NEW QUESTION: 1

Which two statements are true regarding the creation and management of business rules in module-based Planning? (Choose two.)

- A. Pre-defined business rules for modules may be modified, but may be ignored after an application upgrade.
- B. Custom business rules for modules can only be created using the graphical designer.
- C. Custom business rules can be created for each module.
- D. Modules cannot use regular business rules. Instead, they must be scripted using Groovy.

Answer: B,C (LEAVE A REPLY)

NEW QUESTION: 2

In Data Management, what are the steps you need to perform to synchronize the application metadata in the target application? (Choose the best answer.)

- A. In Data Management, navigate to Application Dimensions and click Refresh Dimensions.
- B. In Data Management, to Target Application and select your Planning application. Click Refresh Metadata.
- C. In Data Management, navigate to Target Application and select your Planning application. Click Refresh Members.
- D. In Data Management, navigate to Import Format and select your Planning application. Click Refresh Dimensions.

Answer: (SHOW ANSWER)

NEW QUESTION: 3

A company has enabled and configured Financials. Which are three recommended post configuration tasks?

(Choose three.)

- A. Running Financials rules to aggregate and calculate the data

- B. Specifying days in period for driver-based Balance Sheet
- C. Modifying account signage for alternate reporting methods
- D. Setting Up Planning and Forecast Preparation
- E. Defining and managing the accounts and drivers
- F. Entering exchange rates

Answer: B,D,F ([LEAVE A REPLY](#))

NEW QUESTION: 4

Which three can be automated with EPMAutomate? (Choose three.)

- A. Run a Business Rule
- B. Import user security
- C. Migrate a backup between test and production
- D. Send an email to users
- E. Import a file into the Planning inbox

Answer: A,C,E ([LEAVE A REPLY](#))

NEW QUESTION: 5

Which three do you need to enable in order to perform indirect cash flow statement planning? (Choose three.)

- A. Income Statement
- B. Balance Sheet
- C. Expense
- D. Cash Flow Statement
- E. Revenue

Answer: C,D,E ([LEAVE A REPLY](#))

NEW QUESTION: 6

You want to move financial information from Projects to Financials for account level data. Which describes the action you can take to accomplish this? (Choose the best answer.)

- A. On the Financials Integration Summary form, from the Actions menu, select PFP Detail to calculate project data.
- B. In Financials, run the Financials Integration business rule to update data from Projects.
- C. Rollup project data which pushes data to Financials based on account mappings.
- D. In data maps, push data for the predefined Financial Statement Integration.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 7

Which three security design principles can help reduce overall security maintenance and troubleshooting, while still balancing security control? (Choose three.)

- A. Assigning global read access to each cube, then fine-tuning none and write access within dimensional security

- B. Creating groups over assigning individual access permissions to users
- C. Using inherited permissions
- D. Configuring single sign-on (SSO)
- E. Assigning a higher level role than necessary, then scaling back accesspermissions

Answer: B,C,E ([LEAVE A REPLY](#))

NEW QUESTION: 8

Which two clients or command line tools can you download from Planning? (Choose two.)

- A. EPMAutomate
- B. Strategic Modeling Smart View add-on
- C. Data Management
- D. Calculation Manager

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 9

In what three ways can Service Administrators implement EPM Automate in Planning? (Choose three.)

- A. To copy data from an aggregate storage database to a block storage database
- B. To copy data from a block storage database to an aggregate storage database
- C. To execute scripts that complete tasks using a scheduler
- D. To import and export metadata, data, artifacts and snapshots
- E. To promote financial plans to the next level in the approval hierarchy

Answer: ([SHOW ANSWER](#))

Explanation

Copy data from one database to another; typically, from a block storage database to an aggregate storage database. You can create scripts that are capable of completing a wide array of tasks and automate their execution using a scheduler. Import and export metadata, data, artifact and application snapshots, templates, and Data Management mappings.

NEW QUESTION: 10

What are the two primary use cases for an ASO reporting cube? (Choose two.)

- A. You want to report on Smart Lists in Planning, which you can't do in Planning
- B. You want to report on new Planning data originating from any source, such as a data warehouse
- C. You want to create and execute Calculation Manager business rules
- D. You want to create, maintain, and report on Attribute dimensions

Answer: A,D ([LEAVE A REPLY](#))

NEW QUESTION: 11

In Strategic Modeling Simulations, what are the three guidelinesfor selecting the appropriate probability distribution? (Choose three.)

- A. Evaluate the input in question, and list the conditions surrounding this input.
- B. Select the distribution where the conditions of the distribution match those of the input.
- C. Use the Monte Carlo method to best guess your probability distribution options based on a range of assumptions.
- D. Randomly generate a range of values for assumptions and enter best guess estimates one cell at a time.
- E. ACD
- F. Review the descriptions of the probability distributions.

Answer: [\(SHOW ANSWER\)](#)

NEW QUESTION: 12

A company would like to configure Financials, Workforce, and Projects. They would like to plan and forecast the Project dimension in Financials, as well as track employee utilization in Projects.

