NEW QUESTION: 1

Which REST API method would be used to execute a job in Planning? (Choose the best answer.)

- A. GET
- B. POST
- C. PUT
- D. EXECUTE

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 2

If you choose to create your own chart of accounts in Financials, which four statements are TRUE? (Choose four.)

- A. You input or import your own accounts for each enabled feature.
- B. You cannot reuse existing integrated financial statements and must design your own financial statements that include the accounts you imported.
- C. You do not need to enable base or parent features, and instead import the metadata directly into the Financials cube.
- D. You enable base or parent features to create an account structure with key members for you to add your own chart of accounts.
- E. Predefined drivers and the chart of accounts you brought in can co-exist within the Account dimension member outline.
- F. You can perform calculations using existing rules, and plan using existing forms and dashboards.

Answer: A,B,D,F ([LEAVE A REPLY](#))

NEW QUESTION: 3

Which three describe the supported rolling forecast time periods in Financials? (Choose three.)

- A. 1, 2, 4, 5 years
- B. 4, 12, 36 weeks
- C. 13, 26, or 52 weeks
- D. 4, 6, or 8 quarters
- E. 12, 18, 24, 30, 36, 48, or 60 months

Answer: C,D,E (LEAVE A REPLY)

NEW QUESTION: 4

In what three ways can Service Administrators implement EPM Automate in Planning? (Choose three.)

- A. To copy data from an aggregate storage database to a block storage database
- B. To copy data from a block storage database to an aggregate storage database
- C. To execute scripts that complete tasks using a scheduler
- D. To import and export metadata, data, artifacts and snapshots
- E. To promote financial plans to the next level in the approval hierarchy

Answer: B,C,D (LEAVE A REPLY)

Copy data from one database to another; typically, from a block storage database to an aggregate storage database. You can create scripts that are capable of completing a wide array of tasks and automate their execution using a scheduler. Import and export metadata, data, artifact and application snapshots, templates, and Data Management mappings.

NEW QUESTION: 5

You want to share detailed benefits data from Workforce with Financials.

Which statement describes the steps you must take? Choose the best answer.

- A. Enable and configure Financials and Workforce. Then in the Workforce Benefits and Taxes wizard, select a financial account to map the benefit to. For Compensation Data, synchronize and run the data map.
- B. Enable and configure Financials, and Workforce. When enabling Financials, create a custom Benefits dimension to map the data to. On the Financials Integration Summary form, run Calculate Compensation to update the Workforce data.
- C. Enable and configure Financials, and Workforce. Then to capture Workforce expenses for employees, enable Standard Rates from Workforce. For the Compensation Data for Reporting data map, synchronize then push the data.
- D. Enable and configure Financials, and Workforce. When enabling Workforce, create a custom Benefits dimension to map the data to. Then for the Financial Statement Integration data map, synchronize and push the data.

Answer: C (LEAVE A REPLY)

NEW QUESTION: 6

What is the purpose of selecting the Project Benefits option when enabling Projects?
(Choose the best answer.)

- A. To help justify the need for projects and plan non-financial benefits
- B. To track the Workforce expense benefits calculated on each Contract project
- C. To plan detailed project expenses for projects
- D. To plan detailed project revenue for Contract projects

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 7

Revenue planned in Projects is rolled up into Financials for contract projects. How must you set up the modules to share the data? Choose the best answer.

- A. To capture Project revenue, enable Standard Rates from Projects.
- B. When enabling Financials, create a custom Project dimension to map the data to.
- C. Set up the Contract Revenue Reporting data map to map contract-related revenue to Financials.
- D. In Projects, select an entity and map revenue accounts to Financials accounts for that entity.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 8

What three tasks can you perform in the Data Management Workbench? (Choose three.)

- A. Export
- B. Validate
- C. Maintain Process Tables
- D. Import
- E. Delete Integration

Answer: ([SHOW ANSWER](#))

Reference:

[using_the_data_load_workbench.html](#)

NEW QUESTION: 9

What three actions can you perform on the data displayed in the Data Integration Workbench? (Choose three.)

- A. Apply a filter using Contains and a specific value
- B. Apply a filter using Equal and a specific value
- C. Drill-through to source from specified data cells
- D. Open loaded data in Microsoft Excel
- E. Re-register or modify the data source system

Answer: A,B,C ([LEAVE A REPLY](#))

NEW QUESTION: 10

Which three artifacts can be imported from a flat file? (Choose three.)

- A. Smart Lists
- B. Linked Reporting Objects
- C. Exchange Rate Tables
- D. Dimensions
- E. Cell Text

Answer: [\(SHOW ANSWER\)](#)

NEW QUESTION: 11

What is the correct sequence of steps for enabling each Planning module? Choose the best answer.

- A. Run pre-configuration tasks, enable the module, configure the module
- B. Configure the module, refresh the database
- C. Enable the module, configure the module, run post configuration tasks
- D. Enable the module, refresh the database

Answer: [A \(LEAVE A REPLY\)](#)

NEW QUESTION: 12

What three time period management tasks can you perform in Strategic Modeling? (Choose three.)

