solution.

Which two solutions should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. OData
- B. Batch data API processed daily
- C. Business events
- D. Data management

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 63

Company policy restricts employees from filling expense reports for the reimbursement of alcoholic beverages.

You need to recommend a solution that checks all expense reports for this requirement.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Create a new policy rule for expense keywords rule type.

Select table name, field name, and Prohibited keywords.

Create an audit policy for a legal entity.

Create an audit policy and add the Prohibited keywords.

Create a new policy rule for Prohibited keywords rule type.

Answer Area

freedumps.com

Microsoft

Answer:

Answer Area

Create a new policy rule for expense keywords rule type.

Select table name, field name, and Prohibited keywords.

Create an audit policy for a legal entity.

- 1 - Create a new policy rule for expense keywords rule type.
- 2 - Select table name, field name, and Prohibited keywords.
- 3 - Create an audit policy for a legal entity.

NEW QUESTION: 71

Fourth Coffee plans to implement Dynamics 365 Finance and Dynamics 365 Supply Chain Management. The company owns and operates the following divisions:

Division	Action
Production	Packages and roasts coffee beans
Distribution	Delivers products to market

You need to ensure that Fourth Coffee can report financial results by division. Which strategy should you recommend?

- A. Create two legal entities, create one site and associate a financial dimension per company.
- B. Create one legal entity with one site that has two warehouses. Associate the financial dimensions to the warehouses.
- C. Create two legal entities, create one warehouse and associate the financial dimension to the warehouse.
- D. Create one legal entity with two sites. Associate financial dimensions to sites.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 72

A research institute is implementing Dynamics 365 Finance and plans to use Lifecycle Services (LCS) to standardize the implementation process.

You need to define a strategy for implementing LCS tools to meet the requirements.

What should you recommend? To answer, drag the appropriate tools to the correct tasks. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools	Answer Area	Task	Tool
Usage profiler		View a detailed summary of consumed characteristics modeled for an organization.	Tool
Performance metrics		View the most expensive queries for selected period.	Tool
Business process modeler		Create, view, and modify repeatable implementations.	Tool
Upgrade analysis		Plan full-version, minor-version, and in-place upgrades.	Tool

Answer:

Tools

- Usage profiler
- Performance metrics
- Business process modeler
- Upgrade analysis

Answer Area

Task

- View a detailed summary of consumed characteristics modeled for an organization.
- View the most expensive queries for selected period.
- Create, view, and modify repeatable implementations.
- Plan full-version, minor-version, and in-place upgrades.

Tool

- Usage profiler
- Performance metrics
- Business process modeler
- Upgrade analysis

Explanation

Tools

NEW QUESTION: 79

A winery is considering using Dynamics 365 Finance to implement a large-scale ERP application and needs to understand the differences between cloud-based and on-premises deployments.

You need to recommend deployment options for the company.

What should you recommend? To answer, drag the appropriate deployment types to the correct features. Each deployment type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Deployment types	Feature	Deployment type
Cloud only	General journals	Deployment type
On-premises only	Sales orders	Deployment type
Both cloud and on-premises	Lifecycle Services monitoring	Deployment type
	Document Routing Agent	Deployment type

Answer:

Deployment types	Feature	Deployment type
Cloud only	General journals	Both cloud and on-premises
On-premises only	Sales orders	Both cloud and on-premises
Both cloud and on-premises	Lifecycle Services monitoring	Both cloud and on-premises
	Document Routing Agent	Cloud only

NEW QUESTION: 80

A company plans to implement Dynamics 365 Supply Chain Management. The company has the following requirements:

- * Use mobile devices for warehouse activities including cycle counting.
- * Set up automatic cycle counting work IDs and assign the IDs to workers.
- * Ensure that workers can group work IDs that are specific to a particular location, zone, or work pool.
- * Ensure that workers can specify a cycle counting work ID that has a status of Open.
- * Ensure that workers can count items in a warehouse location at any time.

You need to recommend cycle counting options that meet the company's requirements.

What should you recommend? To answer, drag the appropriate counting options to the correct requirements.