Which two actions must they take to ensure that the Project dimension is shared and the data integrated correctly across all three modules? (Choose two.)

- A. In Projects, ensure that the Employee driver-based expense is enabled
- B. In Financials, rename one of the custom dimensions to "Project" and enable it
- C. In Workforce, ensure that the granularity is at Employee or Employee and Job
- D. In Workforce, rename one of the custom dimensions to "Project" and enable it

Answer: C,D [\(LEAVE A REPLY\)](#)

NEW QUESTION: 13

In order to set up weekly planning for a continuous 18 months, which three options would need to be selected when initially configuring Financials? (Choose three.)

- A. Weekly Planning
- B. Rolling Forecast
- C. Weeks to months mapping
- D. Custom Periods
- E. Plan Element dimension

Answer: A,B,E [\(LEAVE A REPLY\)](#)

NEW QUESTION: 14

Which three metadata artifacts can be exported to a flat file? (Choose three.)

- A. Exchange Rate Tables
- B. Smart Lists
- C. Linked Reporting Objects
- D. Data Entry Forms
- E. Dimensions

Answer: A,B,E [\(LEAVE A REPLY\)](#)

NEW QUESTION: 15

Which two are supported funding methods in Strategic Modeling? (Choose two.)

- A. Employee-based funding method
- B. Proposed Projects funding method
- C. Target Capital Structure funding method
- D. Standard funding method

Answer: C,D (LEAVE A REPLY)

NEW QUESTION: 16

Which three accounts in Workforce leverage the Component dimension for driver and trend-based calculations? (Choose three.)

- A. Cash Flow
- B. Expense
- C. Balance Sheet
- D. Revenue

Answer: (SHOW ANSWER)

NEW QUESTION: 17

What is the correct sequence of steps for enabling each Planning module? Choose the best answer.

- A. Enable the module, configure the module, run post configuration tasks
- B. Enable the module, refresh the database
- C. Run pre-configuration tasks, enable the module, configure the module
- D. Configure the module, refresh the database

Answer: C (LEAVE A REPLY)

NEW QUESTION: 18

In Projects, which three types of revenue and expense assumptions drive data calculations? (Choose three.)

- A. Program mappings
- B. Project rates
- C. Working days and hours

- D. Plan start year
- E. Discount rates
- F. Standard rates

Answer: A,B,C ([LEAVE A REPLY](#))

NEW QUESTION: 19

In porting data from a BSO plan type to an ASO plan type, which method cannot be utilized?
Choose the best answer.

- A. Smart Push
- B. Data Maps
- C. XWRITE business rule
- D. Export/Import Capabilities

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 20

Which option is true when implementing access permissions in Planning? (Choose the best answer.)

- A. Users and groups are restricted from accessing applications by removing custom application and plan-type security
- B. Planning roles can be assigned to members in all dimensions in all modules in the application
- C. A member that is set to read that has a parent with write access to all descendants will result in an access level of read

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 21

What three actions can you perform on the data displayed in the Data Integration Workbench? (Choose three.)

- A. Apply a filter using Equal and a specific value
- B. Apply a filter using Contains and a specific value
- C. Drill-through to source from specified data cells
- D. Re-register or modify the data source system
- E. Open loaded data in Microsoft Excel

Answer: A,B,C ([LEAVE A REPLY](#))

NEW QUESTION: 22

What is the purpose of selecting the Project Benefits option when enabling Projects? (Choose the best answer.)

- A. To plan detailed project expenses for projects
- B. To plan detailed project revenue for Contract projects
- C. To help justify the need for projects and plan non-financial benefits

D. To track the Workforce expense benefits calculated on each Contract project

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 23

Which two client requirements align with using an ASO plan type alongside the module-based plan types?

(Choose two.)

- A. Due to sparse dimensionality, aggregation times are slow in the application.
- B. The client would like to report the results of the allocation process by Entity.
- C. The client has 10 dimensions in the application and needs to report at each intersection.
- D. The client would like to store 10 years of actuals history for reporting purposes but only requires prior year history for planning purposes.
- E. The client would like to plan revenue by Product and Services dimensions.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 24

If you choose to create your own chart of accounts in Financials, which four statements are TRUE? (Choose four.)

- A. You input or import your own accounts for each enabled feature.
- B. You cannot reuse existing integrated financial statements and must design your own financial statements that include the accounts you imported.
- C. You enable base or parent features to create an account structure with key members for you to add your own chart of accounts.
- D. You can perform calculations using existing rules, and plan using existing forms and dashboards.
- E. You do not need to enable base or parent features, and instead import the metadata directly into the Financials cube.
- F. Predefined drivers and the chart of accounts you brought in can co-exist within the Account dimension member outline.

Answer: A,B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 25

Which three Financials members within the Plan Element dimension allow for forecast and plan data entry?

(Choose three.)

- A. OFS_Direct Input
- B. OFS_% Increase/(Decrease)
- C. OFS_Form Entry
- D. OFS_Trend
- E. OFS_Input

Answer: B,C,D ([LEAVE A REPLY](#))