- A. Enable the input option for upper level time periods when you add time detail.
- B. Create period-to-date, trailing periods, deal periods, and sub periods to record transactions.
- C. Configure time periods to reflect the detail required by financial models, such as different levels of granularity for different years.
- D. Combine periods of years, halves, quarters, months, and weeks for historical forecast data.
- E. Select and combine periods of years, halves, quarters, months, and weeks for the beginning balance year.

Answer: [A,D,E \(LEAVE A REPLY\)](#)

NEW QUESTION: 13

A company has enabled and configured Financials. Which are three recommended post configuration tasks? (Choose three.)

- A. Specifying days in period for driver-based Balance Sheet
- B. Defining and managing the accounts and drivers
- C. Running Financials rules to aggregate and calculate the data
- D. Entering exchange rates
- E. Modifying account signage for alternate reporting methods
- F. Setting Up Planning and Forecast Preparation

Answer: [A,D,F \(LEAVE A REPLY\)](#)

NEW QUESTION: 14

In Strategic Modeling Simulations, what are the three guidelines for selecting the appropriate probability distribution? (Choose three.)

- A. Randomly generate a range of values for assumptions and enter best guess estimates one cell at a time.
- B. Review the descriptions of the probability distributions.
- C. Evaluate the input in question, and list the conditions surrounding this input.
- D. Select the distribution where the conditions of the distribution match those of the input.
- E. Use the Monte Carlo method to best guess your probability distribution options based on a range of assumptions.

Answer: B,C,D (LEAVE A REPLY)

NEW QUESTION: 15

Which three are benefits of using EPM Enterprise Cloud Service over EPM Standard Cloud Service? (Choose three.)

- A. Custom Planning, which allows a high degree of business process customization to support business requirements
- B. enable preseeded configurable content including dimensions, models, forms, rules, dashboards, infolets, and reports for Strategic Modeling
- C. with Free Form Planning, deploy Planning business processes with no dimension requirements and create business processes using Essbase outline files
- D. use of the Groovy scripting language to create or customize business rules
- E. deploy more than one supported business process in the same instance

Answer: A,C,D (LEAVE A REPLY)

NEW QUESTION: 16

If the HSP_VIEW dimension exists in the cube, what feature has been enabled? (Choose the best answer.)

- A. Rolling Forecast
- B. Intercompany Eliminations
- C. Multicurrency
- D. Sandboxes

Answer: D (LEAVE A REPLY)

When a cube is enabled for sandboxes, the HSP_View dimension is created.

NEW QUESTION: 17

Which two tasks can be scheduled as a job in Planning? (Choose two.)

- A. Promote a Planning Unit
- B. Import or export data
- C. Execute Data Maps
- D. Create snapshots

Answer: A,B (LEAVE A REPLY)

NEW QUESTION: 18

In porting data from a BSO plan type to an ASO plan type, which method cannot be utilized? Choose the best answer.

- A. Data Maps
- B. Export/Import Capabilities
- C. XWRITE business rule
- D. Smart Push

Answer: C (LEAVE A REPLY)

NEW QUESTION: 19

To assign Workforce resources to initiatives, which default custom dimension is required in the Map/Rename Dimensions section? (Choose the best answer.)

- A. Measure
- B. Elective
- C. Project
- D. Program

Answer: (SHOW ANSWER)

NEW QUESTION: 20

A company has enabled Financials and now would like to make changes to the initial configuration. Which three changes can be made? (Choose three.)

- A. Enabling Rolling Forecast
- B. Enabling Income Statement
- C. Disabling already enabled features
- D. Adding custom dimensions
- E. Removing custom dimensions
- F. Enabling Expense

Answer: A,B,F (LEAVE A REPLY)

NEW QUESTION: 21

When defining data load mappings in Data Management, what are the available types of member mappings? (Choose the best answer.)

- A. Explicit, Between, In, Multi Dimension, Like
- B. Explicit, Range, In, Multi Dimension, Like
- C. Explicit, Range, In, Ignore, Like
- D. Explicit, Range, In, Multi Dimension, As

Answer: A (LEAVE A REPLY)

NEW QUESTION: 22

When loading Salaries into Workforce, which Property should the values be loaded to? (Choose the best answer.)

- A. OWP_Gross Earnings
- B. OWP_Salary Basis
- C. OWP_Value
- D. OWP_Expense Amount

Answer: B (LEAVE A REPLY)

The salary basis specifies the frequency of the amount sent to payroll and stored as salary, such as annual or hourly amount. It also specifies the payroll element and input value that feeds the salary to payroll and the grade rate that provides the salary range.

NEW QUESTION: 23

After enabling Financials, which three are recommended configuration tasks? (Choose three.)

- A. Setting up exchange rates (for multicurrency applications)
- B. Removing custom dimensions
- C. Adding custom expense driver categories
- D. Adding custom dimensions
- E. Completing Planning and Forecast Preparation

Answer: A,D,E (LEAVE A REPLY)