Each counting option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Cycle count options	Requirement	Cycle count option
User directed	Specify a cycle counting work ID that has a status of Open.	Cycle count option
System directed	Automatically assign a cycle counting work ID to a worker.	Cycle count option
Cycle count grouping	Group work IDs that are specific to a particular location, zone, or work pool.	Cycle count option
Spot cycle count	Count items in a warehouse location at any time.	Cycle count option

Answer:

Cycle count options

- User directed
- System directed
- Cycle count grouping
- Spot cycle count

Answer Area

Requirement

- Specify a cycle counting work ID that has a status of **Open**.
- Automatically assign a cycle counting work ID to a worker.
- Group work IDs that are specific to a particular location, zone, or work pool.
- Count items in a warehouse location at any time.

Cycle count option

- User directed
- System directed
- Cycle count grouping
- Spot cycle count

Explanation

Cycle count options

- User directed
- System directed
- Cycle count grouping
- Spot cycle count

Answer Area

Requirement

- Specify a cycle counting work ID that has a status of **Open**.
- Automatically assign a cycle counting work ID to a worker.
- Group work IDs that are specific to a particular location, zone, or work pool.
- Count items in a warehouse location at any time.

Cycle count option

- User directed
- System directed
- Cycle count grouping
- Spot cycle count

NEW QUESTION: 82

A customer is implementing Dynamics 365 Finance and Dynamics 365 Supply Chain Management.

The customer wants to use this implementation to standardize business processes.

You need to perform a gap analysis and recommend how to address the gaps.

Which functionality should you recommend for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Functionality
Multiple requisitions must be consolidated into a single purchase order.	<ul style="list-style-type: none">Purchase requisition workflowConsolidation legal entityDemand consolidationPurchase order versions
Headcount must be tracked in the general ledger for reporting purposes.	<ul style="list-style-type: none">Statistical accountsPosting layersCost entryCost control unit
The system must be configured to maintain appropriate stock levels.	<ul style="list-style-type: none">Item coverageMaster planningStock countingStorage dimensions

Answer:

Requirement

Functionality

Multiple requisitions must be consolidated into a single purchase order.

	▼
Purchase requisition workflow	
Consolidation legal entity	
Demand consolidation	
Purchase order versions	

Headcount must be tracked in the general ledger for reporting purposes.

	▼
Statistical accounts	
Posting layers	
Cost entry	
Cost control unit	

The system must be configured to maintain appropriate stock levels.

	▼
Item coverage	
Master planning	
Stock counting	
Storage dimensions	

Explanation

Requirement

Multiple requisitions must be consolidated into a single purchase order.

Headcount must be tracked in the general ledger for reporting purposes.

The system must be configured to maintain appropriate stock levels.

Functionality

	▼
Purchase requisition workflow	
Consolidation legal entity	
Demand consolidation	
Purchase order versions	
	▼
Statistical accounts	
Posting layers	
Cost entry	
Cost control unit	
	▼
Item coverage	
Master planning	
Stock counting	
Storage dimensions

NEW QUESTION: 83

You are a Dynamics 365 for Finance and Operations system administrator.

The expense department relies heavily on properly operating workflows. If there is a failure in the workflow, the issue needs to get resolved quickly.

You need to make sure that the system actively tracks the status, so the support team can monitor and take actions against any failures.

What should you do? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Set the Ignore task failure flag of the Workflow message processing batch job to False.
- B. Set the priority field of the Workflow message processing batch job to 1.
- C. Set the batch job named Workflow message processing to send an email when the status of the batch job is Error.
- D. Set the monitoring category of the Workflow message processing batch job to Workflow.
- E. Set the critical job flag of the Workflow message processing batch job to True.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 84

You are planning a Dynamics 365 implementation.

You need to recommend a solution for the different types of environment instances. What should you recommend? To answer, drag the appropriate instance types to the correct scenarios. Each instance type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Instance types	Answer Area	Instance type
Tier 1	<p>Scenario</p> <p>Single-box instance that the customer can use as an automated build environment.</p> <p>Multi-box instance that customers can use for user acceptable testing.</p> <p>Environment that uses Microsoft SQL server.</p>	instance type
Tier 2		instance type
Production		instance type

Answer:

Instance types	Answer Area	Instance type
Tier 1	<p>Scenario</p> <p>Single-box instance that the customer can use as an automated build environment.</p> <p>Multi-box instance that customers can use for user acceptable testing.</p> <p>Environment that uses Microsoft SQL server.</p>	Tier 1

NEW QUESTION: 85

A trading company is concerned about the impact of General Data Protection Regulation (GDPR) on their business.

The company needs to define personal data for their business purposes. You need to define personal data as defined by GDPR.

Which three types of data are considered personal data? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. password
- B. MAC address
- C. International article (EAN) number
- D. Social Security number
- E. a portion of the address (region, street, postcode etc.)

Answer: A,D,E (LEAVE A REPLY)

NEW QUESTION: 86

A company is implementing a new Dynamics 365 cloud deployment. The stakeholders need to confirm that performance testing meets their expectations. The single-user rest procure-to-pay scenario is complete. You need to successfully complete the multi-user load test. Which tool should you recommend?

- A. PerfSDK
- B. Visual Studio
- C. Microsoft Dynamics Lifecycle Services
- D. Microsoft Azure DevOps

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 87

A company produces automotive components. The company uses Microsoft Excel to track the quantity of parts on hand. The company wants to automate processes to track inventory using Dynamics 365 Supply Chain Management. You need to ensure that the company can track supplies and determine when to purchase new inventory. Which two features should you use? Each correct answer presents part of the solution. NOTE:

Each correct selection is worth one point.

- A. Demand forecasting
- B. Master planning
- C. Purchase requisitions
- D. Purchase agreements
- E. Purchase policies

Answer: ([SHOW ANSWER](#))

Section: Define solution testing and management strategies

NEW QUESTION: 89

You are configuring automated business processes for an organization.

The business analyst has identified the following requirements:

Invoices need to be approved before payment.

A person who submits an item to workflow cannot approve that item.

You need to recommend a configuration workflow.

What should you recommend?

- A. Create an advanced rule to validate signing limit in the workflow.
- B. Leave workflow settings at default to prevent approvals.
- C. Create a special rule in the workflow to prevent approval.
- D. Enable Disallow approval by submitter in the workflow configuration.

Answer: D (LEAVE A REPLY)

NEW QUESTION: 90

A company is moving financial workloads to Dynamics 365 Finance.

Balance sheet accounts do not require department dimension postings while profit and loss accounts require department dimensions.

You need to determine which functionality achieves the goal.

What should you recommend?

- A. Legal entities
- B. Financial dimension sets
- C. Financial dimensions
- D. Account structures

Answer: D (LEAVE A REPLY)

NEW QUESTION: 91

Fourth Coffee plans to implement Dynamics 365 Finance and Dynamics 365 Supply Chain Management. The company owns and operates the following divisions:

Division	Action
Production	Packages and roasts coffee beans
Distribution	Delivers products to market

You need to ensure that Fourth Coffee can report financial results by division. Which strategy should you recommend?

- A. Create two legal entities, create one warehouse and associate the financial dimension to the warehouse.
- B. Create one legal entity with one site that has two warehouses. Associate the financial dimensions to the warehouses.
- C. Create two legal entities, create one site and associate a financial dimension per company.

D. Create one legal entity with two sites. Associate financial dimensions to sites.

Answer: D (LEAVE A REPLY)

NEW QUESTION: 97

A graphics printing company using Dynamics 365 Supply Chain Management sells 100 percent made-to-order signs. These signs cannot be pre-produced.

The company wants to create an end-to-end process that includes production, sales order packing, and sales order picking.

You need to determine the order of the functions.

In which order should you recommend the actions be performed? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer area
Pack the box for the sales order.	
Use a production order to create the product.	
Pick for the sales order.	
Take a sales order.	
Process the sales order invoice.	

Answer:

ACTIONS	Answer area
Pack the box for the sales order.	Take a sales order.
Use a production order to create the product.	Use a production order to create the product.
Pick for the sales order.	Pick for the sales order.
Take a sales order.	Pack the box for the sales order.
Process the sales order invoice.	Process the sales order invoice.

Explanation

ACTIONS	Answer area
Pack the box for the sales order.	Take a sales order.
Use a production order to create the product.	Use a production order to create the product.
Pick for the sales order.	Pick for the sales order.
Take a sales order.	Pack the box for the sales order.
Process the sales order invoice.	Process the sales order invoice.

NEW QUESTION: 98

A graphic design school is implementing ERP by using Dynamics 365 Finance.

The school needs to provide operational training and online training for employees.

You need to identify the right type of instance for the situation.

Which instance type should you recommend? To answer, drag the appropriate instance types to the correct requirements. Each instance type may be used once, more than once, or not at all.

You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

NEW QUESTION: 100

A company plans to implement Dynamics 365 Supply Chain Management. The company has the following requirements:

Use mobile devices for warehouse activities including cycle counting.

Set up automatic cycle counting work IDs and assign the IDs to workers.

Ensure that workers can group work IDs that are specific to a particular location, zone, or work pool.

Ensure that workers can specify a cycle counting work ID that has a status of Open.
 Ensure that workers can count items in a warehouse location at any time.
 You need to recommend cycle counting options that meet the company's requirements.
 What should you recommend? To answer, drag the appropriate counting options to the correct requirements. Each counting option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Cycle count options	Requirement	Cycle count option
User directed	Specify a cycle counting work ID that has a status of Open .	Cycle count option
System directed	Automatically assign a cycle counting work ID to a worker.	Cycle count option
Cycle count grouping	Group work IDs that are specific to a particular location, zone, or work pool.	Cycle count option
Spot cycle count	Count items in a warehouse location at any time.	Cycle count option

Answer:

Cycle count options	Requirement	Cycle count option
User directed	Specify a cycle counting work ID that has a status of Open .	User directed
System directed	Automatically assign a cycle counting work ID to a worker.	System directed
Cycle count grouping	Group work IDs that are specific to a particular location, zone, or work pool.	Cycle count grouping
Spot cycle count	Count items in a warehouse location at any time.	Spot cycle count

NEW QUESTION: 105

You are an architect implementing Dynamics 365.

The Dynamics 365 administrator who manages deployments of components leaves the company.

Microsoft Azure DevOps pipelines must be configured to automate deployments.

You need to recommend which Microsoft Azure DevOps pipeline tasks to use to meet the requirements. What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement

Task

Add a package to a Lifecycle Services (LCS) project asset library.

- Dynamics Lifecycle Services (LCS) Asset Upload
- Dynamics Lifecycle Services (LCS) Asset Deployment
- Create Deployable Package
- Add Licenses to Deployable Package
- Update Model Version

Add a package from a Lifecycle Services (LCS) project asset library to a non-production environment.

- Dynamics Lifecycle Services (LCS) Asset Upload
- Dynamics Lifecycle Services (LCS) Asset Deployment
- Create Deployable Package
- Add Licenses to Deployable Package
- Update Model Version

Compile binaries into a package for build and release pipelines.

- Dynamics Lifecycle Services (LCS) Asset Upload
- Dynamics Lifecycle Services (LCS) Asset Deployment
- Create Deployable Package
- Add Licenses to Deployable Package
- Update Model Version

Answer:

NEW QUESTION: 106

A company plans to implement Dynamics 365 Supply Chain Management. The company has the following requirements:

- * Use mobile devices for warehouse activities including cycle counting.
- * Set up automatic cycle counting work IDs and assign the IDs to workers.
- * Ensure that workers can group work IDs that are specific to a particular location, zone, or work pool.
- * Ensure that workers can specify a cycle counting work ID that has a status of Open.
- * Ensure that workers can count items in a warehouse location at any time.

You need to recommend cycle counting options that meet the company's requirements.

What should you recommend? To answer, drag the appropriate counting options to the correct requirements.

Each counting option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Cycle count options	Requirement	Cycle count option
User directed	Specify a cycle counting work ID that has a status of Open .	Cycle count option
System directed	Automatically assign a cycle counting work ID to a worker.	Cycle count option
Cycle count grouping	Group work IDs that are specific to a particular location, zone, or work pool.	Cycle count option
Spot cycle count	Count items in a warehouse location at any time.	Cycle count option

Answer:

Cycle count options	Requirement	Cycle count option
User directed	Specify a cycle counting work ID that has a status of Open .	User directed
System directed	Automatically assign a cycle counting work ID to a worker.	System directed
Cycle count grouping	Group work IDs that are specific to a particular location, zone, or work pool.	Cycle count grouping
Spot cycle count	Count items in a warehouse location at any time.	Spot cycle count

Explanation

Cycle count options	Requirement	Cycle count option
User directed	Specify a cycle counting work ID that has a status of Open .	User directed
System directed	Automatically assign a cycle counting work ID to a worker.	System directed
Cycle count grouping	Group work IDs that are specific to a particular location, zone, or work pool.	Cycle count grouping
Spot cycle count	Count items in a warehouse location at any time.	Spot cycle count

NEW QUESTION: 107

A holding company with three independently managed and operated subsidiaries is implementing Dynamics 365 Finance.

The company needs to ensure the restriction of data for each company from subsidiary counterparts. You need to determine an organization structure.

Which structure should you recommend?

- A. single legal entity with default business unit financial dimension
- B. single entity that consolidates legal entities
- C. single legal entity with security policies
- D. separate legal entities
- E. single legal entity with custom business unit financial dimension

Answer: D (LEAVE A REPLY)

NEW QUESTION: 108

A company plans to implement Dynamics 365 Finance.

The company's current system contains sales tax-related data.

You need to design a solution that sequences the transfer of sales tax codes and sales tax groups.

What should you do?

- A. Design a data migration scenario.
- B. Write customization requirements.
- C. Analyze data integration points.
- D. Design user acceptance testing processes.

Answer: B (LEAVE A REPLY)

Section: Design solution components

NEW QUESTION: 109

A company wants to upgrade their current AX 2009 system to Dynamics 365.

You need to recommend a supported upgrade strategy for code and transactional data for the previous five years.

Which two options should you recommend? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Use the Data migration tool (DMT) to move the data from AX 2009 to Dynamics 365.
- B. Use Lifecycle Services Code upgrade tool to directory upgrade the code base from AX 2009 to Dynamics 365.
- C. Upgrade code from AX 2009 to AX 2012, and then AX 2012 to Dynamics 365.
- D. Use the Data Import/Export Framework to migrate the data from AX 2009 to Dynamics 365.

Answer: (SHOW ANSWER)

NEW QUESTION: 110

A company plans to implement Dynamics 365 Finance + Operations (on-premises).

The company has system compliance requirements that must be addressed. You need to design the solution for the company.

What should you address in the design?

- A. employee retirement
- B. data privacy
- C. fair labor standards
- D. equal employment opportunity

Answer: B (LEAVE A REPLY)

Topic 1, CoHo Vineyard and Winery Case Study

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and

sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

Overview

CoHo Vineyard and Winery is based in the United States. The company has a single vineyard. The company distributes full pallets of wine worldwide and sometimes sells wine by using a private label. Grape growing and wine production operations are owned and operated by a third-party company. The company uses bottles, accessories, and other disposables from a company in China.

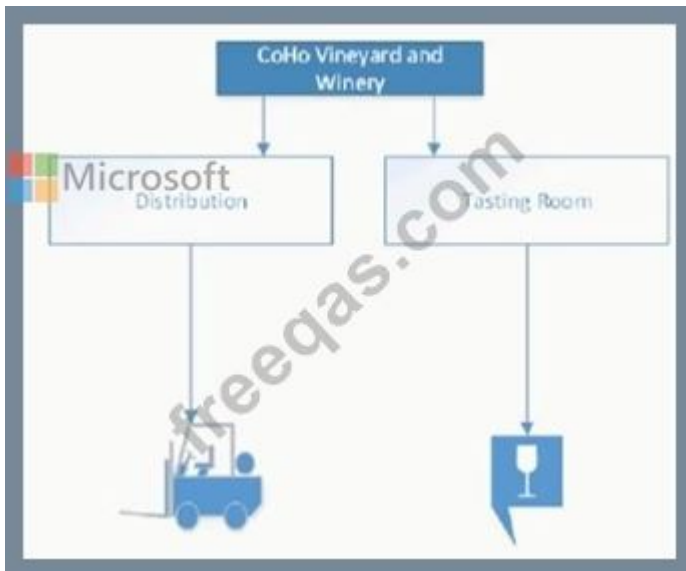

CoHo Vineyard and Winery opens a second location. This location manages inventory for Wine Club members and includes a wine tasting room. The location also includes a warehouse and distribution center.

The wine club currently has 200 members. The company hopes to increase this number.

The company holds events for club members in the tasting room and ships both full cases and individual bottles to members. The tasting room is not treated as a retail store. All sales to club members only and purchases must be made on-account.

Company structure

The following graphic shows the company structure:

Organization

The current organizational chart and roles as follows:

Current environment

Coho Vineyard and Winery currently uses manual processes for most of its operations. The company stores names and phone numbers for club members and prospective club members in a Microsoft Excel workbook.

The sales team currently tracks club membership in a separate system. Sales team stock awards are granted on a three-year basis. The solution for the sales Team cannot be replaced for three years.

- * The types of wine, such as cabernet sauvignon and red blends are tracked as separate items. Each item will have a year associated with it such as Red Blend 2017, 2018, 2019, etc. The items are updated for the year association annually.

- * Peak times for order entry could be in the hundreds. This typically happens when first and second shift workers overlap and all users are on the system, as well as orders imported in.

- * Packaging materials, bottles, and accessories are received in the warehouse FOB Destination from the manufacturer in China.

- * Each retailer has individual item numbers, barcode placement descriptions and other additions such as pictures and details of the wine year and flavor notes.

CoHo Vineyard and Winery has outgrown their legacy ERP system and plans to implement Dynamics 365 Finance. CoHo wants to use out-of-the-box tools which are linked to the system where possible and not create new tools.

Licensing and organization

- * Only the President/CEO, CFO, COO, Controller and VP Operations users must be able to access finance and warehouse features.

- * Warehouse users must only have access to warehouse function. All other users must have access to finance functions.

- * The distribution center must have mobile scanners for the warehouse. The tasting room will not have mobile scanners.

- * The inventory cost must be tracked separately by distribution center or tasting room.

Club membership events

- * You must ensure the members created in their existing system are also customers in Dynamics 365 Finance and that the customers do not exist in both systems under multiple record numbers.

- * When tasting events are planned, text notifications must be sent out to the club members.

- * text notifications must sent out to non-club members to encourage the non-members to join the club.

- * During tasting events. CoHo will need access to place orders during the event but will not have the need for cash registers.

Warehouse and shipping

- * The system must be able to track inventory throughout the whole warehouse process.

- * A Certificate of Origin must accompany each shipment.

- * Private label items that are shipped to retailers must be stored and costed as a single item number at CoHo.

- * The system must be able to compare year-to-year performance of a single wine type.

Implementation

- * Business processes must be documented as step-by-step processes and must align with the process flows in a visual format

- * Data will be migrated and is a requirement for order entry.

- * Data migration must be completed prior to testing.
- * You must track each step of process validation so that the users have ownership for their individual functional areas. The tracking system used should be integrated with the system where possible.

Issues

- * Users are struggling to understand the new system's processes.
- * CoHo is concerned that the go-live will may not go smoothly.

NEW QUESTION: 111

A company wants to upgrade their current AX 2009 system to Dynamics 365.

You need to recommend a supported upgrade strategy for code and transactional data for the previous five years.

Which two options should you recommend? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A.** Use the Data migration tool (DMT) to move the data from AX 2009 to Dynamics 365.
- B.** Use Lifecycle Services Code upgrade tool to directory upgrade the code base from AX 2009 to Dynamics 365.
- C.** Upgrade code from AX 2009 to AX 2012, and then AX 2012 to Dynamics 365.
- D.** Use the Data Import/Export Framework to migrate the data from AX 2009 to Dynamics 365.

NEW QUESTION: 112

A company is determining which reporting tools to use as part of a Dynamics 365 Finance implementation.

- * Scenario A: Power users must use a free form tool to allow other power users to leverage transactional data to be consumed externally.
- * Scenario B: Developers must use a modeling tool to allow all users to leverage aggregated data to be consumed internally.
- * Scenario C: Developers must a free form tool to allow all users to leverage transactional and aggregated data to be consumed internally and externally.
- * Scenario D: Power users must use a free form tool to allow all users to leverage aggregated data to be consumed internally and externally.
- * Scenario E: Power users must use a modeling tool to allow other power users to leverage transactional data to be consumed externally.

You need to recommend which tool should be used for each scenario.

Which tool should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

NEW QUESTION: 115

You are a Dynamics 365 for Finance and Operations system administrator.

You have 50 identified purchase order numbers that are not used in the system and are not being recycled.

Why they are missing is unknown. Purchasing operations is currently operating around the clock and no downtime can occur.

You need to use the missing numbers in the system.

What should you do?

- A. Run Automatic cleanup of number sequence and create the new purchase orders
- B. Run the Number sequence wizard for the purchase order number sequence
- C. Change the number sequence to continuous and create the new purchase orders
- D. Change the number sequence to non-continuous and create the new purchase orders
- E. Change the number sequence to manual, then manually assign the number sequences to the new purchase orders
